

STATE OF MINNESOTA

Office of the State Auditor

Patricia Anderson Awada
State Auditor

Volunteer Firefighter Relief Association
Compilation Report
For the Year Ended December 31, 2002

Description of the Office of the State Auditor

The Office of the State Auditor serves as a watchdog for Minnesota taxpayers by helping to ensure financial integrity, accountability, and cost-effectiveness in local governments throughout the state.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The Office of the State Auditor performs approximately 250 financial and compliance audits per year and has oversight responsibilities for over 4,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits for local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the State Auditor and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government.

Pension Oversight - monitors investment, financial, and actuarial reporting for over 700 public pension funds;

Tax Increment Financing (TIF) - promotes compliance and accountability in local governments' use of TIF through financial and compliance audits;

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employee's Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Office of the State Auditor
525 Park Street, Suite 500

Scope of Report

This report is a compilation of the annual financial information for Minnesota's volunteer firefighter relief associations for the year ended December 31, 2002. The financial information, which is presented in charts and tables, is distributed to volunteer firefighter relief associations, state lawmakers and local government officials. The charts and tables present plan types, net assets, accrued liabilities, municipal contributions, administrative expenses, investment earnings and membership statistics.

This report covers 695 of the 708 volunteer firefighter relief associations operating in Minnesota in 2002. The 708 are comprised of 89 defined contribution plans, 596 defined benefit lump sum plans, 5 defined benefit monthly plans and 18 defined benefit monthly/lump sum combination plans as shown in the chart on page 2.

Only 13 volunteer firefighter relief associations did not submit all required information in a timely manner or reconcile their information in time for inclusion in this report. Four volunteer firefighter relief associations (Arrowhead, Brownsville, Culver and Minnesota City) did not have data to report based on their recent incorporation with the Office of the Secretary of State.

Background

Each year, volunteer firefighter relief associations must file required financial and investment information with the State Auditor's Office. Those with assets and liabilities less than \$200,000 must report by March 31 and those with assets or liabilities of at least \$200,000 must report by June 30. Statutory financial, actuarial and investment reporting requirements must be satisfied for volunteer firefighter relief associations to be certified as eligible to receive their apportioned share of fire state aid.

As of November 2003, only 15 volunteer firefighter relief associations had yet to be certified as eligible for fire state aid. The State Auditor's Office will continue to work with those relief associations to meet their reporting requirements before the Department of Revenue's next fire state aid disbursement in March 2004.

Table Highlights

Table 1 offers revenue and expenditure data in total and by plan type for those volunteer firefighter relief associations included in this report.

The funding status and funding ratios of individual volunteer firefighter relief associations are covered in Table 2. Defined benefit plans reporting funding ratios under 95 percent are listed in Table 2-A whereas those reporting funding ratios above 110 percent are listed in Table 2-B. Defined contribution plans are not included in these tables because they should be fully funded based on the nature of those plans.

