### Scope

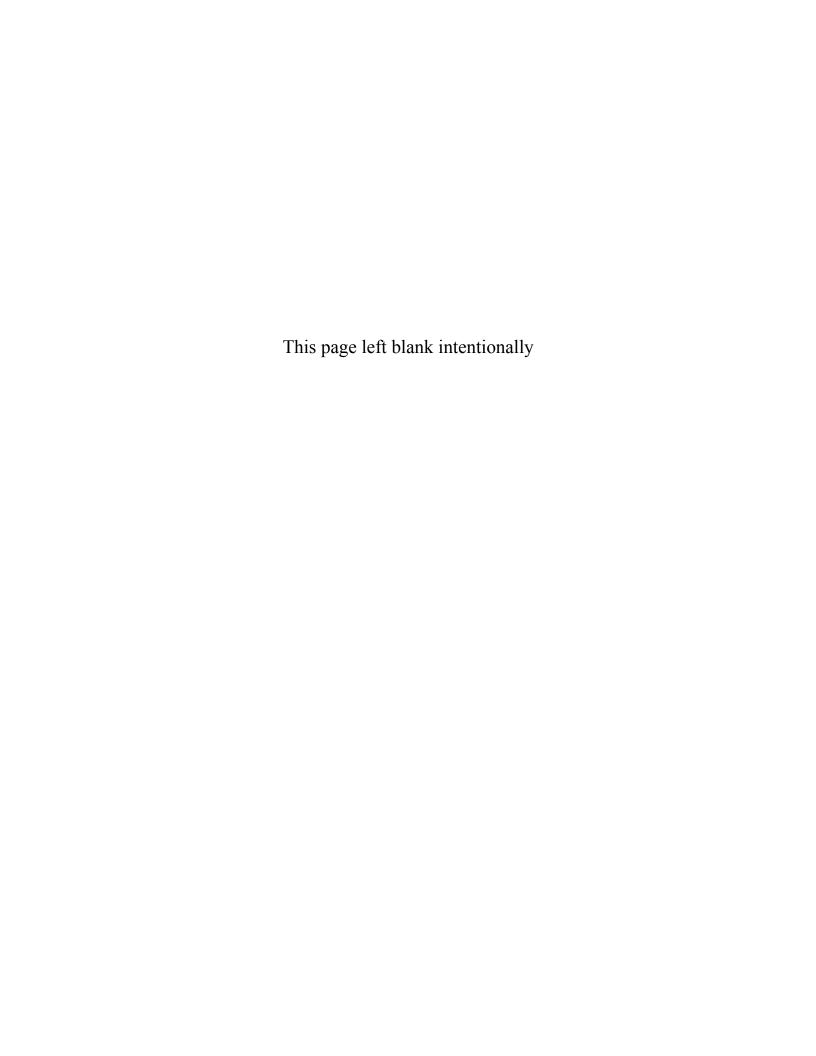

This publication presents 2005 (Revised) and 2006 budget data for Minnesota cities. The data presented here reflects unaudited budgeted revenues and expenditures reported by cities to the Office of the State Auditor as required by law. The law required that the form be submitted by January 31, 2005. Sixty-two cities failed to report a completed 2005-2006 reporting form. The cities are listed in Appendix 1.

The form used to collect this information requested that cities provide three types of data: 2005 budget, 2005 amended, and 2006 budget. The 2005 budgets are the 2005 budgets adopted by city councils in November and December of 2004. The 2006 budgets are the 2006 budgets adopted by city councils in November and December of 2005.

