Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 100 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice – conducts financial and legal compliance audits of local governments;

Government Information – collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations – provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension – monitors investment, financial, and actuarial reporting for Minnesota's local public pension funds; and

Tax Increment Financing – promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

**INDEPENDENT AUDITOR'S REPORT**

Board of County Commissioners
Faribault County
Blue Earth, Minnesota

Report on the Audit of the Financial Statements***Opinions***

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Faribault County, Minnesota, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Faribault County, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Faribault County Housing and Redevelopment Authority (HRA), which is a discretely presented component unit and represents 0.8 percent, 0.7 percent, and 98.5 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units as of December 31, 2021, and the respective changes in financial position thereof for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Faribault County HRA component unit, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; Budgetary Comparison Schedules for the General Fund, Public Works Special Revenue Fund, Human Services Special Revenue Fund, and Ditch Special Revenue Fund; Schedule of Changes in Total OPEB Liability and Related Ratios – Other Postemployment Benefits; PERA retirement plan schedules; and Notes to the Required Supplementary Information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Faribault County's basic financial statements. The Budgetary Comparison Schedule for the Debt Service Fund, combining fiduciary funds financial statements, Faribault County Economic Development Authority (EDA) component unit financial statements, Schedule of Intergovernmental Revenue, and Schedule of Expenditures of Federal Awards and related notes, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information as identified above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our reports dated September 15, 2022 on our consideration of Faribault County's and the Faribault County EDA component unit's internal control over financial reporting and on our tests of their compliance with

certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of these reports is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Faribault County's and the Faribault County EDA component unit's internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Faribault County's and the Faribault County EDA component unit's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2021
(Unaudited)**

Faribault County's Management's Discussion and Analysis (MD&A) provides an overview of the County's financial activities for the fiscal year ended December 31, 2021. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the County's financial statements.

FINANCIAL HIGHLIGHTS

- Governmental activities' total net position is \$75,711,706, of which \$63,824,432 is the net investment in capital assets, and \$18,725,567 is restricted to specific purposes.
- Business-type activities' total net position is \$616,420, of which \$540,469 is the net investment in capital assets.
- Faribault County's governmental activities' net position increased by \$4,006,590 for the year ended December 31, 2021. The net position of the County's business-type activities decreased by \$47,951.
- The net cost of governmental activities was \$9,843,692 for the current fiscal year. The net cost was funded by general revenues and other items totaling \$13,850,282. The net cost of business-type activities was \$47,951.
- Governmental funds' fund balances increased by \$5,170,408.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A is intended to serve as an introduction to the basic financial statements. Faribault County's basic financial statements consist of three parts: government-wide financial statements, fund financial statements, and notes to the financial statements. The MD&A (this section) and other information are required to accompany the basic financial statements and, therefore, are included as required supplementary information.

There are two government-wide financial statements. The Statement of Net Position and the Statement of Activities (Exhibits 1 and 2) provide information about the activities of the County as a whole and present a longer-term view of the County's finances. Fund financial statements start on Exhibit 3. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the County's operations in more detail than the government-wide statements by providing information about the County's most significant funds. The remaining statements provide financial information about activities for which the County acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements—The Statement of Net Position and the Statement of Activities

Our analysis of the County as a whole begins on Exhibit 1. The Statement of Net Position and the Statement of Activities report information about the County as a whole and about its activities in a way that helps the reader determine whether the County's financial condition has improved or declined as a result of the year's activities. These statements include all assets, deferred outflows/inflows of resources, and liabilities using the full accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the County's net position and changes in it. You can think of the County's net position—the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources—as one way to measure the County's financial health or financial position. Over time, increases or decreases in the County's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the County's property tax base and the condition of County roads, to assess the overall health of the County.

In the Statement of Net Position and the Statement of Activities, we divide the County into three kinds of activities:

- Governmental activities—Most of the County's basic services are reported here, including general government, public safety, highways and streets, sanitation, human services, culture and recreation, conservation of natural resources, and economic development. Property taxes and state and federal grants finance most of these activities.
- Business-type activities—The County charges a fee to customers to help it cover all or most of the cost of the services it provides. The Huntley Sewer District activities are reported here.
- Component units—The County includes two separate legal entities in its report. The Faribault County Housing and Redevelopment Authority and the Faribault County Economic Development Authority are presented in separate columns. Although legally separate, these “component units” are important because the County is financially accountable for them.

Fund Financial Statements

Our analysis of the County's major funds begins on Exhibit 3 and provides detailed information about the significant funds—not the County as a whole. Some funds are required to be established by state law and by bond covenants. However, the County Board establishes some funds to help it control and manage money for a particular purpose or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The County's two kinds of funds—governmental and proprietary—use different accounting methods.

- **Governmental funds**—Most of the County's basic services are reported in governmental funds, which focus on how money flows in and out of those funds and the balances left at year-end available for spending. These funds are reported using an accounting method called modified accrual accounting. This method measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation following each governmental fund financial statement.
- **Proprietary funds**—When the County charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the County's enterprise fund presents the same information as the business-type activities in the government-wide statements but provides more detail and additional information, such as cash flows.

Reporting the County's Fiduciary Responsibilities

The County is the trustee, or fiduciary, over assets that can be used only for the trust beneficiaries based on the trust arrangement. All of the County's fiduciary activities are reported in separate statements. We exclude these activities from the County's other financial statements because the County cannot use these assets to finance its operations. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE COUNTY AS A WHOLE

The County's combined net position increased from \$72,369,487 to \$76,328,126. Our analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the County's governmental activities and business-type activities.

Total County Revenues - Percent of Total

Governmental Activities

Revenues for the County's governmental activities were \$29,155,783, while total expenses were \$25,149,193. However, as shown in the Statement of Activities (Exhibit 2), the amount that taxpayers ultimately financed for these activities through County taxes and other general revenues was \$13,850,282, because some of the cost was paid by those who directly benefited from the programs (\$4,446,823) or by other governments and organizations that subsidized certain programs with grants and contributions (\$10,858,678). Overall, the County's governmental program revenues, including intergovernmental aid and fees for services, totaled \$15,305,501. The County paid for the remaining "public benefit" portion of governmental activities with \$13,850,282 in general revenues, which consisted primarily of taxes (some of which could be used only for certain programs) and other revenues, such as interest and general entitlements.

Table 3 presents the cost of each of the County's five largest program functions, as well as each function's net cost (total cost, less revenues generated by the activities). The net cost shows the financial burden that was placed on the County's taxpayers by each of these functions.

THE COUNTY'S FUNDS

As the County completed the year, its governmental funds (as presented in the Balance Sheet on Exhibit 3) reported a combined fund balance of \$26,725,886, which is above last year's total of \$21,555,478.

The General Fund showed an increase of \$5,259,086. The increase was due to selling debt to be used for courthouse renovations, positive variances in intergovernmental revenues, charges for services, fines and forfeits, gifts and contributions, investment earnings, and licenses and permits revenue compared to budgeted amounts. General government also saw significantly fewer expenditures than budgeted.

The Public Works Special Revenue Fund showed an increase of \$4,444,954 mostly due to selling debt for highway repairs and maintenance projects.

The Human Services Special Revenue Fund increased by \$631,598 caused by less than anticipated payments to the Faribault – Martin County Human Services Board.

The Ditch Special Revenue Fund showed a decrease of \$2,032,379. The decrease is due to there being expenditures for several major projects in the current year while the related assessments will be levied in future years.

The Debt Service Fund decreased by \$3,132,851. The decrease is mostly due to receiving refunding bond proceeds prior to the end of the previous reporting period and being allocated during this reporting period.

The General Fund's fund balance is 68.6 percent of the total governmental funds, compared to 60.7 percent at the end of 2020.

General Fund Budgetary Highlights

At year-end 2021, revenues exceeded budgeted amounts by \$576,200. The majority of the positive variance in revenues is the \$378,211 positive variance in intergovernmental revenue. General government expenditures were \$243,592 below budget, primarily due to less than anticipated building and plant and payroll-related expenditures. Positive variances were also seen in public safety in the amount of \$239,174, transit in the amount of \$20,824, sanitation in the amount of \$197,219, culture and recreation in the amount of \$4,304, conservation of natural resources in the amount of \$105,172, and economic development in the amount of \$2,654.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2021, the County had \$70,535,309 invested in a broad range of capital assets, including land, buildings, highways and streets, and equipment. (See Table 4.) This amount represents a net increase (including additions and deductions) of \$2,885,341, or 4.3 percent, from last year.

There is more detailed information on capital assets in the notes to the financial statements.

