## **Minnesota City Finances**

2019 Revenues, Expenditures, and Debt

## Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 100 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

**Audit Practice** - conducts financial and legal compliance audits of local governments;

**Government Information** - collects and analyzes financial information for cities, towns, counties, and special districts;

**Legal/Special Investigations** - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

**Pension** - monitors investment, financial, and actuarial reporting for Minnesota's local public pension funds; and

**Tax Increment Financing** - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

## Scope and Methodology

---

This publication is intended to help local government officials, policy makers, and the public understand city financial operations. The report summarizes, through data tables and charts, the financial operations of the 850 Minnesota cities that provided their financial information to the Office of the State Auditor (OSA) for calendar year 2019.<sup>1</sup> Minnesota cities are required to submit annual financial reports to the OSA pursuant to Minn. Stat. §§ 6.74-.745 and §§ 471.697-.698.

The data tables presented in this report are divided into governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Capital Projects, Permanent, and Debt Service Funds. The first section of the report provides an overview of all cities and compares cities over and under 2,500 in population. The second section of the report presents a detailed overview of the financial operations of cities over 2,500 in population (large cities). The third section provides a detailed overview of the financial operations of cities under 2,500 in population (small cities).<sup>2</sup>

Following the overviews, Tables 6 and 7 present a summary of the activities in the governmental funds of all cities. Tables 8 through 11 present a summary of the governmental funds of cities over 2,500 in population. Tables 12 through 15 present a summary of the governmental funds of cities under 2,500 in population. Tables 16 through 18 present revenues, expenditures, and capital outlay data by individual city.

Table 19 lists the bonded and other long-term debt outstanding as of December 31, 2019, by individual city. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

Tables 20 and 21 present an analysis of the 2018 and 2019 unrestricted fund balances in the General and Special Revenue Funds of all cities reporting on a modified accrual basis. Table 20 details the actual unrestricted fund balances and a comparison to 2019 total current expenditures by city. Table 21 presents the fund balance data sorted by unrestricted fund balance as a percent of total current expenditures.

Table 22 shows municipal enterprises by city. Minnesota cities operate many types of public service enterprises. These enterprises furnish a variety of services and operate wholly or primarily with revenues derived from the sale of goods or services.

In addition to this publication, the OSA maintains an [interactive database](#) containing several years of data that can be accessed on the OSA website.

---

<sup>1</sup>There are 853 cities. The Cities of Boy River, Brookston, and Lowry failed to comply with the reporting requirements of Minn. Stat. §§ 6.74-.745 and §§ 471.697-.698, and are not included in this report. Fourteen cities, Clearbrook, Dennison, Grand Meadow, Hallock, Hillman, Isle, Lake Saint Croix Beach, Leonidas, Norcross, Orono, Rutledge, Tower, Waite Park, and Warren, are included in the report, although they provided unverified financial data.

<sup>2</sup>City classifications are designated based on the decennial census. This report uses the class designations based on the 2010 census population figures. Cities over 2,500 in population are designated as first, second, third, and fourth class based on their population. All cities under 2,500 in population are designated as fifth class cities.

## **Accounting Difference for Cities Over and Under 2,500 in Population**

For cities in Minnesota, the classification as over or under 2,500 in population helps to determine the type of governmental accounting to which they must adhere. All cities over 2,500 in population must have a financial statement in compliance with generally accepted accounting principles (GAAP), which is a modified accrual basis of accounting.<sup>3</sup> The modified accrual basis of accounting recognizes an economic transaction or event as revenues in the operating statement when the revenues are both measurable and available to liquidate liabilities of the current period. Available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Similarly, expenditures are generally recognized when an event or transaction is expected to draw on current expendable resources.

Cities under 2,500 in population may opt to use a cash basis of accounting. In 2019, 342 of the 624 small cities (54.8 percent) that reported their financial information opted to use a cash basis of accounting. Cash basis accounting provides for the recording of receipts (revenues) when received in cash and the recording of disbursements (expenditures) when paid in cash.

---

<sup>3</sup>Minn. Stat. §§ 471.697, subd. 1(a), and 477A.017, subd. 2.

---

## Executive Summary

---

### Current Trends - All Cities

- Total revenues of the governmental funds for all Minnesota cities totaled \$6.24 billion in 2019, an increase of 6.7 percent over 2018 revenues. Total revenues of cities over 2,500 in population increased 7.1 percent, and revenues of cities under 2,500 in population increased 1.6 percent over the two-year period (pg. 5).
- In 2019, total expenditures of the governmental funds for all cities totaled \$7.09 billion. This represents an increase of 7.2 percent over 2018. Total expenditures for cities over 2,500 in population increased 7.6 percent, while those under 2,500 in population increased 3.9 percent over the two-year period (pg. 5).
- The largest expenditure categories for both groups of cities are streets and highways and public safety. For large cities, public safety accounted for 26.9 percent of total expenditures, and streets and highways accounted for 23.4 percent of total expenditures. For small cities, streets and highways accounted for 25.9 percent of total expenditures, and public safety accounted for 21.2 percent (pg. 5).
- Overall, small cities tend to carry a greater debt burden per capita than large cities. In 2019, small cities carried long-term debt of \$1.36 billion, or \$3,805 per capita, compared to \$8.07 billion, or \$1,865 per capita, for large cities<sup>4</sup> (pg. 6).
- In 2019, unrestricted fund balances as a percent of current expenditures averaged 49.2 percent for large cities, compared to 112.3 percent for small cities (pg. 6).

### Current Trends - Cities Over and Under 2,500 in Population

- In 2019, cities over 2,500 in population, or large cities, had total governmental revenues of \$5.75 billion. This represents an increase of 7.1 percent over 2018 levels. The primary revenue sources for large cities were taxes and state grants, which accounted for 69.8 percent of all large city revenues. Cities over 2,500 in population expended \$6.49 billion to provide city services in 2019. This represents an increase of 7.6 percent over 2018 total governmental expenditures (pgs. 11-12).
- In 2019, cities under 2,500 in population, or small cities, had total governmental revenues of \$496.7 million. This represents an increase of \$7.6 million, or 1.6 percent, over 2018. Cities under 2,500 in population expended \$600.4 million to provide city services. This represents an increase of 3.9 percent over 2018 total governmental expenditures (pgs. 18-19).

---

<sup>4</sup>Per capita figures reflect only those entities that have debt.

## Ten-Year Trends - All Cities

### Governmental Revenues

- Over the ten-year period of 2010 to 2019, an examination of city revenues shows that, when adjusted for inflation, revenues increased 10.2 percent<sup>5</sup> (pg. 7).
- Between 2010 and 2019, actual revenues derived from property taxes grew 43.3 percent, compared to an increase of 20.9 percent for revenues derived from intergovernmental sources. Additional analysis of actual intergovernmental revenues over the ten-year period shows federal grants decreased 50.4 percent, state grants increased 41.6 percent, and local grants increased 92.4 percent. When revenues are adjusted for inflation, the ten-year period shows an 18.0 percent increase in property tax revenues, while intergovernmental revenues decreased 0.5 percent (pg. 7).
- In actual dollars, the proportion of total revenues derived from property taxes grew from 37.9 percent in 2010 to 40.5 percent in 2019. During this same time frame, revenues derived from intergovernmental sources decreased from 25.9 percent of total revenues to 23.4 percent (pg. 8).

### Governmental Expenditures

- Between 2010 and 2019, an examination of city finances shows that, when adjusted for inflation, expenditures increased 8.5 percent over the ten-year period. Over the same period, actual total city expenditures grew from \$5.38 billion to \$7.09 billion. This represents an increase of 31.8 percent (pg. 9).
- Although inflation-adjusted total expenditures increased 8.5 percent over the ten-year period, a comparison of the two five-year periods of 2010 to 2014 and 2015 to 2019 reveals a significant reversal during the most recent period. From 2010 to 2014, inflation-adjusted total expenditures decreased 2.7 percent, while from 2015 to 2019, inflation-adjusted total expenditures increased 8.1 percent (pg. 10).

---

<sup>5</sup>“Adjusted for inflation” and “constant dollars” refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments setting 2010 as the base year (N.I.P.A. Table 1.1.9, November 25, 2020).

