

## Dakota County Mandate Recommendation

Airline Travel Credit			
Mandate	Statute	Rule	Comment
Eliminate requirement for elected officials and public employees to report frequent flyer miles accumulated from publicly-funded travel	15.435		<p>Mandate requires elected officials and public employees to report any credits or other benefits issued by any airline when the issuing airline will not honor a transfer or assignment of any credits or other benefits to public entity.</p> <p>Compliance with this mandate has little public benefit considering not enough traveling is done by a single elected official or public employee to accumulate a significant amount of credits that would ever be viewed as a large benefit to the individual. This mandate takes more County resources (time reporting) than is worth the information reported.</p>