Debt

At year-end, the County had \$20,070,000 in governmental activities bonds outstanding, versus \$16,065,000 for last year. Table 5 shows the outstanding debt.

The County's general obligation bond rating was set at an Aa3 rating by Moody's Investors Service as rated in 2021. The state limits the amount of net debt that the County can issue to three percent of the market value of all taxable property in the County. The County's outstanding net debt is significantly below this state-imposed limit. More detailed information about the County's long-term liabilities is presented in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The County's elected and appointed officials considered many factors when setting the fiscal year 2022 budget, tax rates, and fees that will be charged.

- The County's General Fund expenditures for 2022 are budgeted to increase 4.79 percent from 2021. Most of this increase is for the addition of a part-time employee along with personnel cost of living and benefit increases and an increase in debt service expenditures for a recent bond issuance.
- Agricultural land prices have begun to increase after several years of significant increases followed by a short period of stabilization. County assessment values were projected to be steady for 2022 payable taxes but will increase for taxes payable in 2023. Agricultural land prices are a significant part of the County's tax base and are a reliable source of property tax revenue.
- Property tax levies have increased 2.9 percent for 2022. Significant decreases in the Human Services levy and in the debt levy for a recently refunded bond allowed for that relatively modest increase even though there were significant increases in budgeted expenditures.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. **RECONCILIATION OF THE CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES—GOVERNMENTAL ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2021**

Net change in fund balance – total governmental funds (Exhibit 5) \$ 4,912,501

Amounts reported for governmental activities in the statement of activities are different because:

In the funds, under the modified accrual basis, receivables not available for expenditure are deferred. In the statement of activities, those revenues are recognized when earned. The adjustment to revenue between the fund statements and the statement of activities is the increase or decrease in revenue deferred as unavailable.

| | | |
|-----------------------------------|---------------------|----------|
| Unavailable revenue – December 31 | \$ 11,553,121 | |
| Unavailable revenue – January 1 | <u>(11,639,245)</u> | (86,124) |

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Also, in the statement of activities, only the gain or loss on the disposal of assets is reported; whereas, in the governmental funds, the proceeds from sales increase financial resources. Therefore, the change in net position differs from the change in fund balance by the net book value of the assets disposed.

| | | |
|--|--------------------|-----------|
| Expenditures for general capital assets and infrastructure | \$ 6,875,171 | |
| Current year depreciation | <u>(3,933,716)</u> | 2,941,455 |

Issuing long-term debt provides current financial resources to governmental funds, while the repayment of debt consumes current financial resources. Neither transaction, however, has any effect on net position. Also, governmental funds report the net effect of premiums, discounts, and similar items when debt is first issued; whereas, those amounts are deferred and amortized over the life of the debt in the statement of activities.

| | | |
|----------------------------------|------------------|-------------|
| Proceeds of new debt | | |

**NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2021**

1. Summary of Significant Accounting Policies

The County's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as of and for the year ended December 31, 2021. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Financial Reporting Entity

Faribault County was established February 20, 1855, and is an organized county having the powers, duties, and privileges granted counties by Minn. Stat. ch. 373. As required by accounting principles generally accepted in the United States of America, these financial statements present Faribault County (primary government) and its component units for which the County is financially accountable. The County is governed by a five-member Board of Commissioners elected from districts within the County. The Board is organized with a chair and vice chair elected at the annual meeting in January of each year.

Discretely Presented Component Units

While part of the reporting entity, discretely presented component units are presented in separate columns in the government-wide financial statements to emphasize that they are legally separate from the County. The following component units of Faribault County are discretely presented:

| <u>Component Unit</u> | <u>Included in Reporting Entity Because</u> | <u>Separate Financial Statements</u> |
|--|---|--|
| Faribault County Economic Development Authority (EDA) provides services pursuant to Minn. Stat. §§ 469.090-469.1081. | County appoints all members, and there is a financial benefit or burden relationship with the County. | Separate financial statements are not prepared. |
| Faribault County Housing and Redevelopment Authority (HRA) provides services pursuant to Minn. Stat. §§ 469.001-469.047. | County appoints the Board members, must approve debt, and can impose its will. | Faribault County HRA Minnesota Valley Action Council 706 North Victory Drive Mankato, Minnesota 56001 |

1. Summary of Significant Accounting Policies

A. Financial Reporting Entity (Continued)

Joint Ventures and Jointly-Governed Organizations

The County participates in joint ventures described in Note 5.B. The County also participates in several jointly-governed organizations described in Note 5.C.

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (the statement of net position and the statement of activities) display information about the primary government and its component units. These statements include the financial activities of the overall County government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external parties for support.

In the government-wide statement of net position, both the governmental and business-type activities columns: (a) are presented on a consolidated basis by column; and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts: (1) net investment in capital assets, (2) restricted, and (3) unrestricted. The County first utilizes restricted resources to finance qualifying activities.

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities and the business-type activities are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function or activity. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and enterprise funds, with each displayed as separate columns in the fund financial statements.

The proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the enterprise fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County reports the following major governmental funds:

- The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.
- The Public Works Special Revenue Fund is used to account for restricted revenues from the federal and state government, as well as assigned property tax revenues used for the establishment, location, vacation, construction, reconstruction, improvement, and maintenance of roads, bridges, and other projects affecting County roadways and parks.
- The Human Services Special Revenue Fund is used to account for committed property tax revenues and the transfer of Faribault County's share of the Faribault-Martin County Human Services Board.

2. Fund Financial Statements (Continued)

- The Ditch Special Revenue Fund is used to account for the cost of constructing and maintaining an agricultural drainage ditch system. Financing is provided by special assessments levied against benefited property.
- The Debt Service Fund is used to account for restricted property tax revenues for the payment of principal, interest, and related costs of County debt.

The County considers all governmental funds to be major.

The County reports the following major enterprise fund:

- The Huntley Sewer District Fund is used to account for the operation, maintenance, and development of the Huntley Sewer District. The County established the service district in 2006 to account for the activity of the sewer system built for the unincorporated area in Verona Township known as Huntley.

Additionally, the County reports the following fund type:

- Custodial funds are safekeeping in nature. These funds account for monies the County holds for others in a fiduciary capacity.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Faribault County considers all revenues as available if collected within 60 days after the end of the current period. Property taxes are recognized as revenues in the year for which they are levied.

C. Measurement Focus and Basis of Accounting (Continued)

Shared revenues are generally recognized in the period the appropriation goes into effect. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property and other taxes, shared revenues, licenses, and interest are all considered susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted resources as needed.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

1. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the County Auditor/Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2021, based on market prices. A market approach is used to value all investments other than external investment pools, which are measured at the net asset value (NAV) or fair value per share. Pursuant to Minn. Stat. § 385.07, investment earnings on cash and pooled investments are credited to the General Fund.

Faribault County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to Minn. Stat. § 471.59. The investment in the pool is measured at the NAV per share provided by the pool.

Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings in the General Fund for 2021 were \$96,955.

(Continued)

2. Cash and Cash Equivalents

Each fund's equity in the County's investment pool is treated as a cash equivalent because the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

3. Receivables and Payables

Activities between funds representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (the current portion of interfund loans) or "advances to/from other funds" (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balance outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in the General Fund to indicate that they are not available for appropriation and are not expendable available financial resources.

No allowance for accounts receivable and uncollectible taxes/special assessments has been provided because such amounts are not expected to be material.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due May 15 and the second half payment due October 15. Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable.

Special assessments receivable consist of delinquent special assessments payable in the years 2016 through 2021 and noncurrent special assessments payable in 2022 and after. Unpaid special assessments at December 31 are classified in the financial statements as delinquent special assessments receivable.

4. Inventories and Prepaid Items

All inventories are valued at cost using the weighted average method. Inventories in governmental funds are recorded as expenditures when purchased. Inventories at the government-wide level are reported as expenses when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (for example, roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements and the proprietary fund financial statements. Capital assets have initial useful lives extending beyond two years and a dollar amount for capitalization per asset category as follows: all land and construction in progress are capitalized regardless of cost; machinery and equipment when the cost of individual items exceeds \$5,000; other improvements and buildings and improvements when the cost exceeds \$25,000; and infrastructure when the cost of projects exceeds \$50,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the County are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|----------------------------|--------------|
| Buildings and improvements | 7 - 40 |
| Other improvements | 15 - 25 |
| Machinery and equipment | 3 - 20 |
| Infrastructure | 25 - 30 |

6. Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid, accumulated annual leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. Compensated absences are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The current portion is calculated as 1.3 percent of the total liability. The compensated absences liability is liquidated by the General Fund and the Public Works Special Revenue Fund.