---

## Comparison and Overview

---

### 2019 Finances for All Minnesota Cities

#### Revenues

Total revenues of the governmental funds for all Minnesota cities totaled \$6.24 billion in 2019, an increase of 6.7 percent over 2018 revenues. Total revenues of cities over 2,500 in population increased 7.1 percent, and revenues of cities under 2,500 in population increased 1.6 percent over the two-year period.

There are two central differences between cities over and under 2,500 in population in terms of how they fund services. Cities under 2,500 in population (small cities) are much more dependent on intergovernmental revenues than cities over 2,500 (large cities). In 2019, intergovernmental revenues accounted for 33.9 percent of total revenues for small cities, compared to 22.5 percent for large cities. Among all cities, intergovernmental revenues accounted for 23.4 percent of total revenues.

The second difference is the reliance on tax revenues. Because large cities receive a much smaller portion of their revenues from intergovernmental sources, they more commonly utilize tax revenue streams such as tax increments, franchise, lodging, and local sales taxes. In 2019, tax revenue from all sources accounted for 51.8 percent of large city revenues, compared to 40.2 percent of small city revenues. Property taxes accounted for 40.8 percent of large city revenues, compared to 37.6 percent for small cities.

On a per capita basis, large cities had total revenues of \$1,325, and small cities had total revenues of \$1,286.

#### Expenditures

In 2019, total expenditures of the governmental funds for all cities totaled \$7.09 billion. This represents an increase of 7.2 percent over 2018. Total expenditures for cities over 2,500 in population increased 7.6 percent, while those under 2,500 in population increased 3.9 percent in 2019.

The spending priorities of cities under 2,500 in population differ from those of cities over 2,500 in population. For example, small cities tend to direct a greater percentage of their resources to general government (17.1 percent) and less to culture and recreation (8.4 percent) than cities over 2,500 (11.8 percent and 13.7 percent, respectively). The largest expenditure categories for both groups of cities are streets and highways and public safety. For large cities, public safety accounted for 26.9 percent of total expenditures, and streets and highways accounted for 23.4 percent of total expenditures. For small cities, streets and highways accounted for 25.9 percent of total expenditures, and public safety accounted for 21.2 percent.

## Long-Term Debt

Overall, small cities tend to carry a greater debt burden per capita than large cities. In 2019, small cities carried long-term debt of \$1.36 billion, or \$3,805 per capita, compared to \$8.07 billion, or \$1,865 per capita, for large cities.<sup>6</sup> While there is no single reason for the higher level of indebtedness per capita among the smaller cities, a primary reason is that the high costs of projects, such as wastewater treatment facilities and water and sewer line replacement, are spread across fewer people.

## Unrestricted Fund Balances of the General and Special Revenue Funds

A clear difference between the two city types is in the level of unrestricted fund balances. Small cities maintain significantly higher fund balances than large cities. In 2019, unrestricted fund balances as a percent of current expenditures averaged 49.2 percent for large cities, compared to 112.3 percent for small cities.

In 2019, of the 282 small cities that reported a fund balance, 163 (57.8 percent) had an unrestricted fund balance greater than or equal to 100 percent of total current expenditures. Of the 226 large cities, 39 (17.3 percent) had an unrestricted fund balance greater than or equal to 100 percent of total current expenditures. In 2019, unrestricted fund balance as a percent of total current expenditures among small cities ranged from -99.2 percent in Hendrum to 595.8 percent in Hancock. Among large cities, the range was from 5.7 percent in Chaska to 652.1 percent in Benson.<sup>7</sup>

The OSA recommends that at year-end, or other key times of the year, local governments that rely significantly on property tax revenues maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures. If the local government's unrestricted fund balance is less than or greater than this, the local government should be able to explain the reason for the difference.

The OSA recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level.<sup>8</sup>

---

<sup>6</sup>Per capita figures reflect only those entities that have debt.

<sup>7</sup>The City of Benson received a \$20 million grant payable in installments over four years from Northern States Power to compensate the community from the economic loss of the Benson Power plant.

<sup>8</sup>The OSA's Statement of Position on Fund Balances can be found on our website at the following link: [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54.](#)

# Ten-Year Trends

## Governmental Revenues

Over the ten-year period of 2010 to 2019, an examination of city revenues shows that, when adjusted for inflation, revenues increased 10.2 percent.<sup>9</sup>

During that same period, total city revenues, in actual dollars, grew from \$4.66 billion in 2010 to \$6.24 billion in 2019, an increase of 33.8 percent. See Figure 1 below.

Between 2010 and 2019, actual revenues derived from property taxes grew 43.3 percent, compared to an increase of 20.9 percent for revenues derived from intergovernmental sources. Additional analysis of actual intergovernmental revenues over the ten-year period shows federal grants decreased 50.4 percent, state grants increased 41.6 percent, and local grants increased 92.4 percent. When revenues are adjusted for inflation, the ten-year period shows an 18.0 percent increase in property tax revenues, while intergovernmental revenues decreased 0.5 percent.

<sup>9</sup>“Adjusted for inflation” and “constant dollars” refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments setting 2010 as the base year (N.I.P.A. Table 1.1.9, November 25, 2020).

In actual dollars, the proportion of total revenues derived from property taxes grew from 37.9 percent in 2010 to 40.5 percent in 2019. During this same time frame, revenues derived from intergovernmental sources decreased from 25.9 percent of total revenues to 23.4 percent. Figure 2 below shows that cities are relying more on property taxes and less on intergovernmental revenues to fund city services.

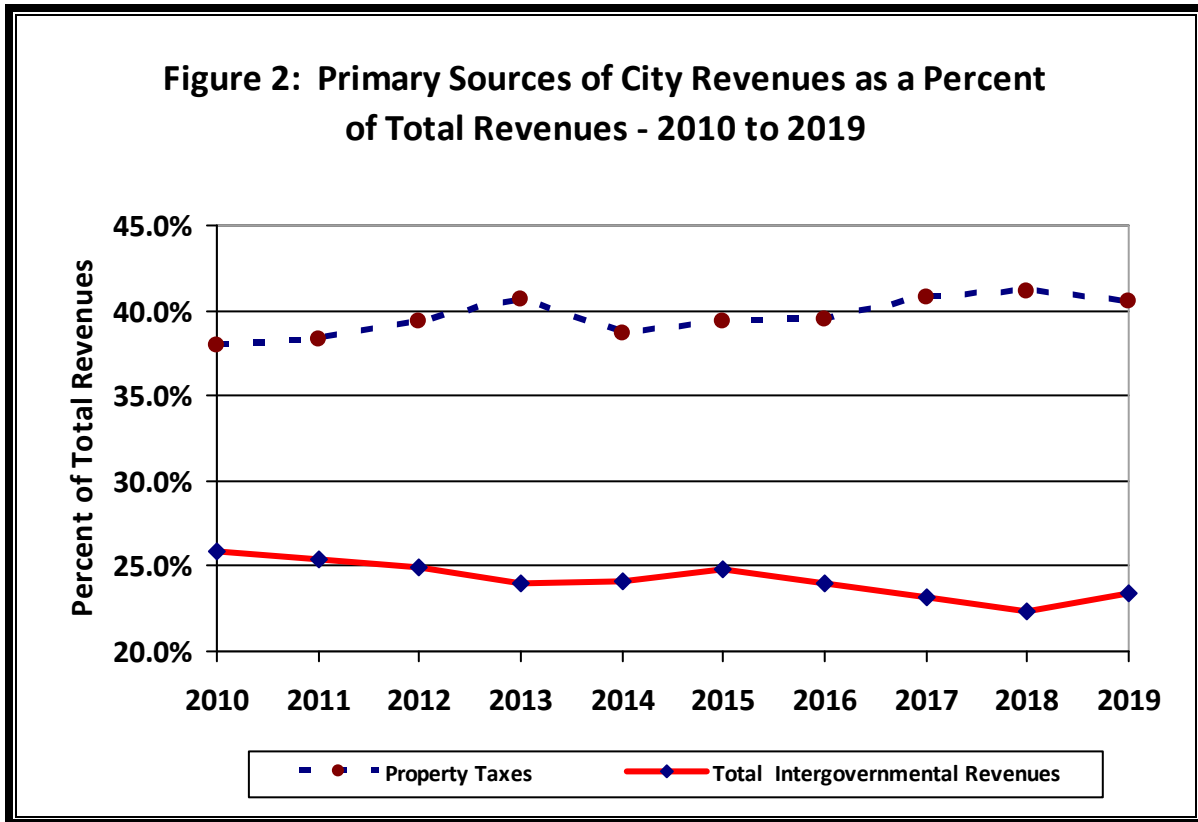

Table 1 on the following page provides a summary of the trend in city revenues from 2010 to 2019 when adjusted for inflation. Only four of the revenue categories showed a decrease over the ten-year period: federal grants (-59.2 percent), fines and forfeits (-39.6 percent), special assessments (-28.5 percent), and all other revenues (-10.5 percent). All other categories of revenues showed double digit increases over this period.

