Minnesota County Budgets

2008 Summary Budget Data Together With 2007 Revised Summary Budget Data

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 160 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 730 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Office of the State Auditor 525 Park Street, Suite 500 Saint Paul, Minnesota 55103 (651) 296-2551 state.auditor@state.mn.us www.auditor.state.mn.us

Scope

This publication presents 2007 (revised) and 2008 budget data for Minnesota counties. The data presented here reflects unaudited budgeted revenues and expenditures reported by counties to the Office of the State Auditor as required by law. The law required that the form be submitted by December 31, 2007. The 2008 Legislature amended the statute and, beginning in 2009, the form will be due by January 31.

The form used to collect this information requested that counties provide three types of data: 2007 budget, 2007 amended, and 2008 budget. The 2007 budgets are the 2007 budgets adopted by county boards in November and December of 2006. The 2008 budgets are the 2008 budgets adopted by county boards in November and December of 2007.

The data in this report is best used as a tool to help review budgeting decisions for the years 2007 and 2008. The budget represents a plan, reported by the county, for the coming year. Rarely do actual revenues and expenditures match the amount budgeted. In addition, the reported data does not represent all county revenues and expenditures. Counties reported budget data only for funds for which an annual budget was adopted. Counties with funds where annual budgets were not adopted would have more revenues and expenditures than reported here. Also, the revenues and expenditures of county public service enterprises are not included. The inclusion of enterprise funds would significantly alter the revenue and expenditure trends of counties. Because of the limitations of budget data, the Office of the State Auditor recommends using the financial information provided in our publication, *Revenues, Expenditures, and Debt of Minnesota Counties*, for a longer-term analysis of county finances.

In addition to this publication, the Office of the State Auditor maintains an interactive database containing several years of local government financial data that can be accessed through our website (www.auditor.state.mn.us). The database allows users to customize the presentation of data to their individual needs. For example, a citizen can select a group of counties to compare, and then choose the years and the categories of revenues and expenditures on which to compare them. The query can then be viewed on screen or saved to a file for downloading.

Category Definitions

Counties report budget data only for the Governmental Funds for which the county had adopted annual budgets. Enterprise Funds, such as hospitals and nursing homes, are not included in this report.

Adopted Budgets for Governmental Funds

The Governmental Funds include the General Fund (GF), which is the general operating fund of the county; Special Revenue Funds (SR), which are funds established to record activity for a specific purpose; Debt Service Funds (DS), which are for the principal and interest payments on indebtedness; and Capital Project Funds (CP), which are for major construction projects or acquisition of assets.

Governmental Revenues

Taxes. Counties receive revenues from several types of taxes. In addition to levying property taxes, counties generate revenues from local option taxes such as gravel taxes, mortgage registry taxes, deed taxes, hotel/motel taxes, franchise taxes, sales and use taxes, etc. Counties that have established tax increment financing (TIF) districts also receive tax increment revenue.

- *Property Taxes.* Property taxes are taxes levied on an assessed valuation of real and/or personal property by the county government. The budgeted property taxes category includes Fiscal Disparities.
- *Tax Increments.* Counties generate tax increment revenue when they establish tax increment financing (TIF) districts. In a TIF district, a county reserves the use of a portion of the property taxes collected from parcels in the district to pay the costs of development and redevelopment, rather than the general services of the county, city, and school district.
- All Other Taxes. This category of budgeted revenue accounts for taxes such as gravel taxes, mortgage registry taxes, deed taxes, hotel/motel taxes, franchise taxes, sales and use taxes, etc. Counties must receive legislative approval before enacting these types of local option taxes. The revenues are generally dedicated to specific public facilities such as convention centers and arenas.

Special Assessments. These budgeted revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments. Counties also use special assessments for debt service payments.

Licenses and Permits. This category accounts for budgeted revenue derived from fees collected for the issuance of both business and non-business licenses and permits. These budgeted revenues reflect receipts from liquor licenses, cigarette licenses, pet licenses, other business licenses, building permits, and other non-business licenses and permits.

Intergovernmental Revenues. These are budgeted revenues received from other governments in the form of grants, entitlements or shared revenues.

- *Federal Grants.* Federal grants include the estimated amounts the county expects to receive from the Federal government for emergency preparedness, transit, highways and urban redevelopment.
- *State General Purpose Aid.* Budgeted general purpose aid has no restrictions on its use and includes, among other things, County Program Aid and Market Value Credits.
- *State Categorical Aid.* Budgeted categorical aids are budgeted revenues for a specific purpose, such as income maintenance grants, social services grants, community health grants, state aid highway maintenance and construction grants, waste management grants, pollution control grants, etc.
- *Grants from County/Other Local Units*. These are estimated revenues generally received from cities, other counties, and townships for their share of a capital project.
- *Charges for Services.* These budgeted revenues reflect fees for activities of the governmental funds. These include facility rentals, by individuals or organizations, recreation fees, park dedication fees, etc.