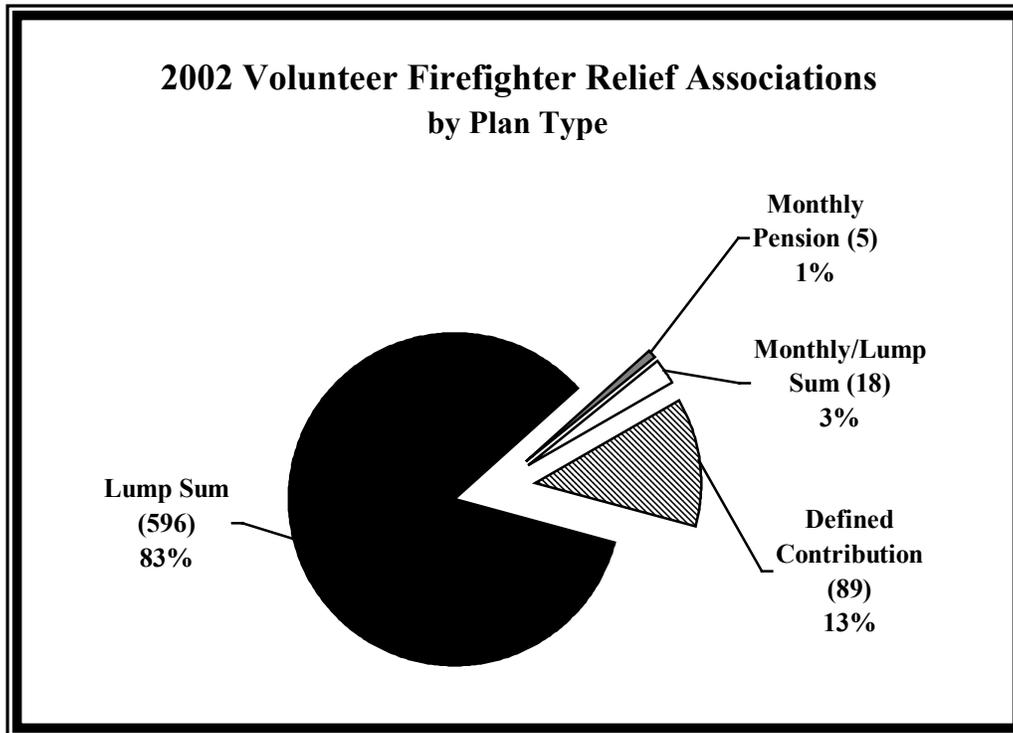

Table 3 describes key actuarial statistics for lump sum plans and Table 4 does the same for monthly plans and monthly/lump sum combination plans.

Revenue and expenditure information is examined in Table 5. Revenues include fire state aid, municipal contributions, investment earnings, and other. Other revenues can include supplemental benefit reimbursements, member contributions and donations. Expenditures include administration, service pensions and other. Volunteer firefighter relief associations with administrative expenses exceeding one percent of assets are found in Table 5-A and those paying expenses greater than \$20,000 are shown in Table 5-B.

Table 6 outlines membership statistics, minimum retirement age, minimum years of service, pension amounts and performance bonds for certain relief association officers. Descriptions of disability, survivor and funeral benefits are provided if offered by individual volunteer firefighter relief associations. Increases and decreases to the annual service pension benefit amount of volunteer firefighter relief associations are reviewed in Table 6-A and Table 6-B, respectively.

A summary of the volunteer firefighter relief associations included in this report is presented by plan type and benefit category in Appendix A. An alphabetical index of all volunteer firefighter relief associations is provided in Appendix B. Those that are subsidiary to independent nonprofit firefighting corporations are named in Appendix C.

Overview

In 2002, the funding ratios and investment earnings of many volunteer firefighter relief associations continued to decline with the three-year downturn in the equities market. Positive investment gains occurred for 121 of the volunteer firefighter relief associations included in this report while 574 experienced investment losses. The service pension payments and total investment loss of the 695 volunteer firefighter relief associations included in this report exceeded the total of their fire state aid and municipal contributions by \$23,822,395.

Funding Ratios

Funding ratios are an important indicator of the health of a pension plan. They help explain how well funded a plan is by showing the relationship between its assets and liabilities. High ratios can reflect low benefit levels in comparison to pension plan surpluses providing the opportunity to reduce contributions or increase benefit levels. Low ratios may signal the need for greater contributions or a reduction in benefit levels if other plan variables do not improve.

The funding ratios for volunteer firefighter relief associations included in this report ranged from Deer Creek's 38 percent to Nassau's 891 percent (Table 2). Others with high ratios in 2002 were Maple Hill – 739 percent, Northland – 636 percent, Pequaywan – 470 percent, and Twin Lakes-Freeborn County – 266 percent. The lowest ratios were experienced by Saint Bonifacius – 52 percent, Alexandria – 54 percent, Chanhassen – 54 percent, Hamburg – 54 percent, and Pipestone – 54 percent.

Over half of the volunteer firefighter relief associations included in the report had assets less than 95 percent of their liabilities. The number rose from 252 in 2001 to 357 in 2002 (Table 2-A). The number of those funded over 110 percent fell from 201 in 2001 to 135 in 2002 (Table 2-B).