7. Long-Term Obligations

In the government-wide financial statements and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

7. Long-Term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expenditure/expense) until then. The County reports deferred outflows of resources only under the full accrual basis of accounting associated with pension plans and other postemployment benefits (OPEB) and, accordingly, they are reported only in the statement of net position.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The County has four types of deferred inflows. The County reports advanced allotments for state aid received by the County not yet appropriated by the State of Minnesota. These amounts arise under both the modified accrual and the full accrual basis of accounting and are reported in both the governmental funds balance sheet and the statement of net position. The governmental funds report unavailable revenue from delinquent taxes and special assessments receivable, grant receivables, and other long-term receivables. Unavailable revenue arises only under the modified accrual basis of accounting and, accordingly, is reported only in the

governmental funds balance sheet. The unavailable revenue amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The County also reports deferred inflows of resources associated with pension plans and OPEB. These inflows arise only under the full accrual basis of accounting and, accordingly, are reported only in the statement of net position.

9. Pension Plan

For purposes of measuring the net pension asset, net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association of Minnesota (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, except that PERA's fiscal year-end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Plan investments are reported at fair value. The net pension liability is liquidated through the General Fund and the Public Works Special Revenue Fund.

10. Unearned Revenue

Governmental funds and government-wide financial statements report unearned revenue in connection with resources that have been received, but not yet earned.

11. Classification of Net Position

Net position in the government-wide and proprietary fund financial statements is classified in the following categories:

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

11. Classification of Net Position (Continued)

- Net investment in capital assets – the amount of net position representing capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets.
- Restricted – the amount of net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted – the amount of net position that does not meet the definition of restricted or net investment in capital assets.

12. Classification of Fund Balances

The County's fund balance policy established a minimum unassigned fund balance equal to 35 to 50 percent of total General Fund operating expenditures. Should the actual amount of fund balance fall below the desired range, the Board shall create a plan to restore the appropriate levels.

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

- Nonspendable – amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.
- Restricted – amounts for which constraints have been placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

12. Classification of Fund Balances (Continued)

- Committed – amounts that can be used only for the specific purposes imposed by formal action (resolution) of the County Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit these amounts.
- Assigned – amounts the County intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the County Board or the County Auditor/Treasurer who has been delegated that authority by Board resolution.
- Unassigned – the residual classification for the General Fund; it includes all spendable amounts not contained in the other fund balance classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted or committed.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

13. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources; and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

1. Deposits and Investments (Continued)

a. Deposits

The County is authorized by Minn. Stat. § 118A.02 to designate a depository for public funds. The County is required by Minn. Stat. § 118A.03 to protect deposits with insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better and revenue obligations rated "AA" or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. As of December 31, 2021, the County's deposits were not exposed to custodial credit risk.

b. Investments

The County may invest in the following types of investments as authorized by Minn. Stat. §§ 118A.04 and 118A.05:

- (1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. § 118A.04, subd. 6;

- (2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) time deposits fully insured by the Federal Deposit Insurance Corporation or bankers' acceptances of United States banks;
- (5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The County minimizes its exposure to interest rate risk by limiting long-term investments. County policy states that approximately 30 percent of the County's total portfolio balance as of May 31 of the year reporting may be invested in items that mature in more than one year.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the County's policy to invest only in securities that meet the ratings requirements set by state statute.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities in the possession of an outside party. The County's investment policy is to minimize investment custodial credit risk by permitting brokers that obtained investments for the County to hold them only to the extent there is Securities Investor Protection Corporation (SIPC) coverage and excess SIPC coverage available. Securities purchased that exceed available SIPC coverage shall be transferred to the County's custodian. As of December 31, 2021, the County's investments were not subject to custodial credit risk.

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. The County's policy is to minimize concentration of credit risk by diversifying the investment so that the impact of potential losses from any one type of security will be minimized.

Investments in any one issuer that represent five percent or more of the County's investments are as follows:

Fair Value Measurements

The County measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1*: Quoted prices for identical investments in active markets;
- *Level 2*: Observable inputs other than quoted market prices; and
- *Level 3*: Unobservable inputs.

At December 31, 2021, the County had the following recurring fair value measurements:

Debt securities classified in Level 2 are valued using the following approach:

- Negotiable certificates of deposit: matrix pricing based on the securities' relationship to benchmark quoted prices.

MAGIC is a local government investment pool which is quoted at the NAV. The County invests in this pool for the purpose of the joint investment of the County's money with those of other counties to enhance the investment earnings accruing to each member.

MAGIC Portfolio is valued using amortized cost. Shares of the MAGIC Portfolio are available to be redeemed upon proper notice without restrictions under normal operating conditions. There are no limits to the number of redemptions that can be made as long as the County has a sufficient number of shares to meet their redemption request. The MAGIC Fund's Board of Trustees can suspend the right of withdrawal or postpone the date of payment if the Trustees determine that there is an emergency that makes the sale of a Portfolio's securities or determination of its NAV not reasonably practical.

General Obligation Bonds

In 2021, Faribault County issued Capital Improvement Plan Bonds, Series 2021A, for \$4,000,000 to finance repairs to the Courthouse; and State Aid Highway Bonds, Series 2021B, for \$5,355,000 to finance road improvements in the County. Principal payments on the Series 2021A and 2021B bonds are scheduled to begin in 2023.

Debt Refunding

On November 12, 2020, the County issued \$4,200,000 General Obligation Jail Refunding Bonds, Series 2020B (Current Refunding). Proceeds from the sale of the bonds were used to refund \$4,390,000 of the \$7,480,000 General Obligation Jail Refunding Bonds, Series 2014A. Maturities 2022 through 2028, inclusive, were called for redemption on February 1, 2021, at a price of par. The County refunded the Series 2014A bonds to obtain a savings of \$308,297 and an economic gain (difference between the present value of debt service payments on the old and new debt) of \$301,034.

3. Detailed Notes on All Funds

E. Other Postemployment Benefits (OPEB)

1. Plan Description and Funding Policy (Continued)

Under this plan, for employees and officers employed before January 1, 2002, the County pays up to 100 percent of the single or family health insurance premiums for life. The County's specific contributions depend on a variety of factors including which bargaining unit the employee was a member of, the plan chosen at retirement, and Medicare eligibility. The County finances these benefits on a pay-as-you-go basis. During 2021, the County expended \$281,162 for these benefits.

The County also provides health insurance benefits for certain retired employees as required by Minn. Stat. § 471.61, subd. 2b. Active employees, who retire from the County when eligible to receive a retirement benefit from PERA (or a similar plan) and do not participate in any other health benefits program providing coverage similar to that herein described, are eligible to continue coverage with respect to both themselves and their eligible dependent(s) under the County's health benefits program. Retirees are required to pay 100 percent of the total group rate. Since the premium is a blended rate determined on the entire active and retiree population, the retirees, whose costs are statistically higher than the group average, are receiving an implicit rate "subsidy." For 2021, the implicit rate subsidy amount was determined by an actuarial study to be \$119,408.

No assets have been accumulated in a trust that meets the criteria in paragraph four of GASB 75. The OPEB plan does not issue a stand-alone financial report.

As of the December 31, 2020, actuarial valuation, the following employees were covered by the benefit terms:

| | |

2. Total OPEB Liability

The County's total OPEB liability of \$8,336,561 was determined by an actuarial valuation as of December 31, 2020, with a measurement date of December 31, 2020. The OPEB liability is liquidated through the General Fund and the Public Works Special Revenue Fund.

The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | |
|------------------------|--|
| Actuarial cost method | Entry Age Normal, level percent of pay |
| Inflation | 2.25 percent |
| Salary increases | Based on most recently disclosed assumption for the pension plan in which the employee participates. |
| Health care cost trend | 6.30 percent, gradually decreasing over several decades to an ultimate rate of 3.80 percent in fiscal year 2075 and later years. |

The current year discount rate is 2.00 percent. The discount rate is equal to the 20-year municipal bond yield using the Fidelity 20-Year Municipal GO AA Index.

PERA General Employees Plan mortality rates are based on the Pub-2010 General mortality tables with projected mortality improvements based on Scale MP-2019 and other adjustments. PERA Police and Fire Plan and PERA Correctional Plan mortality rates were based on the RP-2014 mortality tables with projected mortality improvements based on Scale MP-2019 and other adjustments.

The actuarial assumptions are currently based on a combination of historical information and the actuarial valuation for PERA as of July 1, 2020.

