

<p>NPDES permitting was recently expended from the minimum five acre threshold to one acre. The five to one acre category for stormwater runoff reflects relatively simple projects with local units of government utilizing accepted best management practices.</p>	<p>Federal Clean Water Act; MN Statutes 115.03</p>	<p>Reduce State stormwater permit fees from \$400 to \$100 to local government for land disturbance between one and five acres.</p>