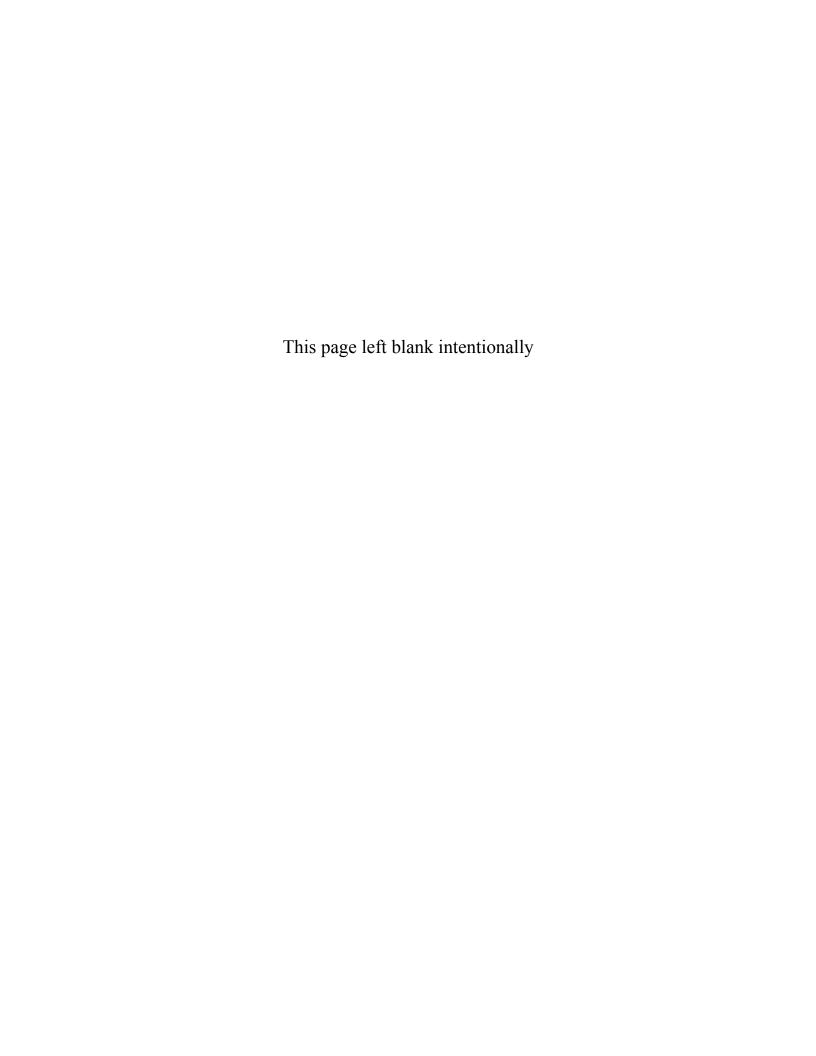

The data in this report is best used as <u>a tool to help review budgeting decisions</u> for the years 2005 and 2006. The budget represents a plan, reported by the city, for the coming year. Rarely do actual revenues and expenditures match the amount budgeted. In addition, the reported data does not represent all large city revenues and expenditures. Cities reported budget data only for funds that the city had adopted annual budgets. Cities with funds for which annual budgets were not adopted could have more revenues and expenditures than reported here. Also, the revenues and expenditures of city public service enterprises are not included. The inclusion of enterprise funds could significantly alter the revenue and expenditure trends of cities. Because of the limitations of budget data, the Auditor's Office recommends using the audited financial information provided in the State Auditor's publication, Revenues, *Expenditures, and Debt of Minnesota Cities* for a longer-term analysis of city finances.

The data tables show summary tables of budget data, grouped by all cities, cities under 2,500 in population, and cities over 2,500 in population. The cities are also listed by their economic development region, as well as individually.

In addition to this publication, the Office of the State Auditor maintains an interactive database containing several years of local government financial data that can be accessed through our web site. The database allows users to customize the presentation of data to their individual needs. For example, a citizen can select a group of counties to compare, and then choose the years and the categories of revenues and expenditures on which to compare them. The query can then be viewed on screen or saved to a file for downloading at http://www.auditor.state.mn.us.

<sup>\*</sup>The column entitled Revised 2005 reflects the 2005 budgets adopted by the city councils in November and December of 2004. Some cities submitted 2005 budgets with their 2006 budgets that were revised from what they submitted to the Auditor's Office in the last year. These budgets may be different for several reasons, such as, the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors. Sixty-two cities failed to report.

<sup>\*\*</sup>Total Property Tax Levy refers to the total of all property tax bills within the city, whereas Property Tax refers to the anticipated amount of taxes collected.

<sup>\*</sup>The column entitled Revised 2005 reflects the 2005 budgets adopted by the city councils in November and December of 2004. Some cities submitted 2005 budgets with their 2006 budgets that were revised from what they submitted to the Auditor's Office in the last year. These budgets may be different for several reasons, such as, the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors. Nine cities failed to report.

<sup>\*\*</sup>Total Property Tax Levy refers to the total of all property tax bills within the city, whereas Property Tax refers to the anticipated amount of taxes collected.

<sup>\*</sup>The column entitled Revised 2005 reflects the 2005 budgets adopted by the city councils in November and December of 2004. Some cities submitted 2005 budgets with their 2006 budgets that were revised from what they submitted to the Auditor's Office in the last year. These budgets may be different for several reasons, such as, the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors. One city failed to report.

<sup>\*\*</sup>Total Property Tax Levy refers to the total of all property tax bills within the city, whereas Property Tax refers to the anticipated amount of taxes collected.
