**There are multiple family and system related factors that can affect the maltreatment recurrence performance measure. Our Federal Standard for this is to be less than 9.1%. The state average is 9.0%. Factors could include but not limited to; specific type of allegations being reported, efforts to decrease placement, increased drug use by families etc. Note that 2018 is almost the same percentage as 2016 in spite of 64 more maltreatment incidences in 2018.

*** 2018 Library visits were down due to the Centennial Library being closed for 4 months for a significant remodel.
