

CTAS Minimum Computer Requirements

***** Microsoft ended support for Windows 10 on October 14, 2025.*****

*****Future releases of CTAS will require a 64-bit Operating System. Entities currently running a 32-bit operating system will need to update their operating system after October 14, 2025. If your entity is purchasing a new computer verify the operating system is 64-bit.*****

Operating System	Processor	Memory	Hard Disk	Graphics Card	Display Resolution
Minimum:					
Windows 11	64-bit: 1 gigahertz (GHz) with two or more cores	4 gigabyte (GB)	1 GB	DirectX 12 or later with WDDM 2.0 driver	800x600 100% DPI Scaling
Recommended:					
Operating System	Processor	Memory	Hard Disk	Graphics Card	Display Resolution
Windows 11	64-bit: More than 1.4 gigahertz (GHz)	At least 4 gigabyte (GB)	at least 1 GB of available storage	DirectX 12 graphics device or later with WDDM 2.0 driver	1024x768 100% DPI Scaling

^[1] Includes estimated hard disk space to install CTAS, SQL Server LocalDB, and Crystal Reports.

^[2] Additional available disk space may be needed during installation.

Any computer that meets the minimum requirements to run Microsoft Windows 11 should fulfill the minimum requirements to run CTAS. Other programs running on your computer should also be taken into consideration when looking at these requirements.

The following links are to the system requirements for Microsoft operating systems and will take you to the Microsoft website.