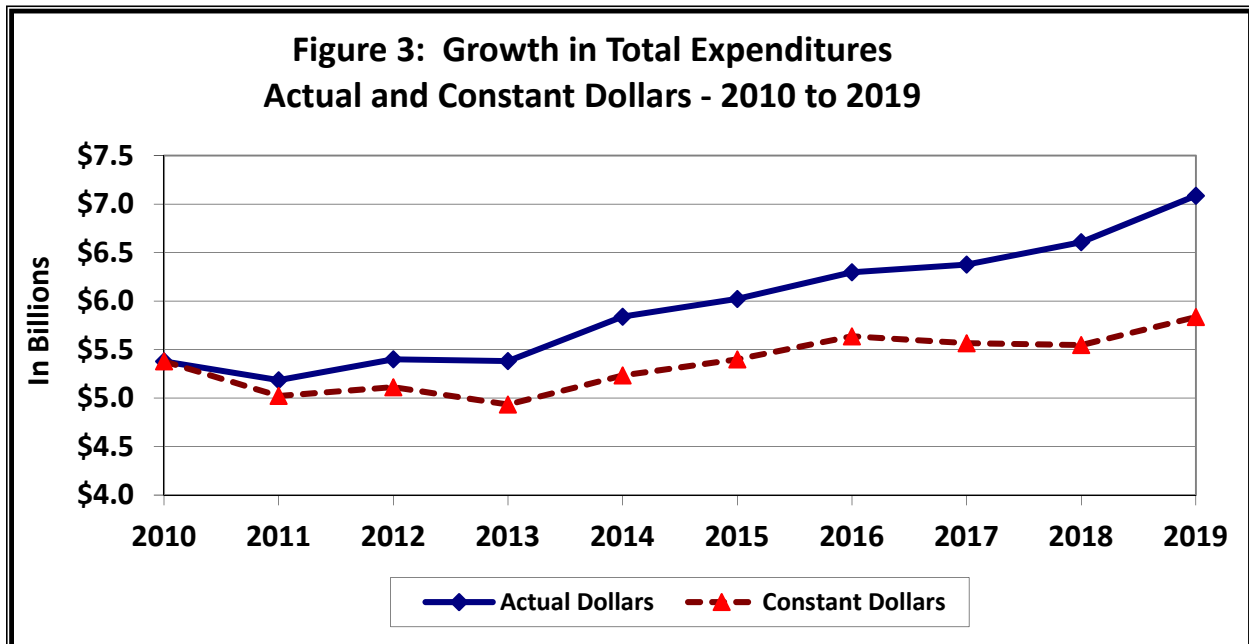

**Table 1: Total City Revenues in Constant Dollars**

Revenues	2010*	2014*	2015*	2019*	2010 - 14 5-Year Change	2015 - 19 5-Year Change	10-Year Change
Taxes	\$2,269,564,057	\$2,244,450,756	\$2,313,739,444	\$2,615,852,282	-1.1%	13.1%	15.3%

<b>Total Revenues</b>	<b>\$4,663,605,907</b>	<b>\$4,563,873,927</b>	<b>\$4,689,473,834</b>	<b>\$5,139,733,759</b>	<b>-2.1%</b>	<b>9.6%</b>	<b>10.2%</b>

\*Due to rounding, the total may not equal the sum of the individual categories.

## Governmental Expenditures

Between 2010 and 2019, an examination of city finances shows that, when adjusted for inflation, expenditures increased 8.5 percent over the ten-year period. Over the same period, actual total city expenditures grew from \$5.38 billion to \$7.09 billion. This represents an increase of 31.8 percent. Figure 3 below shows the contrast between expenditures in actual and constant dollars.

The three components of city spending are total current expenditures, total capital outlays, and total debt service. Over the ten-year period, when adjusted for inflation, total current expenditures increased 9.4 percent, capital outlays increased 26.5 percent, and debt service decreased 16.3 percent.

Table 2 below provides a summary of expenditures in constant dollars. Although inflation-adjusted total expenditures increased 8.5 percent over the ten-year period, a comparison of the two five-year periods of 2010 to 2014 and 2015 to 2019 reveals a significant reversal during the most recent period. From 2010 to 2014, inflation-adjusted total expenditures decreased 2.7 percent, while from 2015 to 2019, inflation-adjusted total expenditures increased 8.1 percent.

**Table 2: Total City Expenditures in Constant Dollars**

Expenditures	2010*	2014*	2015*	2019*	2010 - 14	2015 - 19	10-Year
					5-Year	5-Year	
					Change	Change	Change
General Government	\$569,033,864	\$598,097,915	\$577,151,450	\$715,406,634	5.1%	24.0%	25.7%

## Overview of Cities Over 2,500 in Population

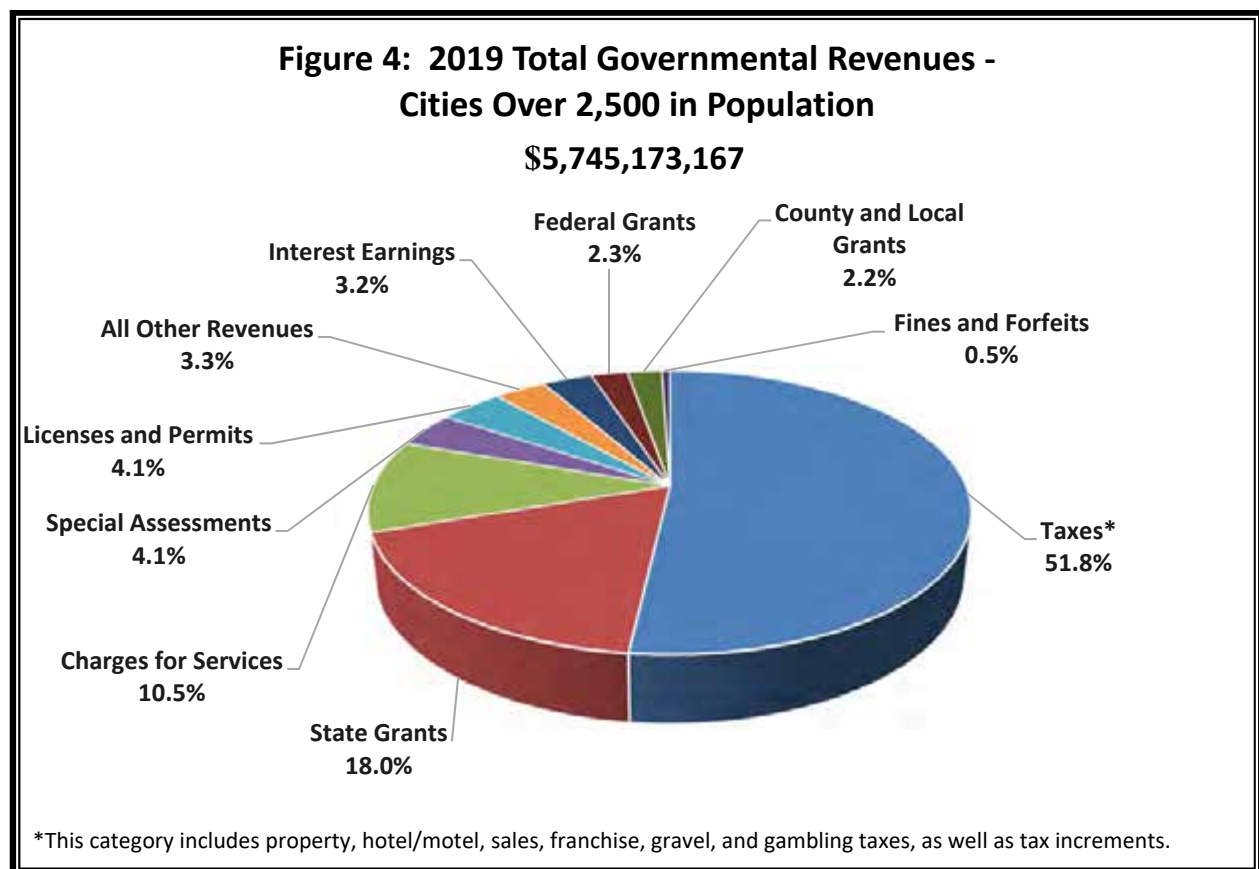

---

### Total Governmental Revenues

In 2019, cities over 2,500 in population, or large cities, had total governmental revenues of \$5.75 billion. This represents an increase of 7.1 percent over 2018 levels. The primary revenue sources for large cities were taxes and state grants, which accounted for 69.8 percent of all large city revenues.

