Local Government Lobbying in 1999

Summary of 1999 Local Government Lobbying Expenditures

In 1999, local governments expended an estimated \$4,101,192 in direct and indirect lobbying expenditures as reported to the Office of the State Auditor (hereinafter referred to as “OSA”). This represents an increase of \$498,927 or 13.9 percent over the amount expended in 1998. Lobbying expenditures generally increase during odd-numbered years when the legislature sets the biennial budget.

Fifty-four local governments expended a total of \$2,639,335 in direct lobbying expenditures in 1999. This was \$379,283 more than in 1998. A direct lobbying expenditure is the amount paid to a local government employee or a contract lobbyist for the purpose of lobbying the legislature or state administrative agency. Direct lobbying expenditures do not include dues and membership fees paid to local government organizations.

In addition to the \$2.6 million in direct lobbying expenditures, local governments paid dues of \$6,015,709 in 1999 to associations that represented their interests before the legislature. Of the \$6.0 million in dues paid to these associations, \$1,461,857 was expended on lobbying activities.¹ These expenditures are considered indirect lobbying costs. In 1998, local governments paid association dues of \$5,488,216, of which \$1,342,213 was expended on lobbying activities.

Direct Lobbying Expenditures of Minnesota Local Governments

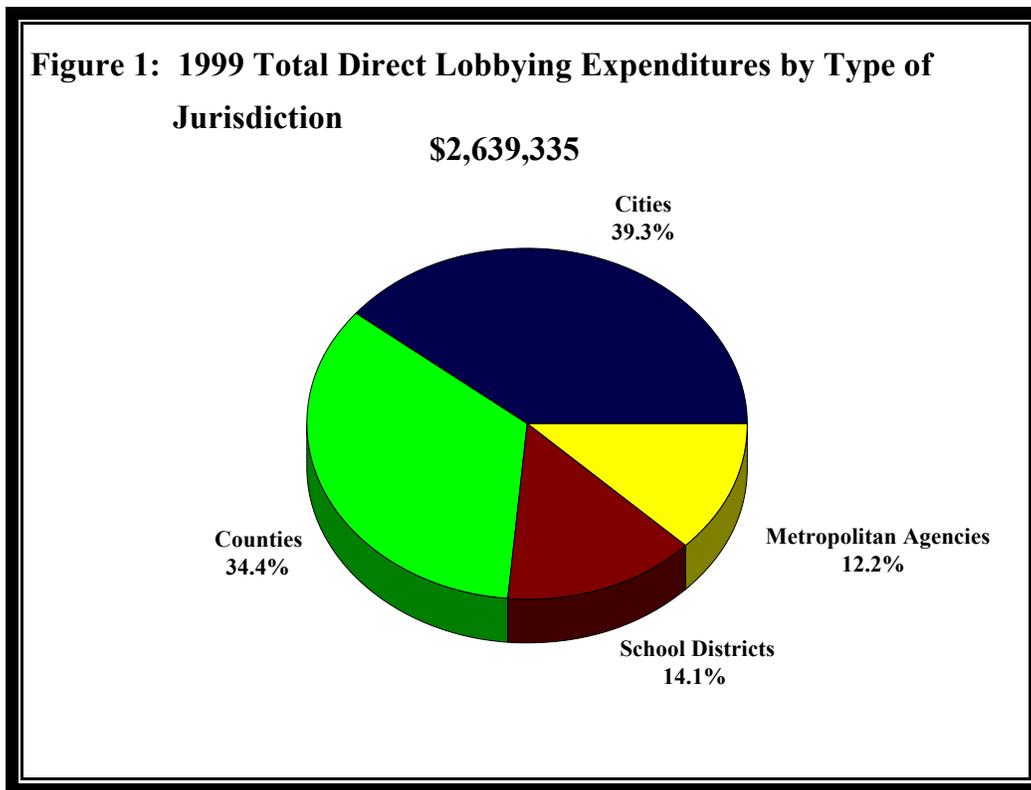

Fifty-four of Minnesota’s cities, counties, school districts, and metropolitan agencies opted to directly employ staff and/or contract with professional lobbyists to represent their interests before the legislature. Tables 1 through 3 of this report detail direct lobbying expenditures.