6. Changes in Actuarial Methods and Assumptions

The following changes in actuarial methods and assumptions occurred in 2021:

- The discount rate used changed from 2.75 percent to 2.00 percent based on updated 20-year municipal bond rates.
- Healthcare trend rates were reset to reflect updated cost increase expectations.
- Medical per capital claims costs were updated to reflect recent experience and new plan offerings, including an adjustment to reflect age/gender based risk scores published by the Society of Actuaries.
- Withdrawal, retirement, mortality, and salary increase rates were updated from the rates used in the July 1, 2018, PERA General Employees Plan; July 1, 2018, Police and Fire Plan; and July 1, 2018, PERA Correctional Plan valuations to the rates used in the January 1, 2020, valuations.

- The inflation assumption was changed from 2.50 percent to 2.25 percent based on an updated historical analysis of inflation rates and forward-looking market expectations.

F. Pension Plans

1. Defined Benefit Pension Plans

a. Plan Description

All full-time and certain part-time employees of Faribault County are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Plan (the General Employees Plan), the Public Employees Police and Fire Plan (the Police and Fire Plan), and the Public Employees Local Government Correctional Service Retirement Plan (the Correctional Plan), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minn. Stat. chs. 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

F. Pension Plans

1. Defined Benefit Pension Plans

a. Plan Description (Continued)

The General Employees Plan (accounted for in the General Employees Fund) has multiple benefit structures with members belonging to the Coordinated Plan, the Basic Plan, or the Minneapolis Employees Retirement Fund. Coordinated Plan members are covered by Social Security, and the Basic Plan and Minneapolis Employees Retirement Fund members are not. The Basic Plan was closed to new members in 1967. The Minneapolis Employees Retirement Fund was closed to new members during 1978 and merged into the General Employees Plan in 2015. All new members must participate in the Coordinated Plan, for which benefits vest after five years of credited service. No Faribault County employees belong to either the Basic Plan or the Minneapolis Employees Retirement Fund.

Police officers, firefighters, and peace officers who qualify for membership by statute are covered by the Police and Fire Plan (accounted for in the Police and Fire Fund). For members first hired after June 30, 2010, but before July 1, 2014, benefits vest on a prorated basis starting with 50 percent after five years and increasing ten percent for each year of service until fully vested after ten years. Benefits for members first hired after June 30, 2014, vest on a prorated basis from 50 percent after ten years and increasing five percent for each year of service until fully vested after 20 years.

Local government employees of a county-administered facility who are responsible for the direct security, custody, and control of the county correctional facility and its inmates are covered by the Correctional Plan (accounted for in the Correctional Fund). For members hired after June 30, 2010, benefits vest on a prorated basis starting with 50 percent after five years and increasing ten percent for each year of service until fully vested after ten years.

b. Benefits Provided

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefit provisions are established by state statute and can be modified only by the state legislature. Benefit increases are provided to benefit recipients each January.

General Employees Plan benefit recipients will receive a post-retirement increase equal to 50 percent of the cost of living adjustment announced by the Social Security Administration, with a minimum increase of at least 1.00 percent and maximum of 1.50 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under the Rule of 90 are exempt from the delay to normal retirement.

Police and Fire Plan benefit recipients will receive a 1.00 percent post-retirement increase. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

Correctional Plan benefit recipients will receive a post-retirement increase equal to 100 percent of the cost of living adjustment announced by the Social Security Administration, with a minimum increase of at least 1.00 percent and maximum of 2.50 percent. If the Correctional Plan's funding status declines to 85 percent or below for two consecutive years, or 80 percent for one year, the maximum will be lowered from 2.50 percent to 1.50 percent. June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

The benefit provisions stated in the following paragraph of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not yet receiving them, are bound by the provisions in effect at the time they last terminated their public service.

Benefits are based on a member's highest average salary for any 60 consecutive months of allowable service, age, and years of credit at termination of service. In the General Employees Plan, two methods are used to compute benefits for Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Coordinated Plan member is 1.20 percent of average salary for each of the first ten years of service and 1.70 percent of average salary for each remaining year. Under Method 2, the annuity accrual rate is 1.70 percent for Coordinated Plan members for each year of service. Only Method 2 is used for members hired after June 30, 1989. For Police and Fire Plan members, the annuity accrual rate is 3.00 percent of average salary for each year of service. For Correctional Plan members, the annuity accrual rate is 1.90 percent of average salary for each year of service.

For General Employees Plan members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. For Police and Fire Plan and Correctional Plan members, normal retirement age is 55, and for members who were hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90. Disability benefits are available for vested members and are based on years of service and average high-five salary.

c. Contributions

Pension benefits are funded from member and employer contributions and income from the investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the state legislature. Rates did not change from 2020.

In 2021, the County and members were required to contribute the following percentages of annual covered salary:

| | <u>Member Required Contribution</u> | <u>Employer Required Contribution</u> |
|---|---|---|
| General Employees Plan – Coordinated Plan members | 6.50% | 7.50% |
| Police and Fire Plan | 11.80 | 17.70 |
| Correctional Plan | 5.83 | 8.75 |

The County's contributions for the year ended December 31, 2021, to the pension plans were:

| | |
|------------------------|------------|
| General Employees Plan | \$ 233,995 |
| Police and Fire Plan | 190,895 |
| Correctional Plan | 75,049 |

The contributions are equal to the statutorily required contributions as set by state statute.

General Employees Plan

At December 31, 2021, the County reported a liability of \$1,802,129 for its proportionate share of the General Employees Plan's net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020, through June 30, 2021, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2021, the County's proportion was 0.0422 percent. It was 0.0412 percent measured as of June 30, 2020. The County recognized pension expense of \$8,275 for its proportionate share of the General Employees Plan's pension expense.

The County also recognized \$4,441 as revenue, which results in a reduction of the net pension liability, for its proportionate share of the State of Minnesota's expense related to its contribution to the General Employees Plan, which qualifies as a special funding situation. Legislation requires the State of Minnesota to contribute \$16 million to the General Employees Plan annually until September 15, 2031.

Police and Fire Plan

At December 31, 2021, the County reported a liability of \$685,442 for its proportionate share of the Police and Fire Plan's net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020, through June 30, 2021, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2021, the County's proportion was 0.0888 percent. It was 0.0932 percent measured as of June 30, 2020. The County recognized pension expense of \$12,824 for its proportionate share of the Police and Fire Plan's pension expense.

The State of Minnesota also contributed \$18 million to the Police and Fire Plan in the plan fiscal year ended June 30, 2021. The contribution consisted of \$9 million in direct state aid that meets the definition of a special funding situation and \$9 million in supplemental state aid that does not meet the definition of a special funding situation.

Legislation requires the State of Minnesota to pay direct state aid of \$9 million on October 1, 2020, and to pay \$9 million by October 1 of each subsequent year until full funding is reached, or July 1, 2048, whichever is earlier. The County recognized an additional \$5,612 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's pension expense related to the special funding situation.

Total Pension Expense

The total pension expense for all plans recognized by the County for the year ended December 31, 2021, was (\$173,752).

e. Actuarial Assumptions

The total pension liability in the June 30, 2021, actuarial valuation was determined using the individual entry-age normal actuarial cost method and the following additional actuarial assumptions:

| | General Employees Fund | Police and Fire Fund | Correctional Fund |
|------------------------------|---------------------------|-------------------------|-------------------|
| Inflation | 2.25% per year | 2.25% per year | 2.25% per year |
| Active Member Payroll Growth | 3.00% per year | 3.00% per year | 3.00% per year |
| Investment Rate of Return | 6.50% | 6.50% | 6.50% |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on the Pub-2010 General Employee Mortality table for the General Employees Plan and the Pub-2010 Public Safety Employee Mortality tables for the Police and Fire and the Correctional Plans, with slight adjustments. Cost of living benefit increases for retirees are assumed to be 1.25 percent for the General Employees Plan and 2.00 percent for the Correctional Plan. For the Police and Fire Plan, cost of living benefit increases for retirees are 1.00 percent as set by state statute.

Actuarial assumptions used in the June 30, 2021, valuation were based on the results of actuarial experience studies. The experience study for the General Employees Plan was dated June 27, 2019. The experience study for the Police and Fire Plan was dated July 14, 2020. The experience study for the Correctional Plan was dated July 10, 2020. For all plans a review of inflation and investment assumptions dated June 24, 2021, was utilized.