Although total revenues grew 7.1 percent between 2018 and 2019, only five of the ten categories of revenues increased. Among those showing the greatest increase were interest earnings (135.8 percent), county and local unit grants (35.8 percent), and state grants (15.0 percent). The all other revenues category showed the greatest decrease at -11.1 percent.

Figure 4 below shows the relative shares of total governmental revenues by source. Underlying data for this figure, as well as five-year trends, can be found in Table 8 on page 28.

## Total Governmental Expenditures

Cities provide a variety of services. Most expenditures related to these services are accounted for in governmental funds. The governmental funds are classified as the General, Special Revenue, Capital Projects, Debt Service, and Permanent Funds. In 2019, cities over 2,500 in population expended \$6.49 billion from these various governmental funds to provide city services. This represents an increase of 7.6 percent over 2018 total governmental expenditures. Total governmental expenditures include current expenditures, capital outlays, and debt service. Current expenditures accounted for 62.0 percent of total governmental expenditures, capital outlays accounted for 24.6 percent, and debt service accounted for 13.4 percent.

The largest category of current expenditures for cities over 2,500 in population was public safety, while streets and highways was the largest capital outlay expenditure. Public safety accounted for 40.1 percent of all current expenditures--more than double that of any other category. Streets and highways accounted for 58.0 percent of all capital expenditures, over three times greater than any other category of capital outlay.

Figure 5 below shows the relative shares of total governmental expenditures by function. The underlying data for this figure is detailed in Table 9 on page 29.

## Capital Outlay Expenditures

In 2019, cities over 2,500 in population expended \$1.59 billion on capital investments. This represents an increase of 13.7 percent from the level expended in 2018. Capital outlay expenditures account for the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Capital outlay expenditures are more likely than current expenditures to vary significantly from one year to the next. The reason for this is that capital projects tend to be large in size, but the associated costs are short-term. Table 3 below shows total capital outlays in actual dollars and per capita amounts for large cities.

<b>Table 3: Total Capital Outlay Expenditures in Actual Dollars and Per Capita</b>		
<b>Year</b>	<b>Total Capital Outlay (Actual Dollars)</b>	<b>Per Capita*</b>
2015	\$1,341,323,329	\$323
2016	\$1,453,084,363	\$346
2017	\$1,372,951,348	\$324
2018	\$1,402,619,295	\$327
2019	\$1,594,123,919	\$368

\*Per capita amounts are based on the total population of cities over 2,500.

Figure 6 below illustrates the trend in capital outlay expenditures between 2015 and 2019.

## Debt Service

In 2019, large cities expended a total of \$867.6 million on debt service, which represented 13.4 percent of total expenditures. Debt service includes expenditures for the principal and interest payments of debt incurred by cities. Between 2018 and 2019, large city debt service expenditures increased \$13.0 million, or 1.5 percent.

Figure 7 below shows the trend in the percentage of total expenditures allocated to debt service.

# Municipal Enterprises

In addition to governmental funds, many cities establish enterprise funds to account for services that are financed and operated in a manner similar to private business enterprises. These enterprises generally are intended to be self-sustaining through fees and user charges. Although some enterprises may earn a net profit, most have the objective of breaking even. Some municipalities choose to subsidize an enterprise that benefits the community as a whole. Enterprise fund accounting provides more detailed financial information on operations where there are public policy, accountability, management control, and other concerns. The most common enterprises created by large cities are for culture and recreation, sewer, and water services.

In aggregate, large city municipal enterprises reported a net income of \$434.6 million and net transfers (transfers out minus transfers in) of \$178.0 million in 2019. This represents a decrease of 11.2 percent in net income and an 8.0 percent increase in net transfers over 2018. An example of this type of transfer is when city officials transfer excess reserves from the Water Utility Enterprise Fund to the General Fund. Overall, net transfers were 41.0 percent of net profits among large city enterprises. Figure 8 below examines the five-year trend for large cities in net transfers from enterprise funds as a percent of net income.

## Outstanding Long-Term Indebtedness

Large cities carried long-term debt of \$8.07 billion, or \$1,865 per capita, at the end of 2019. This represents an increase of 0.6 percent over 2018. Cities incur long-term debt through various financial instruments, such as the issuance of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Long-term lease agreements are also classified as long-term debt. Cities may only borrow to finance capital projects and purchases but are restricted by law from borrowing for current expenditures. The amount of outstanding debt affects a city's expenditures because cities must make principal and interest payments to service the debt. Table 4 below shows the outstanding bonded indebtedness for 2018 and 2019.

<b>Table 4: Two-Year Summary of Outstanding Bonded Indebtedness</b>		
	<b>2018 Amount</b>	<b>2019 Amount</b>
General Obligation	\$2,339,770,154	\$2,595,944,461
General Obligation Tax Increment	286,012,483	221,167,695
Revenue Tax Increment	70,347,000	78,371,000
Special Assessment	1,749,038,414	1,696,751,923
General Obligation Revenue	1,431,207,132	1,443,653,805
Revenue	929,980,464	822,888,470
All Other	6,598,476	4,816,000
<b>Total Bonded Indebtedness</b>	<b><u>\$6,812,954,123</u></b>	<b><u>\$6,863,593,354</u></b>

Figure 9 below shows the five-year trend of outstanding long-term debt for large cities.