Fire State Aid

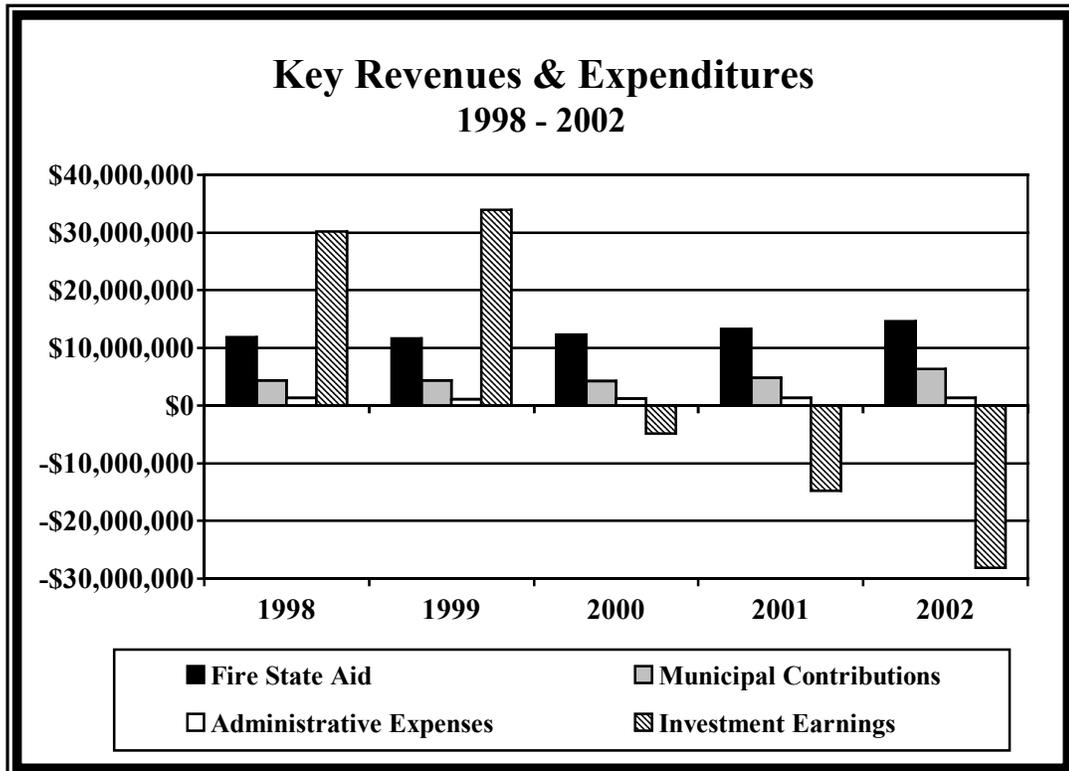

The total fire state aid distributed to the volunteer firefighter relief associations included in this report was \$14,584,066. The average aid was \$20,984, up from an average of \$19,142 in 2001. Some small volunteer firefighter relief associations saw less fire state aid in 2002 than in 2001 because of a decrease in the amount available for the distribution of additional minimum fire state aid from \$1,065,323 in 2001 to \$615,373 in 2002. The additional minimum fire state aid is provided to volunteer firefighter relief associations established after 1993 with up to 30 members and those established after 1999 with no more than 20 members.

The top five volunteer firefighter relief association recipients of fire state aid were Plymouth – \$319,416, Eden Prairie – \$288,496, Edina – \$275,024, Eagan – \$273,233, and Minnetonka – \$270,808. The lowest apportionments of fire state aid went to Federal Dam – \$1,092, Iona – \$2,536, Ellsburg – \$2,818, Northland – \$2,818, and Elbow-Tulaby Lake – \$2,960.

Municipal Contributions

Municipal contributions help volunteer firefighter relief associations keep on track to become or remain fully funded. The total municipal contributions in 2002 for the volunteer firefighter relief associations included in this report were \$6,379,562. The average municipal contribution for all volunteer firefighter relief associations – which measures both voluntary and required contributions – rose substantially to \$9,179 in 2002 from \$6,888 in 2001. This increase may reflect lower investment earnings and a decline in the number of volunteer firefighter relief associations with a plan surplus from 291 in 2001 to 199 in 2002.

Nearly one-third (227) of the volunteer firefighter relief associations did not receive a municipal contribution. Of those receiving a municipal contribution, the average amount was \$13,632 although the median amount was \$5,010. The largest municipal contributions were made by Luverne – \$578,076, Eden Prairie – \$272,504, Roseville – \$179,295, Maple Grove – \$147,676, and Eagan – \$140,341. Luverne received the proceeds of a bond offered by the City in consideration for a commitment to invest under Chapter 118A.

Administrative Expenses

The total amount of administrative expenses of \$1,362,189 in 2002 has not significantly changed in the past five years as illustrated in the chart on page 4. The number of volunteer firefighter relief associations included in this report using more than 1 percent of their assets for administrative expenses grew to 120 in 2002 from 90 in 2001 (Table 5-A). The average amount of administrative expenses rose \$8 from \$1,952 to \$1,960 between the two reporting years.

Nine volunteer firefighter relief associations spent more than \$20,000 in administrative expenses in 2002, down from 10 in 2001 (Table 2-B). Several retained professional consultant services and emphasized continuing education.