F. Pension Plans

1. Defined Benefit Pension Plans

e. Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments is 6.50 percent. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Long-Term Expected Real Rate of Return</u> |
|------------------------|--------------------------|---|
| Domestic equities | 33.50% | 5.10% |
| International equities | 16.50 | 5.30 |
| Fixed income | 25.00 | 0.75 |
| Private markets | 25.00 | 5.90 |

f. Discount Rate

The discount rate used to measure the total pension liability was 6.50 percent in 2021, which is a decrease of one percent from 2020. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the fiduciary net positions of the General Employees Plan, the Police and Fire Plan, and the Correctional Plan were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Six employees of Faribault County are covered by the Public Employees Defined Contribution Plan, a multiple-employer deferred compensation plan administered by PERA. The plan is established and administered in accordance with Minn. Stat. ch. 353D, which may be amended by the state legislature. The plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code, and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

2. Defined Contribution Plan (Continued)

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. For those qualified personnel who elect to participate, Minn. Stat. § 353D.03 specifies plan provisions, including the employee and employer contribution rates. An eligible elected official who decides to participate contributes five percent of salary, which is matched by the employer. Employee and employer contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives two percent of employer contributions and 0.25 percent of the assets in each member account annually.

Total contributions by dollar amount and percentage of covered payroll made by Faribault County during the year ended December 31, 2021, were:

4. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. The County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT). The County is a member of both the MCIT Workers' Compensation and Property and Casualty Divisions.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$500,000 per claim in 2021 and 2022. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

4. Risk Management (Continued)

The Property and Casualty Division of MCIT is self-sustaining, and the County pays an annual premium to cover current and future losses. MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

The County participates in the health insurance program through the Minnesota Public Employees Insurance Program (PEIP). PEIP was created by special legislation under Minn. Stat. § 43A.316. PEIP provides financial risk management services that embody the concept of pooling risk for the purpose of stabilizing and/or reducing costs. Group employee benefits shall include, but not be limited to, health benefits coverage and other services as directed by the County. Members do not pay for deficiencies that arise in the current year.

5. Summary of Significant Contingencies and Other Items

A. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

Faribault – Martin County Human Services Board

Martin County entered into a joint powers agreement with Faribault County (Minnesota Statutes §471.59) to provide welfare and health services to county residents (Minnesota Statutes §§ 402.01-.10). The Faribault – Martin – Watonwan Human Services Board was established on June 30, 1975. As of January 1, 1991, Watonwan County withdrew from the Human Services Board. Martin and Faribault Counties are continuing with the joint powers agreement. The Board has 12 members, five County Commissioners and one citizen member from each of the two counties. Each county collects its share of local tax revenues and transfers these funds to the Board to fulfill its ongoing financial responsibility.

The Board includes Blue Earth, Brown, Cottonwood, Faribault, Freeborn, Jackson, Lincoln, Lyon, Martin, Mower, Murray, Nobles, Pipestone, Redwood, Renville, Rock, Watonwan, and Yellow Medicine Counties. The purpose of the Board is to provide guidance on issues surrounding energy development in rural Minnesota and to foster the diversification of the economic climate in rural Minnesota. The focus of the Board includes, but is not limited to, renewable energy, wind energy, energy transmission lines, hydrogen energy technology, and bio-diesel and ethanol use.

The governing body is comprised of one voting member and one alternate member from each participating county's Board of Commissioners. The Board remains in existence as long as two or more counties remain parties to the agreement. Should the Board cease to exist, assets are to be liquidated, after payment of liabilities, based upon the ratios set out under the equal and proportionate share articles of the agreement.

During the year, Faribault County contributed \$2,500 to the Board. Complete financial information can be obtained from the Rural Minnesota Energy Board, Slayton, Minnesota 56172.

South Central Drug Investigation Unit

The South Central Drug Investigation Unit (Drug Task Force) was established to coordinate efforts among participating local governments to apprehend and prosecute drug offenders. During the year, Faribault County paid \$11,500 to the Drug Task Force.

South Central Minnesota Emergency Communications Board

The South Central Minnesota Emergency Communications Board (formerly known as the South Central Minnesota Regional Radio Board) was established pursuant to Minn. Stat. §§ 471.59 and 403.39 and a joint powers agreement effective May 27, 2008. It is comprised of Blue Earth, Brown, Faribault, Le Sueur, Martin, McLeod, Nicollet, Sibley, Waseca, and Watonwan Counties, and the Cities of Hutchinson and Mankato. The primary function of the joint venture is to provide regional administration of enhancements to the Statewide Public Safety Radio and Communication System for the

Allied Radio Matrix for Emergency Response (ARMER) owned and operated by the State of Minnesota and to enhance and improve interoperable public safety communications.

The Board consists of one County Commissioner from each county included in the agreement, one City Council member from each city included in the agreement, a member of the South Central Minnesota Regional Advisory Committee, a member of the South Central Minnesota Regional Radio System User Committee, and a member of the Owners and Operators Committee.

Blue Earth County acts as the fiscal agent for the Board. During the year, Faribault County contributed \$3,280 to the Board. Financial information can be obtained at the Blue Earth County Justice Center, 401 Carver Road, Mankato, Minnesota 56002.

South Central Workforce Service Area Joint Powers Board

In June 2012, the County entered into a joint powers agreement with Blue Earth, Brown, Le Sueur, Martin, Nicollet, Sibley, Waseca, and Watonwan Counties, creating the South Central Workforce Service Area Joint Powers Board. The agreement is authorized by Minn. Stat. § 471.59. The Board is comprised of one voting member and one alternate member from each participating county. The goal of the Board is to develop and maintain a quality workforce for South Central Minnesota.

Faribault County made no payments to this organization in 2021. Separate financial information can be obtained from the South Central Workforce Council, 706 North Victory Drive, Mankato, Minnesota 56001.

C. Jointly-Governed Organizations

Faribault County, in conjunction with other governmental entities and various private organizations, formed the jointly-governed organizations listed below:

C. Jointly-Governed Organizations (Continued)

The Greater Blue Earth River Basin Alliance (GBERBA) establishes goals, policies, and objectives to protect and enhance land and water resources in the Greater Blue Earth River Basin. The Board consists of County Commissioners and members of the Soil and Water Conservation Districts. During the year, Faribault County made payments of \$7,838 to the Alliance.

The Minnesota Counties Computer Cooperative (MCCC) was created under Minnesota Joint Powers Law, Minn. Stat. § 471.59, to jointly provide for the establishment, operation, and maintenance of data processing systems, facilities, and management information systems. During the year, Faribault County expended \$102,520 to the MCCC for support, supplies, and subscriptions.

The Minnesota Criminal Justice Data Communications Network Joint Powers Agreement exists to create access for the County Sheriff and County Attorney to systems and tools available from the State of Minnesota, Department of Public Safety, and the Bureau of Criminal Apprehension to carry out criminal justice. During the year, Faribault County made payments of \$6,295 to the joint powers.

The South Central Emergency Medical Service (SCEMS) Joint Powers Board consists of Blue Earth, Brown, Faribault, Le Sueur, Martin, Nicollet, Sibley, Waseca, and Watonwan Counties. The purpose of the SCEMS is to ensure quality patient care is available throughout the nine-county area by maximizing the response capabilities of emergency medical personnel and to promote public education on injury prevention and appropriate response during a medical emergency. Each county appoints one member to the Joint Powers Board. During the year, Faribault County contributed \$5,000 to the SCEMS.

The South Central Community-Based Initiative was established pursuant to Minn. Stat. §§ 471.59 and 245.4661 and a joint powers agreement effective June 20, 2008. The purpose of this joint powers agreement is to provide services to persons with mental illness in the most clinically-appropriate, person-centered, least restrictive, and cost-effective ways. The focus is on improved access and outcomes for persons with mental illness as a result of the collaboration between state-operated services programs and community-based treatment. The membership of the Board is comprised of one representative appointed by Blue Earth, Brown, Faribault, Freeborn, Le Sueur, Martin, Nicollet, Rice, Sibley, and Watonwan Counties. During the year, Faribault County did not contribute to the Joint Powers Board.

C. Jointly-Governed Organizations (Continued)

The Region One – Southeast Minnesota Homeland Security Emergency Management Joint Powers Board was established to provide for regional coordination of planning, training, purchase of equipment, and allocating emergency services and staff in order to better respond to emergencies and natural or other disasters within the region. There are 16 counties participating, with one member from each entity being represented on the Joint Powers Board. During the year, Faribault County contributed \$1,000 to the Joint Powers Board.

The Southwest Minnesota Immunization Information Connection (SW-MIIC) Joint Powers Board promotes an implementation and maintenance of a regional immunization information system to ensure age-appropriate immunizations through complete and accurate records. During the year, Faribault County did not contribute to the SW-MIIC.

Three Rivers Resource Conservation & Development (RC&D) is a locally initiated, sponsored, and directed organization that works to enhance the quality of life by improving the economic, social, and environmental conditions within the area. The RC&D is lead locally by Soil and Water Conservation District Supervisors and County Commissioners from the nine-county area that is served by the RC&D. During the year, Faribault County did not contribute to the RC&D.

