Description of the Office of the State Auditor

The Office of the State Auditor serves as a watchdog for Minnesota taxpayers by helping to ensure financial integrity, accountability, and cost-effectiveness in local governments throughout the state.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 250 financial and compliance audits per year and has oversight responsibilities for over 4,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits for local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government.

Pension Oversight - monitors investment, financial, and actuarial reporting for over 700 public pension funds;

Tax Increment Financing (TIF) - promotes compliance and accountability in local governments' use of TIF through financial and compliance audits;

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employee's Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Scope of Report

This report analyzes the financial operations of the 1,790 towns in Minnesota for the calendar year ended December 31, 2004. The data used in preparing this report include the annual township financial reporting form, audits by public accountants, financial statements prepared by the town clerk or clerk-treasurer, county auditors' reports of indebtedness, and Minnesota Department of Revenue records¹. Data received from the Department of Revenue includes state shared tax distributions, grants, aids, taxable valuations, and tax levies.

Townships represent the most common and grassroots form of municipal government in Minnesota. In 2004, there were 1,790 townships compared to 853 cities and 87 counties. The 2004 population estimates from the State Demographer shows that 957,039 individuals reside in towns, representing about 18.7 percent of the state population estimates. Fifty percent of towns have a population of 303 or less. Town populations range from 11,800 in the town of White Bear to 8 in the town of Hangaard.

The primary function of towns is roads and bridges. Total road and bridge expenditures accounted for 50.4 percent of total expenditures in 2004. Taxes are the primary source of revenues for towns, accounting for 63.8 percent of total revenue in 2004. Townships have a much higher reliance on tax revenues (primarily property taxes) than cities and counties which average about 39 percent and 36 percent of total revenues respectively.

The data presented in this report reflect the activities of both governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Capital Projects, and Debt Service Funds. The proprietary funds are those that report the financial operations of municipal public service enterprises such as water or electric utilities owned by the town. Tables 1 and 2 summarize the overall financial condition of Minnesota towns. Tables 3 and 4 present this data by individual town.

Table 5 lists the bonded and other long-term debt outstanding of each individual town as of December 31, 2004. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

An analysis of unreserved fund balances is not presented in this report. The majority of towns use a cash basis of accounting. The others use a modified accrual basis of accounting. Those towns using a cash basis of accounting report a single cash balance for all governmental funds at the end of the fiscal year. Towns using a modified accrual basis of accounting report separate fund balances for all of their governmental funds and denote the amounts that are reserved and unreserved. Because of these differences among towns, a comparative analysis of unreserved fund balances is not appropriate.

Towns Failing to Report

All 1,790 towns in Minnesota complied with the statutory reporting requirement in 2004. This is the first time that there has been full compliance with the reporting requirement by all townships. The chart below shows the number of towns that have not reported their financial information to the Auditor's Office over the previous five years as required by law.

Overview

Total Revenues

In 2004, Minnesota's towns collected total revenues of \$224.1 million, an increase of 4.8 percent over the total revenues collected in 2003, and 23.9 percent increase since 2000. Figure 1 shows the change in total revenues for towns over the five-year period.

Principal Sources of Revenue

The principal sources of revenues for towns were: taxes, intergovernmental revenues, and charges for services. These three sources of revenues accounted for almost ninety percent of town revenues in 2004. The shares of overall total governmental revenues generally vary only slightly from year to year. It is interesting to note that while total revenue increased by 4.8 percent in the last year, intergovernmental revenues continue to decrease (0.5 percent), taxes increased (6.2 percent), as well as charges for services (25.1 percent). The decrease in intergovernmental revenue reflects in part the elimination in 2001 of Local Government Aid (LGA) to towns. A primary reason for the large five-year increase in charges for services is the increase in the number of towns with sewer enterprises.

Figure 2 provides a comparison of the principal sources of revenues for the five-year period of 2000 to 2004. The underlying data for Figure 2 is presented in Table 1.

