Recommendation:

To approve a resolution adopting the City of New Brighton’s Submittal to the Minnesota State Auditor and the Council of Local Results and Innovation Standard Measures Program Results.

Legislative History:

In 2010, the Minnesota State Legislature created the Council on Local Results and Innovation. In February 2011, the Council released a standard set of ten performance measures for counties and ten performance measures for cities that will aid residents, taxpayers, and state and local elected officials in determining the efficacy of counties and cities in providing services and measure residents' opinions of those services. In February of 2012, the Council created a comprehensive performance measurement system for cities and counties to implement. In 2013, the Council revised the performance measures and clarified the system requirements to increase participation in the program.

Financial Impact:

A county or city that elects to participate in the standard measures program is eligible for a reimbursement of \$0.14 per capita in local government aid (Per Minnesota Statutes 6.91-Local Performance Measurement and Reporting), not to exceed \$25,000. The City of New Brighton would be eligible to receive (21,496 population x \$.14) approximately \$3,009 in reimbursement dollars from the State of Minnesota.

Explanation:

Participation in the standard measures program by a city or a county is voluntary. Counties and cities that choose to participate in the standard measures program must officially adopt and implement (at a minimum) ten performance measures that are approved by the Council. The city or county can select performance measures from applicable service categories (General, Police Services, Fire and EMS Services, Streets, Water, and Sanitary Sewer) that are developed by the Council on Local Results and Innovation. For City Council review, City staff has attached a list of performance measures that are being recommended for submittal to the Council on Local Results and Innovation. With the completion of the City’s recent citizen survey and internal departmental information, City staff was able to address all twenty-nine questions that were identified as standard measures for cities by the Minnesota State Auditor. This is the third year that the City of New Brighton has participated in this program.

If the selected performance measures are approved by the City Council, City staff will report the results of the measures to the Minnesota State Auditor. The deadline for submitting the reporting requirements to the Minnesota State Auditor is July 1, 2015. A final report of the performance measures must be accessible to New Brighton residents before the end of the calendar year. City staff will post the performance measurement results on the City's website for public viewing and comments.