D. Agricultural Best Management Loan Program

The County has entered into an agreement with the Minnesota Department of Agriculture and a local lending institution to jointly administer a loan program to individuals to implement projects that prevent or mitigate non-point source water pollution. While the County is not liable for the repayment of the loans in any manner, it does have certain responsibilities under the program.

E. Subsequent Events

During 2022, final settlement agreements were reached with pharmaceutical companies and distributors as part of the National Prescription Opiate Litigation. For Faribault County, the amount to be received as a result of this litigation is \$481,636, to be received over 18 years, which has been recorded as accounts receivable in the current year. The Minnesota Opioids State-Subdivision Memorandum of Agreement was signed January 24, 2022.

E. Subsequent Events (Continued)

On February 22, 2022, the County issued \$9,435,000 of General Obligation State Aid Highway Bonds, Series 2022A. The proceeds will be used to finance various state-aid road improvement projects within the County.

On May 5, 2022, a lawsuit related to Faribault County Ditch #21 was settled. While both parties were awarded damages, the net result to the County was an estimated \$138,275 in damages and interest expenditures, which is recorded as an accounts payable in the Ditch Special Revenue Fund.

6. Faribault County Economic Development Authority (EDA)

A. Summary of Significant Accounting Policies

Reporting Entity

In addition to those identified in Note 1, the County's discretely presented EDA component unit has the following significant accounting policies.

The EDA was created in 2002 and began operations in 2003 to take over the operations of the Local Redevelopment Agency. The EDA is governed by a seven-member Board. A minimum of two of the members are members of the Faribault County Board of Commissioners. All members are appointed by the Chair of the County Board of Commissioners, with approval of the Board.

Basis of Presentation

The EDA does not prepare separate financial statements. The EDA presents its one fund as a governmental fund.

Basis of Accounting

The EDA General Fund is accounted for on the modified accrual basis of accounting.

Cash and Pooled Investments

Operating cash of the EDA is on deposit with the Faribault County Auditor/Treasurer and included within its pooled cash and investments.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED DECEMBER 31, 2021**

1. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at year-end.

On or before mid-June of each year, all departments and agencies submit requests for appropriations to the County Auditor/Treasurer so that a budget can be prepared. Before October 31, the proposed budget is presented to the County Board for review. The Board holds public hearings, and a final budget must be prepared and adopted no later than December 31.

The appropriated budget is prepared by fund, function, and department. The budgets may be amended or modified at any time by the County Board. The County's department heads may make transfers of appropriations within a department. The legal level of budgetary control (the level at which expenditures may not legally exceed appropriations) is the fund level.

2. Budget Amendments

The revenue and expenditure budgets were amended during the year.

3. Excess of Expenditures Over Appropriations

For the year ended December 31, 2021, the Ditch Special Revenue Fund's expenditures exceeded appropriations by \$4,016,332. The expenditures in excess of budget were funded by revenues in excess of budget and an interfund loan from the General Fund. Future special assessments will be made to pay for ditch repairs and improvements.

4. Other Postemployment Benefits Funded Status

Assets have not been accumulated in a trust that meets the criteria in paragraph four of GASB Statement 75 to pay related benefits.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

5. Other Postemployment Benefits – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

The following changes in actuarial methods and assumptions occurred:

2021

- The discount rate used changed from 2.75 percent to 2.00 percent based on updated 20-year municipal bond rates.
- Healthcare trend rates were reset to reflect updated cost increase expectations.
- Medical per capital claims costs were updated to reflect recent experience and new plan offerings, including an adjustment to reflect age/gender based risk scores published by the Society of Actuaries.
- Withdrawal, retirement, mortality and salary increase rates were updated from the rates used in the July 1, 2018, PERA General Employees Plan, July 1, 2018, Police and Fire Plan, and July 1, 2018, PERA Correctional Plan valuations to the rates used in the January 1, 2020, valuations.
- The percent of future non-Medicare eligible retirees electing each medical plan changed to reflect recent plan experience. The following table provides the changes for the assumed percent electing each plan:

| <u>Medical Plan</u> | <u>Fiscal 2021 Valuation</u> | <u>Fiscal 2020 Valuation</u> |
|---------------------|----------------------------------|----------------------------------|
| PEIP Advantage | 10% | 0% |
| PEIP Value | 0% | 10% |
| PEIP HSA/VEBA | 90% | 90% |
| IUOE 49ers | 100% | 100% |

- The inflation assumption was changed from 2.50 percent to 2.25 percent based on an updated historical analysis of inflation rates and forward-looking market expectations.

2020

- The discount rate used changed from 3.71 percent to 2.75 percent based on updated 20-year municipal bond rates.

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

5. Other Postemployment Benefits – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

2020 (Continued)

- Healthcare trend rates were updated to exclude the Affordable Care Act's Excise Tax on high-cost health insurance plans due to its repeal.

2019

- The discount rate used changed from 3.31 percent to 3.71 percent based on updated 20-year municipal bond rates.
- Healthcare trend rates were reset to reflect updated cost increase expectations.
- Medical per capita claims costs were updated to reflect recent experience.
- Withdrawal, retirement, and mortality rates were updated from the rates used in the July 1, 2016, PERA General Employees Retirement Plan to the rates used in the July 1, 2018, valuation.
- The percent of future non Medicare, non-IUOE eligible retirees electing each medical plan changed to reflect recent plan experience. The following table provides the changes for the assumed percent electing each plan:

| <u>Medical Plan</u> | <u>Fiscal 2019 Valuation</u> | <u>Fiscal 2018 Valuation</u> |
|---------------------|----------------------------------|----------------------------------|
| PEIP Advantage | 0% | 30% |
| PEIP Value | 10% | 10% |
| PEIP HSA/VEBA | 90% | 60% |

2018

- The discount rate used changed from 3.50 percent to 3.31 percent.
- The actuarial cost method used changed from the Projected Unit Credit to the Entry Age, level percent of pay.

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

The following changes were reflected in the valuation performed on behalf of the Public Employees Retirement Association for the fiscal year June 30:

General Employees Retirement Plan

2021

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019, experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019, experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019, experience study. The new rates are based on service and are generally lower than the previous rates for years two to five and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019, experience study. The change results in fewer predicted disability retirements for males and females.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

General Employees Retirement Plan

2020 (Continued)

- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Employee Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality table to the Pub-2010 General/Teacher Disabled Retiree Mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP- 2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100 percent Joint and Survivor option changed from 35 percent to 45 percent. The assumed number of married female new retirees electing the 100 percent Joint and Survivor option changed from 15 percent to 30 percent. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.
- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and 0.00 percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019

- The mortality projection scale was changed from Scale MP-2017 to Scale MP-2018.

2018

- The mortality projection scale was changed from Scale MP-2015 to Scale MP-2017.
- The assumed benefit increase rate was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter, to 1.25 percent per year.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

General Employees Retirement Plan

2018 (Continued)

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90 percent funding to 50 percent of the Social Security cost of living adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to the Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60 percent for vested and non-vested deferred members (30 percent for deferred Minneapolis Employees Retirement Fund members). The revised CSA loads are now 0.00 percent for active member liability, 15 percent for vested deferred member liability, and 3.00 percent for non-vested deferred member liability.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

General Employees Retirement Plan

2017 (Continued)

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years to 1.00 percent per year through 2044 and 2.50 percent per year thereafter.
- Minneapolis Employees Retirement Fund plan provisions change the employer supplemental contribution to \$21 million in calendar years 2017 and 2018 and returns to \$31 million through calendar year 2031. The state's required contribution is \$16 million in PERA's fiscal years 2018 and 2019 and returns to \$6 million annually through calendar year 2031.

2016

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035 and 2.50 percent per year thereafter, to 1.00 percent for all future years.
- The assumed investment rate was changed from 7.90 percent to 7.50 percent. The single discount rate was also changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed payroll growth and inflation were decreased by 0.25 percent. Payroll growth was reduced from 3.50 percent to 3.25 percent. Inflation was reduced from 2.75 percent to 2.50 percent.