Investment Earnings

The total investment loss in 2002 for volunteer firefighter relief associations included in this report was \$28,104,335. This loss was nearly double the loss of \$14,104,335 in 2001. The five largest investment losses in 2002 were experienced by Eden Prairie – (\$1,346,879), Minnetonka – (\$835,925), Eagan – (\$790,858), Brooklyn Park – (\$739,798) and Spring Lake Park – (\$689,864). There were 121 volunteer firefighter relief associations that experienced investment gains in 2002. The largest gains were garnered by Sleepy Eye – \$40,300, Lexington – \$18,303, Fulda – \$16,244, Fairfax – \$16,068, and Battle Lake – \$13,379.

Pension Benefit Levels

In 2002, the total amount of service pension benefit payments for the volunteer firefighter relief associations included in this report was \$16,681,688. The average pension benefit level per year of service for lump sum plans was \$1,049 compared to \$1,035 in 2001. The highest lump sum benefit levels were offered by Golden Valley – \$6,000, Northfield – \$5,800, Brainerd – \$5,600, Hopkins – \$5,500, and Alexandria – \$5,500. The lowest lump sum benefit levels were provided by Nassau – \$25, Pequaywan – \$30, Maple Hill – \$50, and Northland – \$50. This means that a 20-year retiree could receive a lump sum payment of \$120,000 from Golden Valley or a \$500 lump sum payment from Nassau.

For monthly/lump sum combination plans, the average monthly benefit in 2002 was \$21.00 per year of service, nearly identical to the \$20.81 in 2001. The average lump sum benefit level for these combination plans was \$3,734 per year of service in 2002 compared to \$3,509 per year of service in 2001.

The average monthly benefit for volunteer firefighter relief associations providing only monthly benefits was about \$19 in 2002 without change from the previous year. The highest monthly benefit level was offered by Mound – \$29.25 and the lowest was Pine City – \$5.83. In other words, a 20-year retiree could receive \$585 per month from Mound or \$117 per month from Pine City for their lifetimes.

The total amount of defined contribution plan service pensions in 2002 was \$1,769,735. Individual payments vary by years of service as well as plan revenues and expenditures.

In 2002, 107 lump sum and monthly/lump sum combination plans increased their annual benefit level amount and 28 decreased their annual benefit level amount (Table 6-A and Table 6-B). Of those that increased their benefit level amount, 55 were funded below 95 percent and had investment losses. The average increase for those that increased their benefit level was \$162 and the average decrease for those that decreased their benefit level was \$177. The monthly plans did not change their benefit level amounts during the reporting year.

Other Benefit Categories

In 2002, the total amount of other benefits paid by volunteer firefighter relief associations included in this report was \$736,133. Other benefit categories are disability, survivor and funeral benefits.

About 85 percent of the lump sum plans included in this report provided long-term disability benefits and nearly 10 percent offered short-term disability benefits. Almost 100 percent provided survivor benefits. Funeral benefits were only offered by about 3 percent of the lump sum plans.

Of the monthly/lump sum combination plans, one-half offered short-term disability benefits and two-thirds offered long-term disability benefits. Nearly all offered survivor benefits and just over half provided funeral benefits.

One of the four monthly plans provided short-term disability benefits, two offered long-term disability benefits and three provided survivor and funeral benefits.

Of the defined contribution plans, about 82 percent offered long-term disability benefits and about 2 percent provided short-term disability benefits. All but one offered a survivor benefit and only one offered a funeral benefit.

Additional Information

Additional information regarding volunteer firefighter relief associations is easily accessible at www.auditor.state.mn.us. If you have questions or comments about this report, please email pension@osa.state.mn.us or call (651) 282-6110.

Notes to Table 3: Lump Sum Plans

Table 3 provides key statistics on the actuarial status of volunteer firefighter defined benefit lump sum pension plans. This table includes data taken from the 2002 Schedules I & II, a simplified form of an actuarial valuation that projects service pension liabilities, normal cost, amortization cost, administrative cost, future assets and the financial requirements for the next year. Under Minn. Stat. § 69.772, this information must be provided to the municipality by August 1 each year. Any required municipal contribution for the next budget year is also certified at this time.

Column headings for Table 3 are explained below:

Projected Assets	Net assets at 12/31/01 plus estimated 2002 revenues minus estimated 2002 expenditures.
Accrued Liabilities *	Projected service pension liability through 12/31/02.
Projected Surplus (Deficit)	Projected assets minus projected liabilities at 12/31/02.
Normal Cost	Accrued liability at 12/31/03 minus liability at 12/31/02.
Admin. Expense	2001 administrative expense x 1.035.
10% of Surplus	Credit to be applied against financial requirements in 2003.
Deficit Amortization Payment	The amount in excess of normal and administrative costs of the plan to be applied in 2003 toward any net deficits accumulated in the most recent 10-year period.
Projected State Aid	Anticipated fire state aid in 2003.
Projected Investment Earnings	5% of 2002 projected assets.
2003 Required Municipal Contribution	Municipal contribution (if any) after all other revenues in 2003.