- ! Twenty-eight cities or city component units² reported a combined total of \$1,038,130 in direct lobbying expenditures;
- ! Twelve counties reported a combined total of \$907,960 in direct lobbying expenditures;
- ! Ten school districts reported a combined total of \$372,697 in direct lobbying expenditures; and,
- ! Four metropolitan agencies reported a combined total of \$320,548 in direct lobbying expenditures.

¹ In this portion of the analysis, the discussion centers on lobbying expenditures funded exclusively through member dues. Several associations reported that they had other sources of funding that helped support their lobbying activities.

² Component unit refers to the Minneapolis Park and Recreation Board.

Figure 1 shows 1999 total direct lobbying expenditures by type of jurisdiction.

Local Governments With the Highest Direct Lobbying Costs

Six of the 54 local governments with direct lobbying expenditures reported over \$100,000 in lobbying expenditures, for a combined total of \$1,123,573. These six local governments accounted for 42.6 percent of the total direct local government lobbying expenditures in 1999. The five local governments are:

Hennepin County	\$324,728	Metropolitan Airports Commission	\$148,573
City of Minneapolis	\$213,501	St. Louis County	\$133,152
City of Richfield	\$191,919	Ramsey County	\$111,700

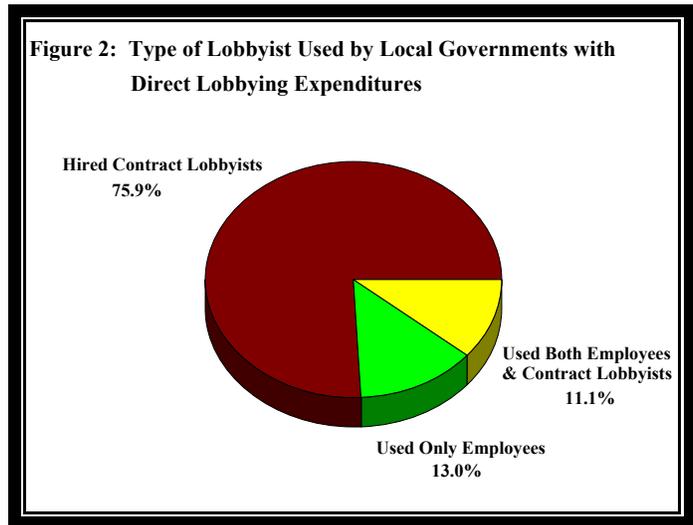

Anoka County and the City of St. Paul reported direct lobbying expenditures in excess of \$100,000 in 1998, but not in 1999. Anoka County spent \$92,824 and the City of St. Paul spent \$67,159 in 1999.

Direct lobbying expenditures by local governments included the use of hired contract lobbyists and local government employees. Approximately 60.9 percent (\$1,607,949) of the total direct lobbying expenditures were made to various contract lobbyists. The remaining 39.1 percent (\$1,031,386) of

the expenditures were made to employees of 13 local governments to represent their interests before the legislature or a state administrative agency.

During 1999:

- ! 7 local units of government relied entirely upon their employees to represent them at the legislature;
- ! 41 units of government relied entirely upon contract lobbyists to represent their interests; and,
- ! 6 local units of government hired contract lobbyists and used their own employees for lobbying the legislature.

Other Lobbying Expenditures on Behalf of Local Governments

While 54 local governments opted to hire lobbyists to lobby on their behalf, most local governments relied on various local government organizations to represent their interests at the legislature.³ These local government organizations receive the majority of their funding from membership dues, although some receive other significant sources of revenue. Most local government associations provide administrative assistance in addition to lobbying services for their members. The amount of resources spent by these organizations on lobbying varies substantially from one organization to another. Tables 4 and 5 of this report detail indirect lobbying expenditures.