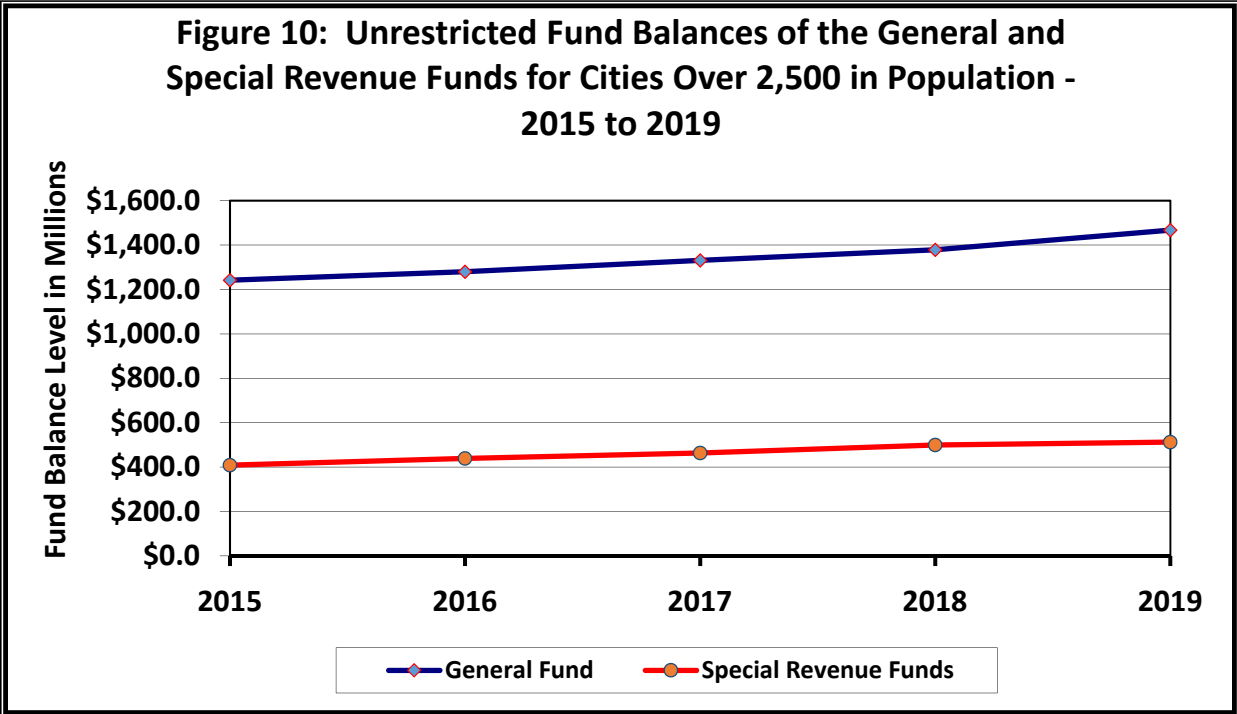

# Unrestricted Fund Balances of the General and Special Revenue Funds

The unrestricted fund balances of large cities' General and Special Revenue Funds totaled \$1.98 billion in 2019.<sup>10</sup> This was an increase of 5.4 percent over 2018. Cities should have relatively large fund balances at the end of the year (December 31) because they must rely on them to meet expenditures during the first five months of the next fiscal year until they receive the first property tax and state-aid payments.

Large city unrestricted fund balances as a percent of total current expenditures averaged 49.2 percent in 2019, compared to 49.8 percent for unrestricted fund balances in 2018. Larger cities tend to have lower unrestricted fund balances as a percent of current expenditures than small cities. Unrestricted fund balances as a percent of current expenditures averaged 32.4 percent for cities of the first class, compared to 80.1 percent for fourth-class cities.

Figure 10 below shows the unrestricted fund balances for the General and Special Revenue Funds by type for large cities.

<sup>10</sup>In this analysis, three fund balance classifications together represent the unrestricted fund balance; committed, assigned, and unassigned. The appendix starting on page 335 provides a more detailed discussion of fund balances and GASB 54.

---

## Overview of Cities Under 2,500 in Population

---

### Total Governmental Revenues

In 2019, cities under 2,500 in population, or small cities, had total governmental revenues of \$496.7 million. This represents an increase of \$7.6 million, or 1.6 percent, over 2018.

Among the ten categories of small city revenues, half showed increases and half showed decreases between 2018 and 2019. The categories with the largest percentage increases were interest earnings (74.6 percent) and licenses and permits (10.3 percent). The categories showing decreases were local and county grants (-22.4 percent) and federal grants (-5.2 percent).

The main sources of revenues for small cities in 2019 were taxes and state grants, which together accounted for 67.5 percent of all revenues.

Figure 11 below shows the relative shares of total governmental revenues by source. The underlying data for this figure is in Table 12 on page 32.

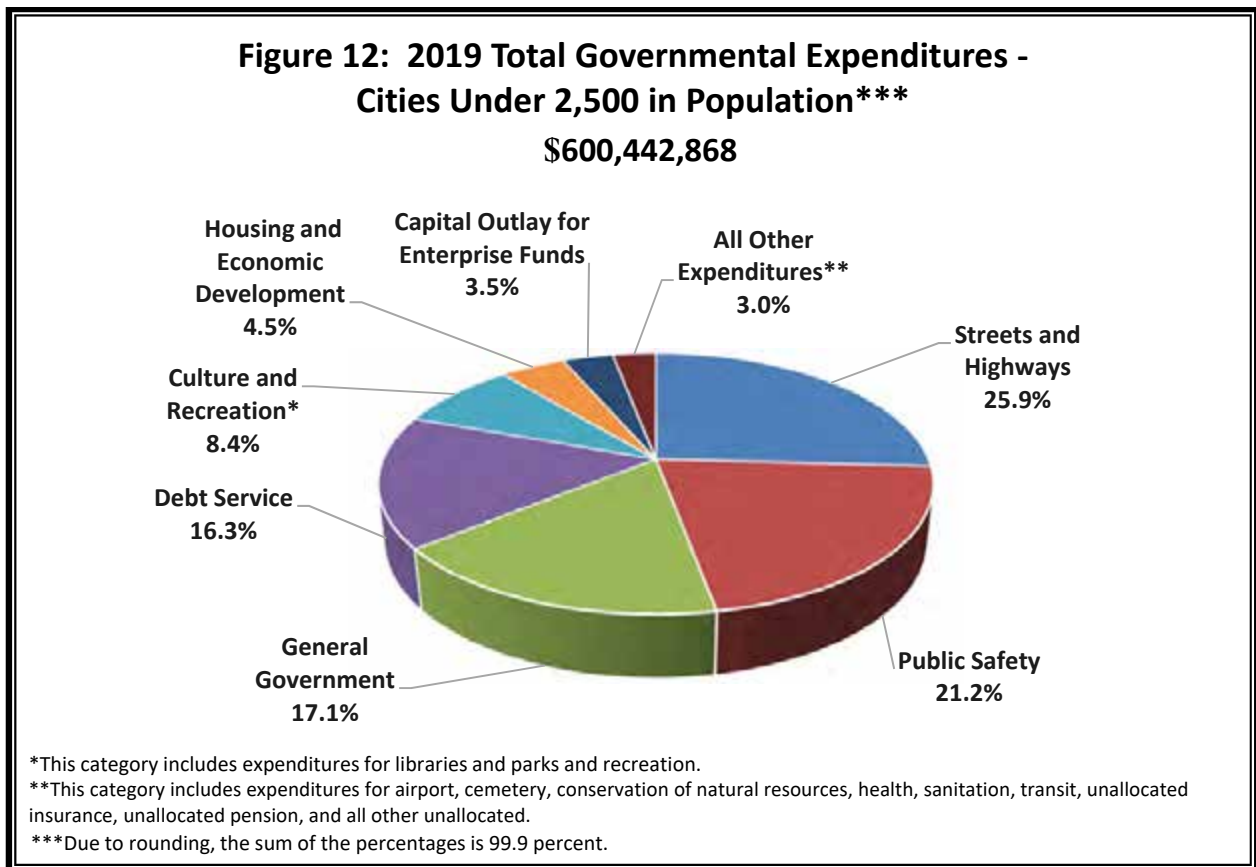

## Total Governmental Expenditures

Most city services are accounted for in governmental funds. The governmental funds are made up of the General, Special Revenue, Capital Projects, Debt Service, and Permanent Funds. In 2019, cities under 2,500 in population expended \$600.4 million to provide city services. This represents an increase of 3.9 percent over 2018 total governmental expenditures. Total governmental expenditures include current expenditures, capital outlays, and debt service. Current expenditures accounted for 56.7 percent of total governmental expenditures, capital outlay accounted for 27.0 percent, and debt service accounted for 16.3 percent.

In 2019, the four largest expenditure categories for small cities were streets and highways, public safety, general government, and debt service. These four categories together accounted for 80.5 percent of all expenditures.

Figure 12 below shows the relative shares of total governmental expenditures of small cities by function. The underlying data for this figure is in Table 13 on page 33.