* The accrued liabilities in Table 3 may differ from those shown in Table 2 and from the data applied to derive funding ratios listed in Tables 2-A and 2-B. This is because Table 3 is based on projections made as of August 1, 2002, whereas Tables 2, 2-A and 2-B rely on *end of year* figures that are adjusted for any benefit payments made between August 1, 2002 and December 31, 2002.

This page is intentionally left blank.

Notes to Table 4: Monthly Plans

Table 4 provides key actuarial statistics about the volunteer firefighter monthly and combined monthly/lump sum defined benefit pension plans. Monthly plans are defined in state law as those that offer or pay monthly benefits to any of their members.

Liability projections for monthly plans require more precise modeling of demographic and other factors over longer full-funding target periods than that required with the benefit structure of lump sum plans listed in Table 3. Pursuant to Minnesota law, monthly plans are required to have an actuarial valuation prepared at least every other year. Some plans elect to obtain a new actuarial valuation every year.

Under Minn. Stat. § 69.773, the financial requirements of the pension plan derived through the actuarial valuation information must be provided to the municipality by August 1 of each year. Any required municipal contribution for the next budget year is certified at that time. Table 4 provides actuarial valuation statistics associated with the December 31, 2002 benefit level of the monthly plans. Column headings for Table 4 are explained below:

Valuation Date	The valuation date is a reference point to project the funded status of the plan to the end of the subsequent 12-month period.
Accrued Liabilities*	The accrued liability is based on the Entry Age Normal estimation method.
Normal Cost	The total projected dollar value of an additional year of active member benefit liability accruals.
Surplus (Deficit)	Current assets minus accrued liabilities.
10% of Surplus	Credit to be applied against financial requirements in 2003.
Deficit Amortization Payment	The amount in excess of normal and administrative costs of the plan to be applied in 2003 toward any accumulated net deficits.
Est. State Aid	The estimated fire state aid in the valuation year.
Est. Admin. Expense	The estimated administrative expense is obtained from the actuarial valuation, or if not provided in the actuarial valuation, is calculated by multiplying prior year actual administrative expenditures by 1.035.
Est. Required Municipal Contribution	The estimated municipal contribution (if any) is either obtained from the actuarial valuation, or if not provided in the actuarial valuation, is calculated by reducing the total financial requirements as stated in the actuarial valuation by the estimated state aid.

* Accrued liability figures in Table 4 may differ from those shown in Table 2 and from the data applied to funding ratios listed in Tables 2-A and 2-B. This is because Table 4 figures are based on actuarial valuations or actuarial estimates prepared according to the benefit provisions applicable on December 31, 2002. By contrast, the figures in Tables 2, 2-A and 2-B for monthly plans are calculated from the actuarial valuation in effect at the time municipalities begin budgeting for the year ending December 31, 2002.

Appendix B

Volunteer Firefighter Relief Associations by Benefit Category

This index lists alphabetically each volunteer firefighter relief association that is required by law to report to the State Auditor's Office. Each data table is sorted according to the plan type and the benefit category.

Plan Type

LS = Lump Sum Defined Benefit
 DC = Defined Contribution
 MO = Monthly Defined Benefit
 MO/LS = Monthly/Lump Sum Combination

Benefit Category

Monthly/LS = Monthly/Lump Sum combination plan.

XXX - XXX = [Example: 500 - 1,000] Lump Sum plan with a per year of service benefit level of \$500 to \$999 (benefit level is at least \$500, but less than \$1,000). See a full list of plan types and benefit categories in Appendix A.

Excluded = Reporting information was not provided to the State Auditor's Office in a timely manner or could not be reconciled in time to permit inclusion in this report.
 (Brownsville and Minnesota City were newly incorporated relief associations that did not have sufficient information to be included in this report.)

Appendix C
Volunteer Firefighter Relief Associations
Subsidiary to Independent Nonprofit Firefighting Corporations

This report includes 63 volunteer firefighter relief associations that are affiliated with independent nonprofit firefighting corporations under Minn. Stat. § 69.774. A nonprofit firefighting corporation provides fire protection and fire suppression services to one or more municipality under contract. The funding status and any required contributions are determined in the same manner as for relief associations affiliated with a municipal fire department. Throughout this report, the terms "municipality" and "municipal contributions" apply to cities, towns, and nonprofit firefighting corporations.