The OSA survey requested that associations provide four pieces of information about their lobbying activities. The associations were asked for the total dues paid by their members, the total revenues of the association, the association's total lobbying expenditures, and the proportion (percentage) of their members' dues spent on lobbying.

Twenty-five associations representing local governments reported lobbying expenditures for 1999. The total amount expended on lobbying activities totaled \$1,879,024. Of the \$1.9 million spent on lobbying, \$1,461,857 or 77.8 percent was funded through the dues of the association members. Indirect lobbying expenditures increased \$119,644 or 8.9 percent over 1998.

³ The local government organizations identified in this report do not include various professional organizations that lobby on behalf of specific professional occupations within local governments. For example, Education Minnesota is registered with the Campaign Finance and Public Disclosure Board. However, because the organization does not directly represent school districts or school district management personnel, its lobbying expenditures are not included in this report.

Association lobbying expenditures increased for a number of reasons. One reason was the addition of five more local government associations in the 1999 report (Association of Metropolitan Soil and Water Conservation Districts, Highway 14 Partnership, Minnesota Rural Education Association, Minnesota Environmental Science and Economic Review Board, and the North Metro I35W Corridor Coalition.) Another reason is the historical trend of lobbying expenditures increasing during the first year of the state’s biennial budget.

The associations reporting lobbying expenditures included:

- ! Eleven organizations that represented the interests of cities;
- ! Five organizations that represented the interests of counties;
- ! Four organizations that represented the interests of school districts;
- ! Three organizations that represented other local government interests; and
- ! Two organizations that represented more than one type of local government.

Local Government Organizations With the Highest Lobbying Expenditures

Among the 25 local government organizations that lobbied the legislature on behalf of their local government members, seven organizations reported lobbying expenditures in excess of \$100,000.⁴ In the previous reporting period, five organizations reported lobbying expenditures over \$100,000.

The organizations that reported lobbying expenditures exceeding \$100,000 in 1999 were:

