## **Public Works**

3. **Performance Measure:** Hours to plow complete system during a snow event

**Performance Goal:** Kandiyohi County plans to clear ice and snow from its complete road system in 6 to 7 hours during a snow event. However, during excessive snowfall or wind events, it often takes 2-3 more hours per day to re-plow and sand parts of the system in order to maintain safe and passable roads. Snow and ice control costs were normal to less than that of an average winter in 2015.