Fines and Forfeits. These budgeted revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

Interest on Investments. These budgeted revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds. In addition, the net increase or decrease in the fair value of investments is recorded here.

All Other Revenues. These are budgeted revenues that cannot be classified in one of the other categories. These revenues include refunds, reimbursements, donations, and lease payments.

Other Financing Sources

- *Proceeds from Bond Sales*. This amount reflects the anticipated proceeds from the sale of bonds.
- *Other Financing Sources.* The sale of fixed assets is included in this category.
- *Transfers from Other Funds*. This category reflects budgeted transfers of resources between funds. Examples include transfers from the General Fund to a capital projects fund for authorized construction and transfers from an enterprise fund to the General Fund to finance General Fund expenditures.

Governmental Expenditures

Current Expenditures

Budgeted current expenditures include salaries and benefits; utilities; maintenance; and repairs; as well as operating expenses such as fuel; supplies; and insurance.

- *General Government.* General government budgeted expenditures reflect the administration costs of county governments, including such items as salaries of county officials and maintenance of buildings.
- *Public Safety.* These budgeted expenditures reflect the costs related to the protection of persons and property. This category combines several distinct county departments, including sheriff, corrections, ambulance services, and other protection. Other protection includes building inspections, animal control, and flood control.
- *Streets and Highways.* These budgeted expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, street lighting, street cleaning, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.
- *Sanitation.* These budgeted expenditures reflect the costs of refuse collection, disposal, recycling, as well as weed and pest control. Some counties provide sanitation services through enterprise funds.
- *Human Services.* These budgeted expenditures are for activities designed to provide public assistance and institutional care for individuals economically unable to provide for themselves, including income maintenance programs and social service programs.
- *Health.* These budgeted expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.
- *Culture and Recreation.* Culture and recreation budgeted expenditures reflect the costs of libraries, park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, baseball fields, organized recreation activities, etc.
- *Conservation of Natural Resources*. Conservation of natural resources includes all budgeted expenditures for the conservation and development of natural resources. These include agricultural and forestry programs and services, weed inspection services, soil and water conservation services, etc.

- *Economic Development and Housing.* These budgeted expenditures are for development and redevelopment activities in blighted or otherwise economically disadvantaged areas. Activities may include low-interest loans, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.
- *All Other Current Expenditures.* These are budgeted expenditures not classified elsewhere. Examples include airport expenditures, cemeteries, unallocated insurance, unallocated pension costs, and public transportation costs.

Capital Outlay

These budgeted expenditures include the purchase of equipment, machinery, and land; construction or permanent improvements of buildings; and street construction.

- *Streets and Highways Capital Outlay*. This category includes budgeted expenditures for road and bridge construction projects, including major rehabilitation and improvement projects for existing roads and bridges.
- *All Other Capital Outlay.* These budgeted expenditures include the purchase of equipment, machinery, land, and the construction or permanent improvement of buildings.

Debt Service

- *Principal.* This category includes budgeted principal payments on bonded debt (including special assessment bonds) as well as all principal payments for other long-term and short-term debt. (It does not include debt payments made by Enterprise Funds.)
- *Interest.* This category includes all budgeted interest payments and fiscal charges paid in the Governmental Funds.

Other Financing Uses. These are anticipated refunding bond proceeds deposited with escrow agent and invested until they are used to pay principal and interest on the old debt at a future time and remittance to other agencies.

Transfers to Other Funds. This category reflects budgeted transfer of resources between funds. Examples include transfers from the General Fund to a capital projects fund for authorized construction and operating subsidies from the General Fund to an enterprise fund such as transit.

Other Information

Increase (Decrease) in Fund Balance. This category shows budgeted increases or decreases in the fund balance. If the county intends to add to the fund balance during 2008, that would be shown as an increase in the fund balance. If the county intends to use a portion of its fund balance to finance projected expenditures, it would be shown as a (decrease) in the fund balance.

Net Unrealized Gain or (Loss) from Investments. This shows the net increase or decrease in the market value of investments held as of December 31, 2007. This calculation is the difference between the market value of the investment on January 1 or when purchased and the market value of the investment on December 31.

Total Property Tax Levy. Property taxes are taxes levied on an assessed valuation of real and/or personal property by the county government. The property tax levy is for all funds, including Enterprise Funds.

*The column entitled Revised 2007 reflects the 2007 budgets adopted by the county boards in November and December of 2006. Some counties submitted 2007 budgets with their 2008 budgets that were revised from what they submitted to the Office of the State Auditor in the last year. These budgets may be different for several reasons, such as, the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors.

**Total Property Tax Levy refers to the total of all property tax bills within the county, whereas Property Taxes refers to the anticipated amount of taxes collected.