Public Employees Police and Fire Plan

2021

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent.
- The inflation assumption was changed from 2.50 percent to 2.25 percent.
- The payroll growth assumption was changed from 3.25 percent to 3.00 percent.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

Public Employees Police and Fire Plan

2021 (Continued)

- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 Public Safety Mortality table. The mortality improvement scale was changed from Scale MP-2019 to Scale MN-2020.
- The base mortality table for disabled annuitants was changed from the RP-2014 Healthy Annuitant Mortality table (with future mortality improvement according to Scale MP-2019) to the Pub-2010 Public Safety Disabled Annuitant Mortality table (with future mortality improvement according to Scale MP-2020).
- Assumed rates of salary increase were modified as recommended in the July 14, 2020, experience study. The overall impact is a decrease in gross salary increase rates.
- Assumed rates of retirement were changed as recommended in the July 14, 2020, experience study. The changes result in slightly more unreduced retirements and fewer assumed early retirements.
- Assumed rates of withdrawal were changed from select and ultimate rates to service-based rates. The changes result in more assumed terminations.
- Assumed rates of disability were increased for ages 25-44 and decreased for ages over 49. Overall, proposed rates result in more projected disabilities.
- Assumed percent married for active female members was changed from 60 percent to 70 percent. Minor changes to form of payment assumptions were applied.

2020

- The mortality projection scale was changed from Scale MP-2018 to Scale MP-2019.

2019

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

Public Employees Police and Fire Plan (Continued)

2018

- The mortality projection scale was changed from Scale MP-2016 to Scale MP-2017.
- Post-retirement benefit increases changed to 1.00 percent for all years, with no trigger.
- An end date of July 1, 2048, was added to the existing \$9.0 million state contribution. Additionally, annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter, until the plan reaches 100 percent funding, or July 1, 2048, if earlier.
- Member contributions were changed effective January 1, 2019, and January 1, 2020, from 10.80 percent to 11.30 and 11.80 percent of pay, respectively. Employer contributions were changed effective January 1, 2019, and January 1, 2020, from 16.20 percent to 16.95 and 17.70 percent of pay, respectively. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017

- The assumed salary increases were changed as recommended in the June 30, 2016, experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates.
- The assumed rates of retirement were changed, resulting in fewer retirements.
- The CSA load was 30 percent for vested and non-vested, deferred members. The CSA load has been changed to 33 percent for vested members and 2.00 percent for non-vested members.

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

Public Employees Police and Fire Plan

2017 (Continued)

- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality table assumed for healthy retirees.
- The assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- The assumed percentage of married female members was decreased from 65 percent to 60 percent.
- The assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing joint and survivor annuities was increased.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter.
- The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2016

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2037 and 2.50 percent per year thereafter, to 1.00 percent for all future years.

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

Public Employees Police and Fire Plan

2016 (Continued)

- The assumed investment rate was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 5.60 percent.
- The assumed payroll growth and inflation were decreased by 0.25 percent. Payroll growth was reduced from 3.50 percent to 3.25 percent. Inflation was reduced from 2.75 percent to 2.50 percent.

Public Employees Local Government Correctional Service Retirement Plan

2021

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent.
- The inflation assumption was changed from 2.50 percent to 2.25 percent.
- The payroll growth assumption was changed from 3.25 percent to 3.00 percent.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 Public Safety Mortality table. The mortality improvement scale was changed from Scale MP-2019 to Scale MN-2020.
- The base mortality table for disabled annuitants was changed from the RP-2014 Healthy Annuitant Mortality table (with future mortality improvement according to Scale MP-2019) to the Pub-2010 Public Safety Disabled Annuitant Mortality table (with future mortality improvement according to Scale MP-2020).
- Assumed rates of salary increase were modified as recommended in the July 10, 2020, experience study. The overall impact is a decrease in gross salary increase rates.
- Assumed rates of retirement were changed as recommended in the July 10, 2020, experience study. The changes result in slightly more unreduced retirements and fewer assumed early retirements.

6. Defined Benefit Pension Plans – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

Public Employees Local Government Correctional Service Retirement Plan

2021 (Continued)

- Assumed rates of withdrawal were changed as recommended in the July 10, 2020, experience study. The new rates predict more terminations, both in the three-year select period (based on service) and the ultimate rates (based on age).
- Assumed rates of disability were lowered.
- Assumed percent married for active members was lowered from 85 percent to 75 percent.
- Minor changes to form of payment assumptions were applied.

2020

- The mortality projection scale was changed from Scale MP-2018 to Scale MP-2019.

2019

- The mortality projection scale was changed from Scale MP-2017 to Scale MP-2018.

2018

- The single discount rate was changed from 5.96 percent per annum to 7.50 percent per annum.
- The mortality projection scale was changed from Scale MP-2016 to Scale MP-2017.
- The assumed post-retirement benefit increase was changed from 2.50 percent per year to 2.00 percent per year.
- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED DECEMBER 31, 2021**

1. Summary of Significant Accounting Policies

A. Reporting Entity

The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by Faribault County. The County's reporting entity is defined in Note 1 to the financial statements. Faribault County's financial statements include the operations of the Faribault County Housing and Redevelopment Authority (HRA) component unit, which expended \$300,043 in federal awards during the year ended December 31, 2021, which are not included in the Schedule of Expenditures of Federal Awards. Our audit does not include the operations of the Faribault County HRA because it is legally separate from the County, and because it expended less than \$750,000 of federal awards for the year ended December 31, 2021, it was not subject to Uniform Guidance audit requirements.

B. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Faribault County under programs of the federal government for the year ended December 31, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Faribault County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Faribault County.

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

2. De Minimis Cost Rate

Faribault County has elected not to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

MANAGEMENT AND COMPLIANCE SECTION

FARIBAULT COUNTY

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

Board of County Commissioners
Faribault County
Blue Earth, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Faribault County, Minnesota, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated September 15, 2022. Our report includes a reference to other auditors who audited the financial statements of the Faribault County Housing and Redevelopment Authority component unit as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. This report does not include the results of our audit testing of the Faribault County Economic Development Authority component unit's internal control over financial reporting or compliance and other matters that are reported on separately within the Management and Compliance Section.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Faribault County's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as

described in the accompanying Schedule of Findings and Questioned Costs, we identified a deficiency in internal control that we consider to be a material weakness and deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2021-003 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2021-001 and 2021-002 to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Faribault County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

In connection with our audit, we noted that Faribault County failed to comply with the provisions of the contracting – bid laws section of the *Minnesota Legal Compliance Audit Guide for Counties*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters as described in the Schedule of Findings and Questioned Costs as item 2021-004. Also, in connection with our audit, nothing came to our attention that caused us to believe that Faribault County failed to comply with the provisions of the depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions sections of the *Minnesota Legal Compliance Audit Guide for Counties*, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

Other Items

Included in the Schedule of Findings and Questioned Costs is a management practices comment. We believe this recommendation to be of benefit to the County, and it is reported for that purpose.

Faribault County's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the County's responses to the internal control, legal compliance, and management practices findings identified in our audit and described in the accompanying Corrective Action Plan. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting, compliance, and the provisions of the *Minnesota Legal Compliance Audit Guide for Counties* and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

Independent Auditor's Report

Board of County Commissioners
Faribault County
Blue Earth, Minnesota

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Faribault County's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the County's major federal program for the year ended December 31, 2021. Faribault County's major federal program is identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, Faribault County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2021.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Faribault County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of Faribault County's compliance with the compliance requirements referred to above.

Other Matter – Federal Expenditures Not Included in the Compliance Audit

Faribault County's basic financial statements include the operations of the Faribault County Housing and Redevelopment Authority (HRA) component unit, which expended \$300,043 in federal awards which are not included in Faribault County's Schedule of Expenditures of Federal Awards during the year ended December 31, 2021. Our compliance audit, described in the "Opinion on the Major Federal Program," does not include the operations of the Faribault County HRA component unit because it is legally separate from the County, and because it expended less than \$750,000 of federal awards for the year ended December 31, 2021, it was not subject to Uniform Guidance audit requirements.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Faribault County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Faribault County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Faribault County's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Faribault County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances; and

- obtain an understanding of Faribault County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Faribault County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**II. FINDINGS RELATED TO FINANCIAL STATEMENTS AUDITED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

2021-001 Capital Asset Records

Prior Year Finding Number: 2020-001

Repeat Finding Since: 1996

Type of Finding: Internal Control Over Financial Reporting

Severity of Deficiency: Significant Deficiency

Criteria: The County is required by generally accepted accounting principles to account for and depreciate its capital assets over their estimated useful lives. The costs of capital assets are expensed annually as depreciation expense while the asset is in service. Written policies and procedures outline the specific authority and responsibility of County personnel, providing for accountability. Written policies serve as a reference and training tool for new personnel and ensure that procedures remain in place despite personnel turnover. To be effective, an accounting policies and procedures manual must be complete, up to date, and readily available to all personnel who need it.

Condition: The County Board has a capital assets policy that discusses capitalization thresholds and use of straight-line depreciation. The policy does not discuss estimated useful lives or use of salvage values.

Context: Estimated useful lives are not consistently used in calculating depreciation of the County's capital assets. General government buildings are depreciated over 30 years, while highway buildings are depreciated over 39 and 40 years. Salvage value amounts are not consistently considered in the calculation of depreciation amounts.