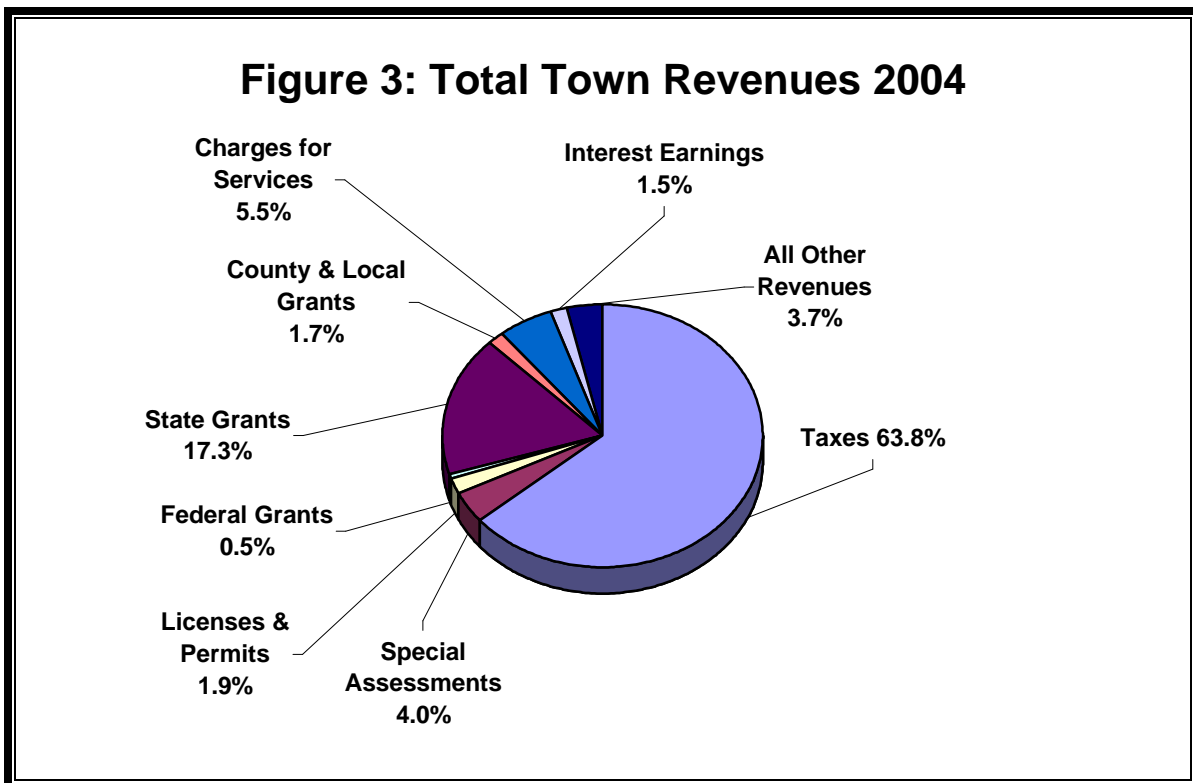

Figure 3 shows the individual revenue component percentage of the \$224,081,922 in total revenue in 2004.

Total Expenditures

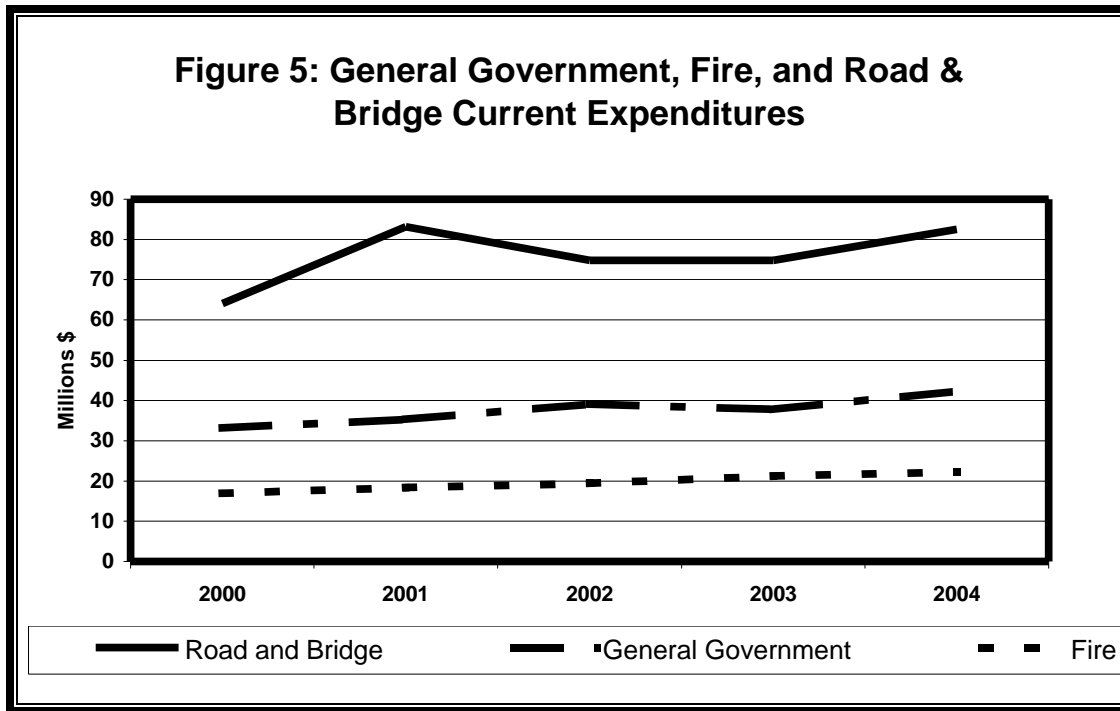

Minnesota towns spent a total of \$233.8 million in 2004, an increase of 13.4 percent from 2003 but up 25.6 percent since 2000. Of total expenditures, \$172.1 million was for current expenditures, \$45.0 million was for capital outlay, and \$16.7 million was for debt service payments. Figure 4 illustrates total expenditures over the five-year period.