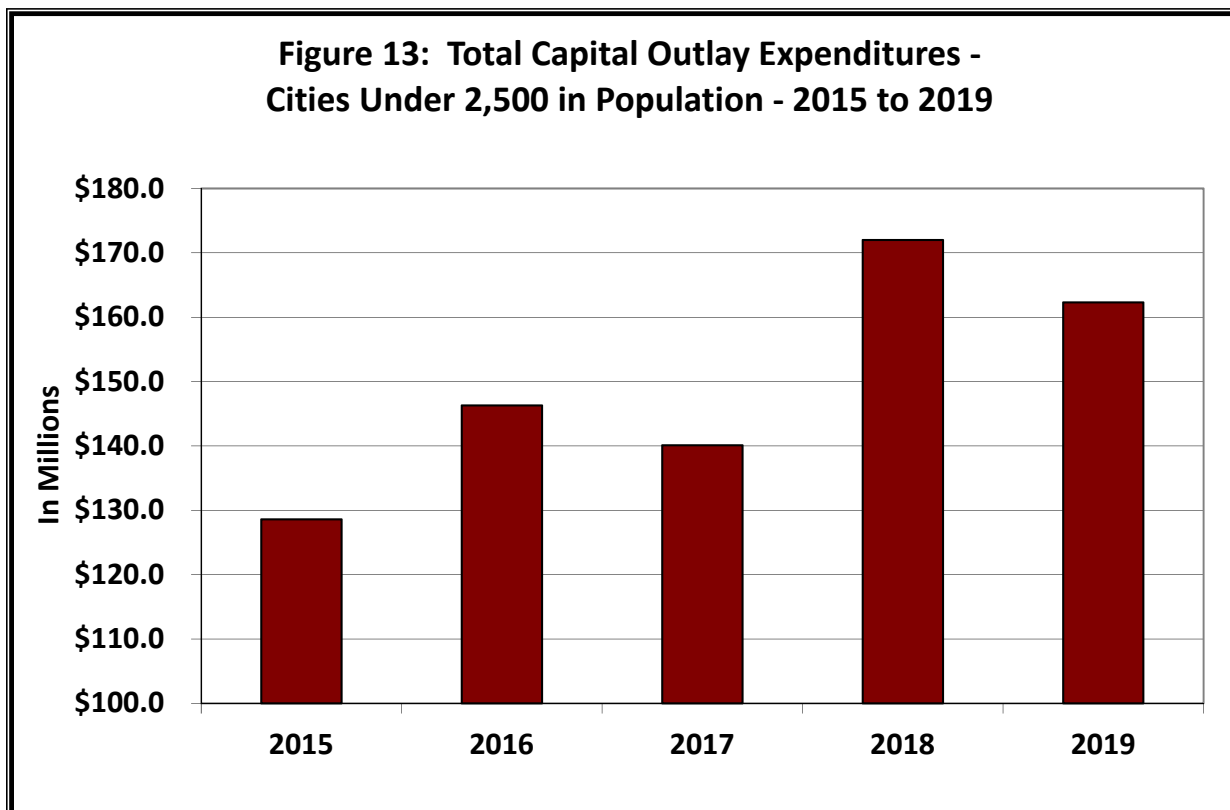

## Capital Outlay Expenditures

Capital outlay expenditures account for the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Small cities expended \$162.3 million on capital outlay in 2019. This represents a decrease of 5.6 percent from the level expended in 2018.

Capital outlay expenditures are more likely than current expenditures to vary significantly from one year to the next. The reason for this is that capital projects tend to be large in size, but the associated costs are short term. Some of the factors that influence the level of capital investments include: demands for public meeting places and facilities; the need to replace aging infrastructure; public safety concerns; infrastructure improvements for new developments; and damage to public facilities caused by fire, floods, and storms.

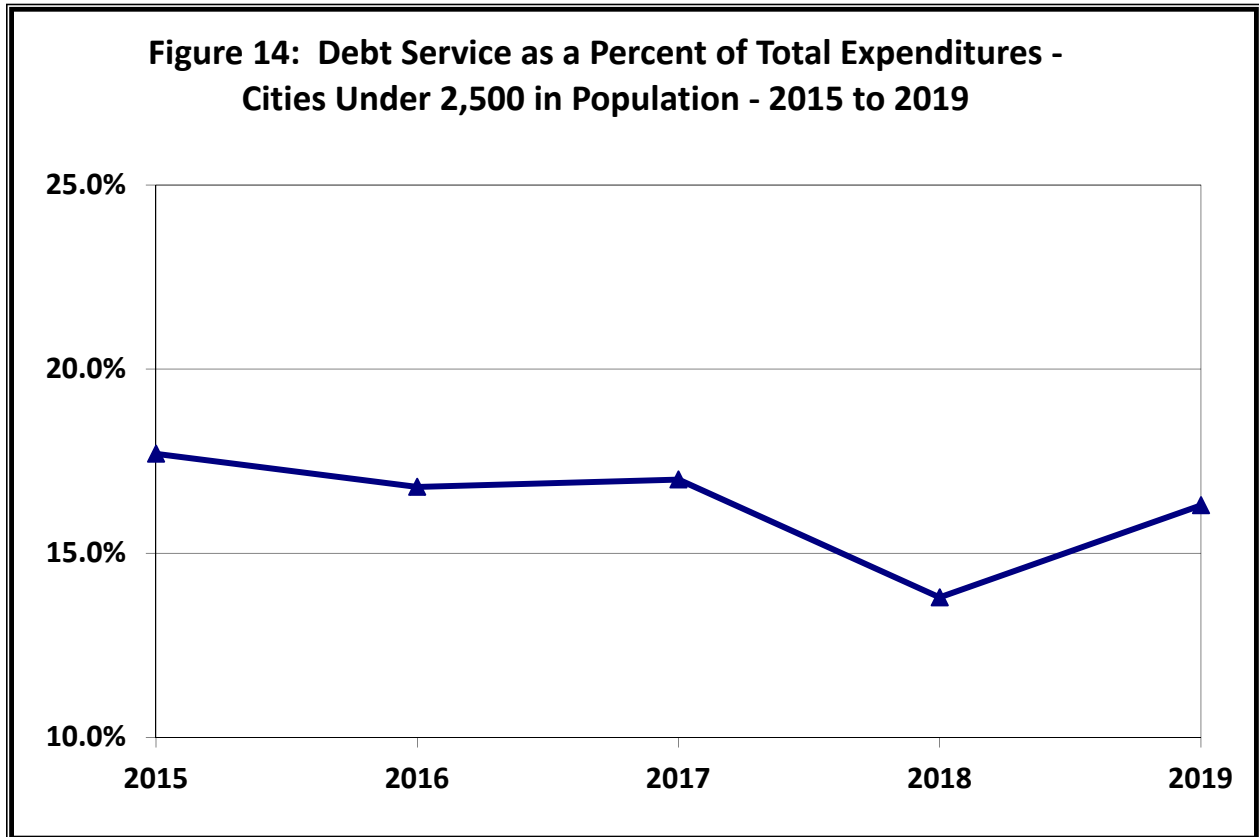

Figure 13 below illustrates the trend in capital outlay expenditures of small cities for the years 2015 through 2019.

## Debt Service

Debt service includes expenditures for the principal and interest payments on debt incurred by cities. In 2019, small cities expended a total of \$97.9 million on debt service. This represents an increase of 22.4 percent over 2018. Overall, debt service expenditures accounted for 16.3 percent of total expenditures for small cities.

Figure 14 below shows the five-year trend in the percent of total expenditures allocated to debt service.

