

Non-visual technology	M.S. 16C.145	A state law mandates the state and all political subdivisions to require all technology hardware and software purchases and upgrades to satisfy non-visual technology standards that exceed the America Disability Act (ADA) requirements. This mandate requires the purchase of technology that is either not yet available or is cost prohibitive. The City does not oppose the intent of the mandate, but rather objects if it is unfunded or underfunded.
