

Dakota County Mandate Recommendation

Chemical Dependency Grant			
Mandate	Statute	Rule	Comment
Eliminate or Equalize Maintenance of Effort Requirement for State Chemical Dependency Grant (CCDTF)	254B.02		Under the state's Consolidated Chemical Dependency Treatment Fund, some counties pay over 60% of chemical dependency treatment costs while others pay as little as 15% under current maintenance of effort (MOE) requirements. The state legislature should gradually narrow this disparity with a goal of ultimately making the MOE uniform for all counties.