Current Expenditures

Minnesota towns had current expenditures of \$172.1 million in 2004, an increase of 11.9 percent from 2003 and a 34.9 percent increase from 2000. Current expenditures exclude capital outlays, debt service, and transfers to other funds. The amount spent on road and bridge activities was almost double the amount of any other current expenditure and represents 47.9 percent of current expenditures.

Figure 5 provides a comparison of general government, fire, and road and bridge current expenditures for the years 2000 through 2004. The underlying data for this chart is presented in Table 2.

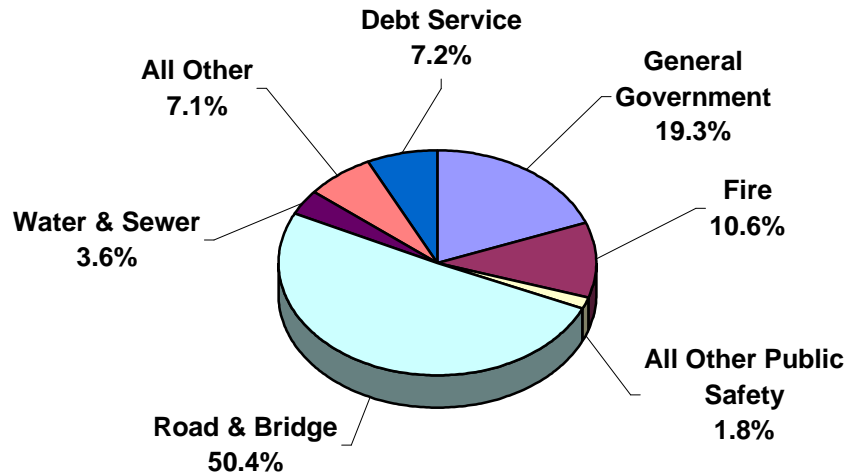

Capital Outlay and Debt Service

Capital spending totaled \$45.0 million in 2004. This represents an increase of 15.3 percent from 2003, and an increase of 6.8 percent over the five-year period. The largest category of capital expenditures for towns was roads and bridges, accounting for a little more than three-quarters of capital outlay spending. Capital spending relates to the acquisition or construction of major capital assets such as buildings and roads. Capital assets have initial lives extending beyond a single reporting period. There was a 22 percent increase in road and bridge capital outlays between 2003 and 2004. The large increase does not indicate a trend among all townships, but rather reflects large road projects in three metro townships (Hassan, New Scandia, and Spring Lake.)

Towns had debt service expenditures of \$16.7 million in 2004, an increase of 31.7 percent from 2003 and an increase of 1.8 percent over the five-year period. Debt service expenditures include the principal and interest payments on outstanding indebtedness. Expenditures in this category can vary widely. Such variations are caused either by the refinancing of existing debt or the issuance of new debt.

Figure 6 provides a summary of total expenditures by individual category for 2004.

Figure 6: Total Town Expenditures 2004

Indebtedness

Towns incur long-term debt through the issuance of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Long-term lease agreements are also classified as long-term debt. Towns may only borrow to finance capital projects and purchases. They are restricted by law from borrowing for current expenses. The amount of outstanding debt affects a town's current expenditures because they must have sufficient funds available to make principal and interest payments to service the debt.

In 2004, bonds totaling \$14.9 million were issued and \$6.1 million were retired, leaving \$44.4 million outstanding at the end of the year. Other long-term indebtedness outstanding at the end of 2004 totaled \$34.1 million. Towns reported \$384,611 in short-term indebtedness, an increase of 116.9 percent from the previous year. Bonded debt increased 20.8 percent while other long-term debt decreased 1.0 percent.

Figure 7 provides a summary of bonds outstanding, classified by type of bond for years 2000 through 2004.

Economic Development Regions

Minnesota is divided into 13 economic development regions. The following section summarizes town financial information by its individual region. Total revenues, total expenditures and total debt service are illustrated on a regional basis. The underlying data for this section is presented in Tables 6 and 7.
