Appendix 2 - 1999 and 2000 Revenues and Expenditures Budgeted for Cities Under 2,500 in Population	1
Appendix 3 - 2000 Minnesota City Summary Budget Data Reporting Form	7

#### **Governmental Revenues**

Minnesota's small cities (those with a population less than 2,500) proposed revenues of \$224.6 million in their 2000 budgets.<sup>1</sup> This represented an increase of \$10.0 million or 4.6 percent over 1999 budgeted revenues.<sup>2</sup> All sources of revenues except tax increments, special assessments, federal grants, and grants from local units increased in 2000 budgets.

The principal sources of revenues in 2000 city budgets were: intergovernmental revenues which accounted for 41.1 percent of revenues; property taxes which accounted for 32.8 percent of revenues; and charges for services which accounted for 8.7 percent of revenues. Intergovernmental revenues accounted for a slightly smaller share of total revenues in 2000 budgets compared to 1999 budgets. In contrast, charges for services represent a slightly larger share of 2000 budgets.

! Intergovernmental Revenues. Cities receive grants and aids from federal, state, and other local governments. Cities budgeted intergovernmental revenues of \$92.2 million for 2000. This represents an increase of 2.1 percent over 1999 budgeted intergovernmental revenues.

State General Purpose Aid. The largest source of intergovernmental revenues for cities is state general purpose aid. General purpose aid has no restrictions on its use and includes, among other things, Local Government Aid (LGA) and Homestead and Agricultural Credit Aid (HACA). Cities budgeted general purpose aid of \$78.1 million for 2000, which was \$3.1 million more than in 1999. State general purpose aid accounted for 34.8 percent of 2000 budgeted revenues.

*State Categorical Aid.* Cities budgeted categorical aid of \$6.6 million for 2000. This represents an increase of 11.4 percent over categorical aid budgeted in 1999. Categorical aid levels can fluctuate widely because these revenue sources commonly support capital projects that are short-term or cyclical in nature.

*Federal Grants*. Cities budgeted federal grants of \$4.1 million for 2000. This was a decrease of 17.1 percent from federal grants budgeted in 1999. The large decrease in this category reflects a substantial water system improvement grant for the city of Ashby in 1999 that was not repeated in 2000. When Ashby is excluded from the statewide total, federal grants show an increase of 29.5 percent.

<sup>&</sup>lt;sup>1</sup>There are 668 cities with populations under 2,500. One hundred thirty nine of these cities failed to submit data, or submitted incomplete data, for 2000. Total revenues exclude borrowing and transfers from other funds.

<sup>&</sup>lt;sup>2</sup>The two-year comparisons presented in this report exclude the 139 cities that failed to provide 2000 budget data. The form used to collect 2000 budget data (see Appendix 3) required cities to submit their 1999 and 2000 budgets together. This allowed a two-year comparison based exclusively on the budgets of cities that submitted their 2000 budgets to the Office of the State Auditor.

**Local Grants.** Cities budgeted grant revenues from other local governments of \$3.5 million for 2000. This represents a decrease of 22.6 percent from local grants budgeted for 1999. These revenues commonly reflect cooperation among two or more governments to provide a service or participate in a capital project.

! Taxes. Cities receive revenues from several types of taxes. In addition to levying property taxes, cities generate revenues from local option taxes such as hotel/motel, franchise (public utilities), gambling, gravel, and sales taxes. Cities that have established tax increment financing (TIF) districts also receive tax increment revenue.

**Property Taxes.** Property tax revenues increased 7.3 percent in 2000 budgets. Revenues derived from property taxes totaled \$73.7 million and accounted for 32.8 percent of city revenues. The majority of cities budgeted higher levels of property tax revenues for 2000. Of those cities reporting budget data, 381 cities budgeted higher property tax revenues, 69 cities budgeted lower revenues, and 80 cities budgeted the same level of revenues.