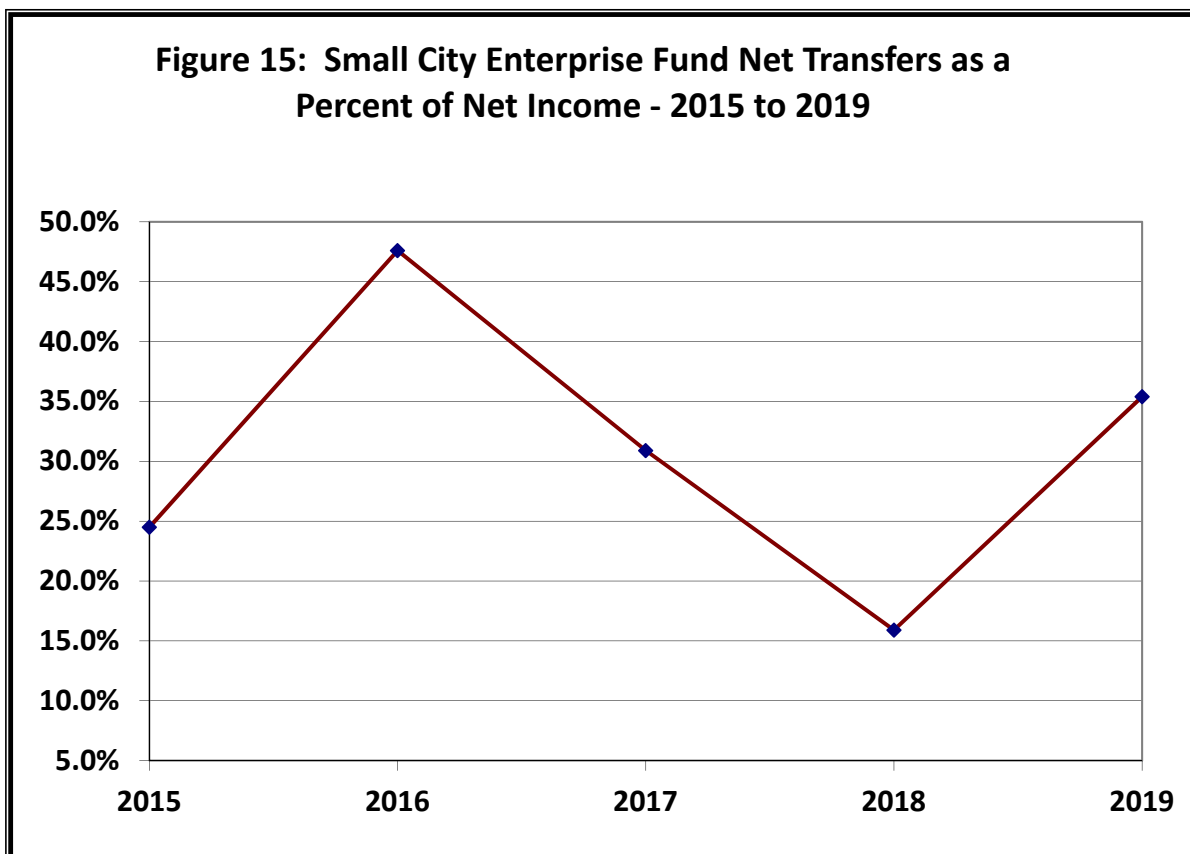

## Municipal Enterprises

The total net income of small city enterprises in 2019 was \$52.7 million, and the net amount transferred to other funds was \$18.6 million. This represents an increase in net income of 16.5 percent and an increase in net transfers (transfers out minus transfers in) of 159.7 percent from 2018.

In 2019, the municipal enterprises of small cities transferred 35.4 percent of their net income to other funds, compared to 15.9 percent in 2018.

Figure 15 below examines the five-year trend in net transfers from enterprise funds as a percent of net income.

## Outstanding Long-Term Indebtedness

Small cities carried long-term debt totaling \$1.36 billion at the end of 2019. This represents an increase of 4.0 percent over the level in 2018. On a per capita basis, small cities carried \$3,805 in long-term debt, compared to \$1,865 for large cities.<sup>11</sup> While there is no single reason for the higher level of indebtedness per capita among the smaller cities, a primary reason is that the high costs of projects, such as water and sewer line replacement, are spread across fewer people.

Table 5 below looks at outstanding bonded indebtedness for 2018 and 2019 for small cities.

	<b>2018 Amount</b>	<b>2019 Amount</b>
General Obligation	\$199,134,301	\$216,837,205
General Obligation Tax Increment	23,152,158	21,529,903
Revenue Tax Increment	48,938	1,333,074
Special Assessment	227,576,897	240,861,931
General Obligation Revenue	391,637,307	428,751,745
Revenue	35,839,604	37,806,195
All Other	---	---
<b>Total Bonded Indebtedness</b>	<b>\$877,389,205</b>	<b>\$947,120,053</b>

Figure 16 below shows the five-year trend of outstanding long-term debt for small cities.

<sup>11</sup>Per capita figures reflect only those entities that have debt.

\*\*Failed to meet reporting requirements.

\*\*\*Operating expenses include cost of sales for liquor enterprises.

\*\*\*\*Net transfers are calculated by subtracting transfers in from transfers out.

## ENTERPRISE FUND FOOTNOTES

- [\*] Data could not be fully verified.
- [0] Information is taken from a cash receipts and disbursements statement.
- [1] The water utility operations include the sewer and refuse disposal operations.
- [2] The water utility operations include the refuse disposal enterprise operations.
- [3] The water utility operations include the sewer enterprise fund operations.
- [4] The electric utility operations include the water enterprise fund operations.
- [6] The electric utility operations include the sewer enterprise fund operations.
- [9] The electric utility operations include the gas enterprise fund operations.
- [12] The enterprise fund fiscal year-end is March 31st.
- [13] The enterprise fund fiscal year-end is June 30th.
- [14] The enterprise fund fiscal year-end is September 30th.
- [16] The enterprise operation was sold.
- [17] The electric utility operations include the refuse disposal enterprise operations.
- [18] The sewer utility operations include the refuse disposal enterprise operations.
- [21] The enterprise fund discontinued operations during the current year.
- [23] The enterprise fund is shown on the modified accrual basis of accounting.
- [25] The operations were transferred to the governmental funds.
- [27] The water utility operations include the recycling enterprise fund operations.
- [29] Discretely presented component unit.
- [30] The electric utility operations include the refuse, sewer, and water fund operations.
- [31] The electric utility operations include the cable television, refuse, sewer, and water fund operations.
- [32] The enterprise fund was not in operation.
- [33] The enterprise fund fiscal year-end is April 30.

## ENTERPRISE FUND FOOTNOTES

[34] The accrual basis of accounting is used; however, no depreciation.

[35] Unaudited numbers used; audited numbers used in previous years.

## **Appendix - Factors Influencing General and Special Revenue Unrestricted Fund Balances**

---

It is important to provide context on fund balance as reported by cities for this report. Fund balances are reported at the close of the fiscal year, which runs concurrent with the calendar year. City fund balances should be relatively large at the end of the year because of local government cash-flow cycles. Cities must rely on their fund balances to meet expenses during the first five months of the next fiscal year, until they receive the first property tax payments (May) and aid payments from the state (July).

Unlike state government, which collects income tax withholding and sales tax receipts regularly throughout the year, Minnesota's cities do not have a constant flow of revenue from which they are able to fund local government operations. Property tax levies, state-aid, and property tax credits comprise the majority of city discretionary revenues. Minnesota statutes govern the flow of these major revenue sources into city treasuries:

- Counties distribute the cities' share of the first half of property tax levies in late May and early June. Cities receive the first half of their state-aid and property tax credits from the state in July of each year.
- Counties distribute the cities' share of the second half of property tax levies in late October and early November.
- Cities receive the second half of their state-aid and property tax credits from the state in December of each year.

Given this state-controlled flow of revenue, city fund balances (which are measured on December 31) are the primary sources of funds available to cities for their operating expenses during the first five months of the next fiscal year. An adequate fund balance will provide a local government with the cash flow required to finance expenditures without short-term borrowing.

### **Unique Circumstances of Each Jurisdiction Determine the Size of Fund Balance Needed**

While cities must rely on the fund balances for cash flow purposes during the first five months of a year, the unique circumstances of each local government will determine the size of a fund balance that must be maintained to avoid the need for short-term borrowing and to operate effectively.

Numerous factors must be considered in determining the size of a fund balance necessary for a city to avoid short-term borrowing, including:

- If cities receive relatively large amounts of revenue from sources such as fees, fines, charges for services, other intergovernmental grants and aids, or interest on investments during the first five months of the calendar year, then they will be less dependent on their fund balances for cash flow purposes.
- Cities may be able to delay certain purchases until after the initial property tax and state-aid payments are received. While payments for employee salaries, wages, and most benefits cannot be delayed during the first five months of the year, purchases of supplies and capital equipment may be delayed.

The individual cash flow needs of a city will determine the minimum fund balance that is necessary for a city to operate effectively. Cities that are able to generate significant revenues from sources other than property taxes and state-aid payments may require relatively smaller fund balances to support their cash flow requirements. Conversely, cities that rely heavily on property taxes and state-aid for the majority of their revenues will need larger fund balances to meet their cash flow needs from January through June of every calendar year.

While there are many factors that help determine the minimum fund balance needed to maintain financial health, the Office of the State Auditor recommends that, at year-end or other key times of the year, local governments that rely significantly on property taxes maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures.<sup>12</sup> If the local government's unrestricted fund balance is less than or greater than this recommendation, the local government should be able to explain the reason for the difference.

The Office of the State Auditor recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level.

