Minnesota Council on Local Results and Innovation

State Performance Measures Program Results Report - July 1, 2014

Prepared for the Office of the State Auditor

Submitted on behalf of Olmsted County by
Belinda J. Krenik
Director of Communications & Strategic Planning

Olmsted County has been a voluntary participant in the Minnesota Council on Local Results and Innovation's (Council's) Standard Performance Measure Program since 2011.

In Olmsted County, our strategic management system is called "Managing for Results" (M4R). M4R includes county-wide performance measures as well as a framework for departments to report on performance measures specific to their service area.

As required for the first time last year, we need to show the Council how these measures have been adopted and implemented into our performance measurement system. Olmsted County's performance measures and results have been organized within our M4R Strategy Map and Balanced Scorecard format.

The Council also believes counties should adopt community goals related to the services that are provided. In Olmsted County, we have adopted Strategic Priorities for each of the balanced scorecard perspectives (categories of performance) including Build the Community. These community-related goals/priorities include: Plan for the Future; Assure Effective, Accessible and Responsive Services; Assure a Safe and Healthy Community; and Be Good Stewards of Our Environment.

Definitions of our Strategic Priorities and the components of our Balanced Scorecard Template are included in this report. Please note:

Olmsted County Strategy Map – Page 3. Each "bubble" within the four perspectives represents a county-wide strategic priority. The Building the Community perspective is especially aligned with community goals.

Strategic Priority Definitions – Page 4.

Template of Balanced Scorecard Components and Definitions – Page 5.

Balanced Scorecard Excerpt containing our twelve State Standard Performance Measures and Results – Pages 6-13.

Definition of Terms used on the Strategy Map:

Mission = Why We Exist

Vision = A word picture of a desired future state

Values = Represent the deeply held beliefs within the organization and are demonstrated through the day-to-day behaviors of employees.

Per the Council's reporting requirements, a copy of the resolution approved by the Olmsted County Board to participate in this program will be submitted electronically to the Minnesota Office of the State Auditor, along with this report.