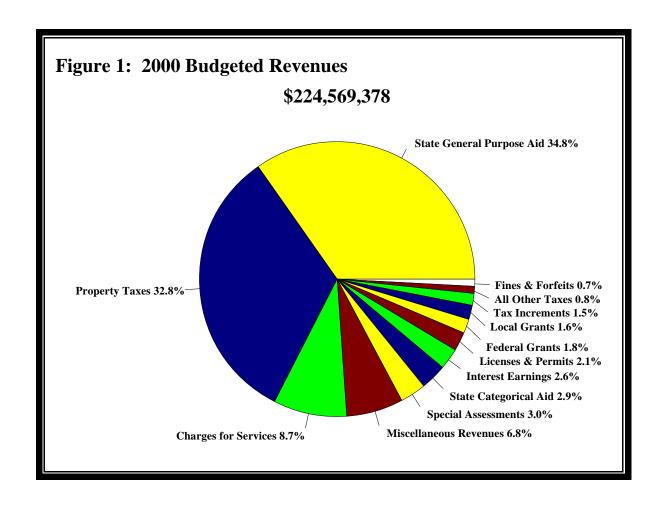

Tax Increments. Cities generate tax increment revenue when they establish tax increment financing (TIF) districts. In a TIF district, a city reserves the use of a portion of the property taxes collected from parcels in the district to pay the costs of development and redevelopment, rather than the general services of the city, county, and school district. Cities budgeted tax increment revenues of \$3.4 million for 2000. This represents a decrease of 6.6 percent from 1999 budgeted tax increments. Of those cities reporting tax increments, 46 cities budgeted higher tax increment revenues, 37 cities budgeted lower revenues, and 12 cities budgeted the same level of revenues.

*All Other Taxes*. This category of revenue accounts for taxes such as franchise, hotel/motel, sales, and others. Cities budgeted all other tax revenues of \$1.8 million for 2000. This was an increase of 4.5 percent over 1999 budgeted tax revenues.

- ! Charges for Services. Cities budgeted revenues from charges for services of \$19.5 million, which was an increase of 8.3 percent over the amount budgeted in 1999. Of the cities reporting budgeted data, 223 budgeted an increase in charges for services. In addition, of the 223 cities that budgeted increases, thirteen cities budgeted an increase of over \$50,000.
- **!** Licenses and Permits. Cities budgeted revenues from licenses and permits of \$4.6 million for 2000. This represents an increase of 19.0 percent over the amount budgeted in 1999. This category accounts for revenue derived from fees collected for the issuance of both business and non-business licenses and permits. Growth in this category has been fueled by demand for residential and non-residential building permits.
- **!** Special Assessments. Cities budgeted revenues of \$6.7 million from special assessments in 2000. This represents a decrease of 4.8 percent over the level budgeted in 1999. Cities levy special assessments to pay for services that are deemed to primarily benefit specific properties. Cities also use special assessments for debt service payments.

- ! Interest Earnings. Cities budgeted revenues from interest earnings of \$5.9 million for 2000. This represents an increase of 2.8 percent over interest earnings budgeted for 1999. Cities expect that their investments will continue to perform well due to the strong economy and solid market growth.
- ! *Miscellaneous Revenues*. Cities budgeted miscellaneous revenues of \$15.3 million for 2000. This represents an increase of 8.0 percent over 1999.

Figure 1 summarizes the proportion of revenues derived from each category of revenue.

#### **Governmental Expenditures**

#### **Current Expenditures**

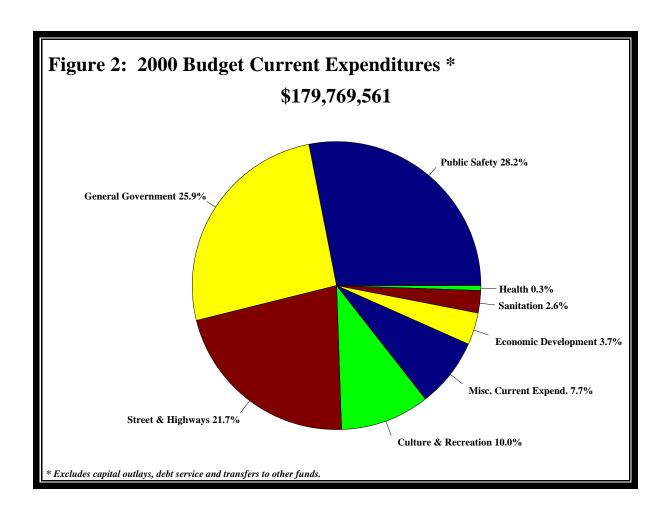

Cities set their budgets for total current expenditures at \$179.8 million for 2000. This represents an increase of 5.8 percent over 1999 budgeted total current expenditures.<sup>3</sup>

The three most costly services budgeted by cities in 2000 were: public safety, which accounted for 28.2 percent of current expenditures; general government, which accounted for 25.9 percent of current expenditures; and streets and highways, which accounted for 21.7 percent of current expenditures.