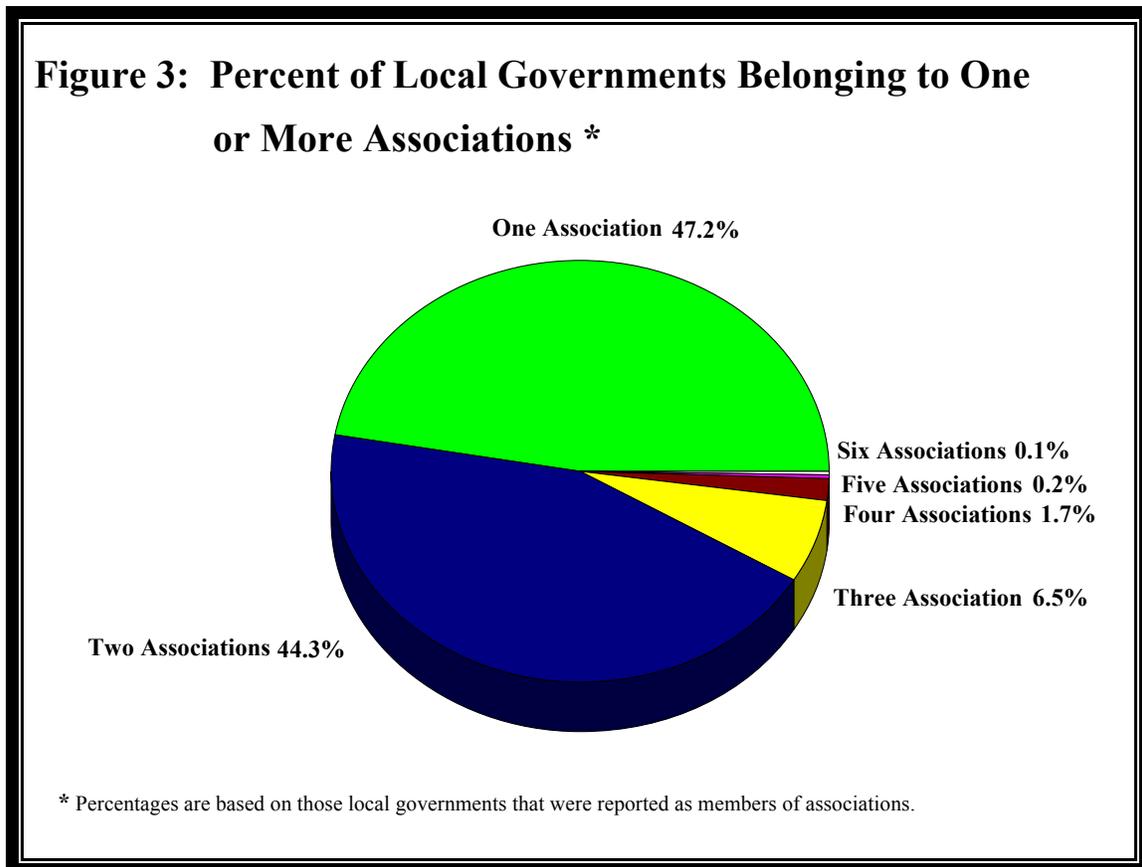

League of Minnesota Cities	\$216,599	Schools for Equity in Education	\$124,821
Metropolitan Inter-County Association	\$160,482	Association of Minnesota Counties	\$123,689
Minnesota School Boards Association	\$145,247	Association of Metropolitan Municipalities	\$123,497
Coalition of Greater Minnesota Cities	\$127,812		

⁴ The amounts presented here reflect those expenditures that were exclusively funded through dues.

Many Local Governments Belong to Multiple Associations

The majority of reporting local governments (91.6%) belonged to two associations or less. The remaining 8.4 percent were members of between three and five associations. While there are no restrictions regarding the number of associations to which a local government may belong, local governments may want to evaluate whether they are receiving overlapping services.

Figure 3 details the distribution of local government memberships to associations.

Scope and Methodology of Report

This report on the lobbying expenditures of Minnesota counties, cities, school districts and metropolitan agencies is prepared in accordance with Minnesota Statutes §6.76 (1999). The statute requires that:

"(a) On or before January 31 of each year, all counties, cities, school districts, metropolitan agencies, regional railroad authorities, and the metropolitan council shall report to the state auditor, on forms prescribed by the auditor, their estimated expenditures paid for the previous calendar year to a lobbyist as defined in section 10A.01, subdivision 11, except payments to associations of local governments that are reported under paragraph (b), and to any staff person not registered as a lobbyist, over 25 percent of whose time is spent during the legislative session on legislative matters.

(b) Associations of local governments subject to this section shall report annually, on or before January 31, to the state auditor and the association's members the proportionate amount of each member's dues spent for lobbying purposes."

Many state policies, appropriation and tax laws established by the Minnesota Legislature and state administrative agencies have a direct impact on Minnesota's local governments. Therefore, it is appropriate that local governments work with the legislature and administrative agencies in the development of these laws and administrative processes. *This report is not intended to question the appropriate role of local governments in the state's legislative and administrative processes. Instead, it is intended to inform Minnesota citizens and policy makers of the amount spent by their local governments to lobby the legislature.*

The Office of the State Auditor has collected and published this data for lobbying expenditures made by local governments since 1989. This is the third year that associations whose membership includes local governments were required to report their lobbying expenditures to the OSA. Because of the inclusion of local government associations, the data presented in this report are not comparable with reports prior to the 1997 report. This report summarizes local government lobbying expenditures during calendar year 1999.

In January of 2000, a lobbying reporting form was mailed to all local governments required to report information on their lobbying activities in accordance with Minnesota Statutes §6.76. The OSA also mailed a separate reporting form to local government associations. The list of local government associations was developed by reviewing a list of all associations that were registered with the Campaign Finance and Public Disclosure Board (formerly known as the Ethical Practices Board). The lobbying expenditures are the amounts reported by local governments and local government associations. The Office of the State Auditor did not attempt to verify the accuracy of those amounts.