## Fund Balance Classifications/Definitions for Governmental Funds

The fund balance classifications of a local government’s governmental funds are based on the definitions in the following table:

<b>Fund Balance Reporting</b>			
<b>Classification</b>	<b>Definition</b>	<b>Examples</b>	
<b>Nonspendable</b>	“Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.” <sup>13</sup>	<ul style="list-style-type: none"> <li>• Inventories,</li> <li>• Prepaid items,</li> <li>• Long-term receivables, and</li> <li>• Permanent principal of endowment funds.</li> </ul>	
<b>Restricted</b>	<p>“Fund balance should be reported as restricted when constraints placed on the use of resources are either:</p> <p>a. Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or</p> <p>b. Imposed by law through constitutional provisions or enabling legislation.”<sup>14</sup></p>	<ul style="list-style-type: none"> <li>• Restricted by state statute,</li> <li>• Unspent bond proceeds,</li> <li>• Grants earned but not spent,</li> <li>• Debt covenants,</li> <li>• Taxes dedicated to a specific purpose, and</li> <li>• Revenues restricted by enabling legislation.</li> </ul>	
<b>Unrestricted</b>	<b>Committed</b>	<p>“Used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority.”<sup>15</sup></p>	<ul style="list-style-type: none"> <li>• The governing board has decided to set aside \$1 million for a new city hall, and</li> <li>• Property tax levies set for a specific purpose by resolution.</li> </ul>
	<b>Assigned</b>	<p>“Amounts that are constrained by the government’s intent to be used for specific purposes, but are neither restricted nor committed.”<sup>16</sup></p>	<ul style="list-style-type: none"> <li>• The governing board has set aside \$2 million for a county hospital, and the county manager may amend this up to \$100,000;</li> <li>• The governing body delegates the authority to assign fund balance to the finance officer;</li> <li>• The governing board has appropriated fund balance usually titled “subsequent year’s expenditures;” and</li> <li>• Positive residual balances in governmental funds other than the General Fund.</li> </ul>
	<b>Unassigned</b>	<p>Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned.<sup>17</sup></p>

## **GLOSSARY**

This page left blank intentionally

## Glossary

**ASSIGNED FUND BALANCES** - Fund balances that are constrained by the government's intent that they be used for specific purposes, but are neither restricted nor committed.

**BORROWING** - These revenues reflect the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Cities are restricted by law from borrowing for current expenses.

**CAPITAL OUTLAY** - These expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Capital outlay varies from year to year based on the needs and resources of the cities.

**CAPITAL OUTLAY FOR ENTERPRISE FUNDS** - These funds include expenditures from governmental funds for improvements to public service enterprises, such as sewer and water mains.

**CAPITAL PROJECTS FUND** - A fund created to account for the financial resources that are used for the acquisition or construction of a fixed asset.

**CASH BASIS OF ACCOUNTING** - The basis of accounting that recognizes transactions or events when related cash amounts are received or disbursed.

**CHARGES FOR SERVICES** - These revenues reflect fees for activities of the governmental funds. These include rent of city hall by individuals or organizations, police and fire contracts, fire calls, recreation fees, park dedication fees, etc.

**COMMITTED FUND BALANCE** - The fund balance amount that can be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority.

**DEBT SERVICE EXPENDITURES** - These expenditures reflect the annual costs of servicing the outstanding debt of the local government. These costs include principal, interest, and some fiscal charges.

**DEBT SERVICE FUND** - A fund to account for the collection of resources and payment of principal and interest from long-term debt.

**ENTERPRISE FUND** - A fund established to account for operations financed and operated in a manner similar to private business. Examples include water, sewer, and electric utilities. The expenses of providing services are primarily financed by user charges.

**FINES AND FORFEITS** - These revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

**FRANCHISE TAXES** - These revenues reflect proceeds from taxes imposed on public utilities, usually involving elements of a monopoly (e.g., electric utilities, gas utilities, and cable television), for use of public property.

## Glossary

**GENERAL FUND** - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

**GENERAL GOVERNMENT EXPENDITURES** - These expenditures reflect the costs associated with running a local government. Expenditures in this category include salaries, wages, and benefits of legislative, judicial, and administrative personnel; supplies; and city hall maintenance.

**GOVERNMENTAL FUNDS** - These are the funds through which most governmental activities are financed. The five governmental fund types are: General, Special Revenue, Debt Service, Permanent, and Capital Projects.

**GRAVEL TAX** - These revenues are derived from taxes imposed by the local government for aggregate material removal.

**HEALTH** - These expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.

**HOUSING AND REDEVELOPMENT AUTHORITIES (HRA) AND ECONOMIC DEVELOPMENT AUTHORITIES (EDA)** - These expenditures are for development and redevelopment activities in blighted or otherwise economically disadvantaged areas. Activities may include low-interest loans to individuals and businesses, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and additional types of assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.

**INTEREST ON INVESTMENTS** - These revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds. This category also includes dividends. In addition, the net increase or decrease in the fair value of investments is recorded here.

**LICENSES AND PERMITS** - These revenues reflect receipts from liquor licenses, cigarette licenses, other business licenses, street use permits, building permits, and other non-business licenses and permits.

**MISCELLANEOUS EXPENDITURES** - These expenditures reflect the costs of activities that were not allocated to a specific function. Some activities included in this category are pension and insurance costs not allocated to a specific department.

**MISCELLANEOUS REVENUES** - These revenues refer to refunds, reimbursements, donations, and lease payments.

**MODIFIED ACCRUAL BASIS OF ACCOUNTING** - This is a basis of accounting where: (a) revenues are recognized in the accounting period in which they become available and measurable; and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

## Glossary

**NET TAX LEVY** - The city net property taxes, after adjustments for state property tax relief aids such as Market Value Credits are applied, which are required to be paid by the property owners of the city.

**NONSPENDABLE FUND BALANCE** - Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

**OTHER FINANCING SOURCES** - The long-term debt proceeds, sale of fixed assets, and transfers from other funds.

**OTHER FINANCING USES** - This category includes activities such as transfers from one fund to another and transactions involved in the issuance of refunding bonds. For example, in an advance refunding, bond proceeds are deposited with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time.

**OUTSTANDING LONG-TERM DEBT** - This category refers to the long-term debt that a local government has incurred to finance its capital projects. Examples of long-term debt include various types of bonds and other obligations such as notes and long-term leases.

**PARKS AND RECREATION** - These expenditures reflect park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, cable television, baseball fields, organized recreation activities, etc.

**PUBLIC SAFETY EXPENDITURES** - These expenditures reflect the costs related to the protection of persons and property. This category combines several distinct city departments, including police, fire, ambulance services, and other protection. They are combined here because cities allocate similar responsibilities differently among these departments.

**RESTRICTED FUND BALANCES** - Fund balances that have constraints placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

**SANITATION** - These expenditures reflect the costs of refuse collection and disposal, recycling, as well as weed and pest control. Some cities provide sanitation services through enterprise funds.

**SPECIAL ASSESSMENTS** - These revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

**SPECIAL REVENUE FUNDS** - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

## Glossary

**STREETS AND HIGHWAYS EXPENDITURES** - These expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.

**TAX CAPACITY** - Tax capacity is the value assigned to the property used to calculate the property taxes.

**TAX INCREMENTS** - These revenues are what cities generate when they establish tax increment financing (TIF) districts. In a TIF district, the increase in property tax revenues in the redeveloped area is used to pay the costs of development and redevelopment in the district rather than the general services of the city, county, and school district.

**TAXABLE TAX CAPACITY** - This category represents the tax capacity, less the tax increment district value, less the fiscal disparities contribution value, plus the fiscal disparities distribution value.

**TOTAL CURRENT EXPENDITURES** - This category reflects the total of all expenses related to current operations.

**TOTAL EXPENDITURES** - This category includes current operating expenses, capital outlays, and debt service principal and interest payments.

**TOTAL REVENUES** - This category reflects all sources of revenues that increase the amount of available resources without creating a liability or a future payment. Borrowing and transfers between funds are not included in total revenues.

**TRANSFERS - ENTERPRISE FUNDS** - This category accounts for the transfer of available resources to or from public service enterprises. An example of this transfer is a water utility transferring money to the General Fund.

**TRANSFERS - GOVERNMENTAL FUNDS** - This category accounts for the transfer of money between governmental fund types.

**UNALLOCATED INSURANCE** - These expenditures refer to insurance premiums that are not allocated to a specific function of government.

**UNALLOCATED PENSION CONTRIBUTIONS** - These expenditures refer to contributions to pension plans that are not allocated to a specific function of government.

**UNASSIGNED FUND BALANCE** - Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned.