- **! Public Safety.** Cities budgeted \$50.7 million for public safety in 2000. This represents an increase of 4.8 percent over public safety expenditures budgeted in 1999. Police protection, fire protection, ambulance services, building inspections, and animal control are included in this category.
- **!** General Government. Cities budgeted general government current expenditures of \$46.5 million for 2000, which was an increase of 7.0 percent over 1999 general government budgets. General government expenditures reflect the administration costs of city governments including such items as salaries of city officials and maintenance of buildings.
- ! Streets and Highways. Cities budgeted \$38.9 million for streets and highways in 2000. This represents an increase of 3.5 percent from 1999 streets and highways budgets. This category includes snow removal, engineering, planning, and general maintenance, but excludes construction and the purchases of equipment.
- ! Culture and Recreation. Cities proposed culture and recreation current expenditures of \$18.0 million for 2000. This represents an increase of 4.6 percent over 1999 culture and recreation budgets.
- **!** Housing and Economic Development. Cities budgeted housing and economic development current expenditures of \$6.6 million. This represents an increase of 11.8 percent from the level budgeted in 1999.
- **!** Sanitation. Cities budgeted \$4.7 million for sanitation current expenditures in 2000. This represents an increase of 1.9 percent over 1999 budgets. Sanitation expenditures account for 2.6 percent of total current expenditures. These expenditures account for a relatively small share of total current expenditures because most cities under 2,500 in population do not directly provide sanitation services or provide them through municipal enterprises.
- **! Health.** Cities budgeted health current expenditures of \$523,003 for 2000. This represents an increase of 22.3 percent from 1999 budgets. Health expenditures account for 0.3 percent of total current expenditures

<sup>&</sup>lt;sup>3</sup>Total current expenditures exclude capital outlay, debt service, transfers to other funds, and proprietary fund expenses.

Figure 2 summarizes the proportion of current expenditures by governmental function.

#### **Total Expenditures**

Minnesota's cities with populations under 2,500 proposed total expenditures of \$243.9 million for their 2000 budgets. This is an increase of 4.9 percent over 1999 budgeted total expenditures. Total expenditures include current expenditures, capital outlay, and debt service, but exclude transfers to other funds and proprietary fund expenses. Highlights of these expenditures include:

- ! Capital Outlays. Cities budgeted capital outlays of \$28.6 million for 2000. This represents a decrease of \$2.0 million or 6.5 percent from capital outlays budgeted for 1999. Capital outlays represent 11.7 percent of total expenditures budgeted for 2000.
- **! Debt Service.** Cities budgeted debt service payments of \$35.5 million. This represents an increase of 11.5 percent over 1999 budgeted debt service payments. Cities budgeted principal payments of \$24.1 million and interest and fiscal charges of \$11.4 million. Principal payments increased 18.7 percent and interest and fiscal charges decreased 1.1 percent in 2000 budgets.

#### **Net Unrealized Gain or Loss from Investments**

Of the 529 cities that submitted 2000 budgets, only 56 reported any gain or loss on their investments. Of the 56 cities that reported information on their investments, 46 reported gains, and 10 reported losses. The reported net gain from investments was \$309,976.

#### **Methodology and Caveats**

Budget data used in this report reflect unaudited revenues and expenditures reported by cities to the Office of the State Auditor. Budgeted amounts of revenues and expenditures may differ from actual revenues and expenditures that year. The reported data does not represent all city revenues and spending for three reasons: (1) Cities reported budget data for all funds for which the city had adopted annual budgets. Cities with funds for which annual budgets were not adopted could have more revenues and expenditures than reported here. (2) The revenues and expenditures of municipal enterprises are not included. The inclusion of enterprise funds could significantly alter the revenue and expenditure trends of cities. (3) There were 139 cities that failed to submit information on their budgets.

## Appendix 1

### Summary of Budgeted Revenues and Expenditures Cities Under 2,500 in Population 2000 and Revised 1999

<sup>\*</sup> The column entitled Revised 1999 reflects the 1999 budgets adopted by city councils in November and December of 1998. Some cities submitted 1999 budgets with their 2000 budgets that were revised from what they submitted to the OSA last year. These budgets may be different for several reasons including, among other things, the inclusion of additional budgeted funds, new staff completing the form, or the correction of errors.

# Appendix 2

# 1999 and 2000 Revenues and Expenditures Budgeted for Cities Under 2,500 in Population

#### **Explanation of Appendix 2**

Budget data used in this report are unaudited revenues and expenditures reported to the Office of the State Auditor by Minnesota cities. The form (see Appendix 3 on page 349) used to collect this information requested that cities provide three types of data: 1999 budget, 1999 amended, and 2000 budget.

The *1999 budgets* are the 1999 budgets adopted by city councils in November and December of 1998. Some cities submitted 1999 budgets that were revised from what they submitted to the OSA last year. Therefore, the 1999 budgets presented in this report should replace those found in last year's report.

The 1999 amended data represent an estimate of the cities final 1999 budget as amended by the city. The inclusion of this data is intended to give city officials an opportunity to show any major changes that may have occurred between the adoption of the 1999 budget in late 1998 and the close of the 1999 calendar year. The 1999 amended data was not used in the analysis but is provided for further understanding of cities' financial situations.

The 2000 budgets are the 2000 budgets adopted by city councils in November and December of 1999.

The analysis of the data presented in this report focuses solely on the 1999 and 2000 budgets.

Name of City: ADA  Adopted Budgets for the following funds: GF: X  REVENUES	SR: X DS: X 1999 BUDGET	CP: 1999 AMENDED	2000 BUDGET
