

Dakota County Mandate Recommendation

| Adult Mental Health Services | | | |
|---|---------|------|---|
| Mandate | Statute | Rule | Comment |
| Eliminate directed investment of increase in revenues from medical assistance coverage of adult rehabilitative mental health services and adult mental health crisis response services in “expanded mental health services” | 256B.83 | | Current law requires investment of increase in revenues from medical assistance coverage of adult rehabilitative mental health services and adult mental health crisis response services in “expanded mental health services.” Precludes counties from investing increased revenues in inpatient and residential treatment. If we receive federal cuts, any mandate requiring service or maintenance of effort without funding should be lifted. |