Effect: There is no clear guidance or consistency in the accounting for depreciation of capital assets.

Cause: The County stated that it has not been able to amend its capital assets policy due to time constraints and limited personnel.

Recommendation: To improve controls over capital assets, we recommend the County Board approve policies and procedures that establish consistent useful lives and set guidance on when to use salvage values in computing depreciation. If exceptions to the capitalization threshold policy are allowed, those exceptions should be spelled out in the policy.

2021-002 Budgeting

Prior Year Finding Number: 2020-002

Repeat Finding Since: 2006

Type of Finding: Internal Control Over Financial Reporting

Severity of Deficiency: Significant Deficiency

Criteria: The budget is a key internal control for the County. Budget modifications should be made throughout the year to maintain the value of the budget as an internal control tool. The ability to modify the budget during the year for new circumstances makes the budget more valuable because budgetary differences are not distorted by the new circumstances. In general, local governments should have an adopted budget policy that includes elements such as:

- procedures for adopting the budget,
- which funds require budgets,
- the legal level of control,
- when budgets can be modified by management and when budget modifications require Board approval,
- the budgetary basis on which the budget is adopted,
- identification of key personnel involved in the budgeting process, and
- the procedures for monitoring the budget.

Condition: The County does not have a formal written budget policy.

Context: Written policies and procedures help in providing consistency over time and guidance to new officials and staff.

Effect: The budgeting procedure may not be followed as intended by County management or the County Board.

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2021**

Cause: The County stated that it has had time constraints and limited personnel which have delayed the completion of a formal written budget policy.

Recommendation: We recommend the County Board amend and formalize its budget policy to include the elements recommended above and modify the budget as necessary for significant changes in expected activity.

2021-003 Audit Adjustments

Prior Year Finding Number: 2020-003

Repeat Finding Since: 2017

Type of Finding: Internal Control Over Financial Reporting

Severity of Deficiency: Material Weakness

Criteria: A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements of the financial statements on a timely basis. Auditing standards define a material weakness as a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis.

Condition: Material audit adjustments were identified that resulted in significant changes to the County's financial statements.

Context: The inability to detect significant misstatements in the financial statements increases the likelihood that the financial statements would not be fairly presented. The adjustments were found in the audit; however, independent external auditors cannot be considered part of the County's internal control.

Effect: The following audit adjustments were reviewed and approved by management and are reflected in the financial statements.

- The Public Works Special Revenue Fund required adjustments of \$2,525,894, \$5,012,209, and \$2,486,315 to increase due from other governments and deferred inflows of resources, and reduce intergovernmental revenue, respectively, to account for highway allotment receivables and record the advanced allotment.

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2021**

- The Human Services Special Revenue Fund required an adjustment of \$147,000 to increase due from other governments and due to other governments for a receipt that was recorded as a reduction of payables instead of as a receivable in the general ledger.
- The Ditch Special Revenue Fund required an adjustment of \$822,046 to reduce special assessments receivable and deferred inflows of resources related to prepaid assessments collected.
- Adjustments of \$8,665,654, \$4,066,498, and \$4,599,156 were required in the Debt Service Fund, General Fund, and Public Works Special Revenue Fund, respectively, to record a transfer of debt proceeds from the Debt Service Fund to the funds that will ultimately incur the project expenditures financed by the debt.

Cause: This activity was overlooked by staff when financial statement information was prepared.

Recommendation: We recommend the County review internal controls currently in place and design and implement procedures to improve internal controls over financial reporting which will prevent, or detect and correct, misstatements in the financial statements. The updated controls should include review of the balances and supporting documentation by a qualified individual to identify potential misstatements.

IV. OTHER FINDINGS AND RECOMMENDATIONS

2021-004 Contract Compliance

Prior Year Finding Number: N/A

Repeat Finding Since: N/A

Type of Finding: Compliance

Severity of Deficiency: Minnesota Legal Compliance

Criteria: Minnesota Statutes, Section 270C.66, states that, before making final settlement with any contractor under a contract requiring the employment of employees for wages by the contractor and by subcontractors, the County is required to obtain a certificate from the Commissioner of Revenue that the contractor or subcontractor has complied with the withholding requirements of Minn. Stat. § 290.92.

Minnesota Statutes, Section 471.425, subdivision 4a, requires that each contract of a municipality must require the prime contractor to pay any subcontractor within ten days of the prime contractor's receipt of payment from the municipality for undisputed services provided by the subcontractor. The contract must require the prime contractor to pay interest of one and one-half percent per month, or any part of a month, to the subcontractor on any undisputed amount not paid on time to the subcontractor.

Minnesota Statutes, Section 16C.285, states that, for each construction contract in excess of \$50,000 awarded pursuant to a lowest responsible bidder or best value process, the successful contractor must submit a verification of compliance signed under oath by an owner or officer verifying compliance with the minimum criteria set forth in Minn. Stat. § 16C.285, subd. 3 (with the exception of clause (7), as required by Minn. Stat. § 16C.285, subd. 4.

Condition: During testing of compliance with the State of Minnesota contracting and bid laws and the County's purchasing policy, noncompliance with the following was noted:

- For five of the eight contracts tested that included the employment of individuals for wages by the contractor and where final payment had been made, the final payment was issued prior to receiving a Minnesota Department of Revenue approved Form IC-134, which requires the reporting of employee withholdings, from the contractor.
- For one of the four contracts tested for notification to the contractor regarding prompt payment notice, the contract did not contain the required prompt payment disclosure.

**FARIBAUT COUNTY
BLUE EARTH, MINNESOTA**

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2021**

- For one of the three contracts tested for the responsible contractor disclosure, the contract did not contain the disclosure, and the County did not receive the verification of compliance with minimum responsible contractor criteria from the successful contractor.

Context: Individual County departments are responsible for overseeing the contracting and bidding process for their own projects, and for obtaining the required certificate prior to submitting the final payment for processing.

Effect: Noncompliance with Minn. Stat. §§ 270C.66, 471.425, and 16C.285.

Cause: Staff from the County's individual departments were not aware of all of the contract requirements.

Recommendation: We recommend the County review the statutory requirements with all departments to ensure compliance with applicable contracting and bidding statutes for all future contracts. In addition, adequate documentation of compliance should be maintained.

2021-005 County Ditch Fund Deficits

Prior Year Finding Number: 2020-006

Repeat Finding Since: 2014

Type of Finding: Management Practice

Severity of Deficiency: Management Practice

Criteria: Each individual ditch system within the Ditch Special Revenue Fund should be maintained with a positive fund balance to meet its financial obligations.

Condition: At December 31, 2021, the County had individual ditch systems where liabilities and deferred inflows of resources exceeded assets, resulting in deficit fund balances.

Context: At December 31, 2021, 118 of 176 ditch systems had deficit fund balances totaling \$9,187,168. Taking into consideration long-term items that do not contribute to reported ditch system fund balances, including assessments that have been levied for collection in future years, deficit balances are reduced to 91 ditch systems with a total deficit of \$6,661,376.

Effect: Ditch systems with deficit fund balances indicate that measures may need to be taken to ensure that it can meet financial obligations.

**FARIBAULT COUNTY
BLUE EARTH, MINNESOTA**

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2021**

Cause: The County indicated that a large portion of the deficits are a result of ongoing projects which are planned to be levied for once completed. In other cases, deficits relate to projects under current litigation which will be levied for, if necessary, after resolution. In some cases, however, further research is needed to identify the cause of the deficits, after which additional assessments can be approved to address the deficit as necessary.

Recommendation: We recommend the County continue to monitor the balances of the ditch systems and eliminate deficit fund balances by approving necessary special assessments as soon as practical for each system given the identified cause of the deficit for each individual system.

FARIBAULT COUNTY ECONOMIC DEVELOPMENT AUTHORITY

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

Economic Development Authority Board
Faribault County Economic Development Authority
Blue Earth, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Faribault County, Minnesota, which include as supplementary information the financial statements of the Faribault County Economic Development Authority (EDA), a discretely presented component unit, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated September 15, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Faribault County EDA's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Faribault County EDA's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Faribault County EDA's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Faribault County EDA's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Faribault County EDA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

In connection with our audit, nothing came to our attention that caused us to believe that the Faribault County EDA failed to comply with the provisions of depositories of public funds and public investments, conflicts of interest, claims and disbursements, and miscellaneous provisions sections of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Faribault County EDA's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting, compliance, and the provisions of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions* and the results of that testing, and not to provide an opinion on the effectiveness of the Faribault County EDA's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Faribault County EDA's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.
