INTRODUCTION

This Legal Compliance Audit Guide was prepared by the Office of the State Auditor pursuant to Minn. Stat. § 6.65, in consultation with representatives from the Attorney General's Office, towns, cities, counties, school districts, and private sector public accountants. The purpose of the task force was to establish minimum compliance guidelines for verification by auditors engaged in the process of auditing political subdivisions of the state.

This guide is divided into specific sections and presented in checklist form to assist the auditor of government units in the verification of statutory compliance. The guide is not meant to be a complete compilation of all laws affecting municipalities or a complete analysis of the laws cited throughout. The checklist is meant to act as a reference guide regarding minimum legal compliance, and municipal auditors must examine, in addition to applicable laws cited in the guide, those laws creating, granting power to, and restricting the municipal entities they are auditing.

Under each section, except for the initial question establishing the transaction covered by the topic heading and except where the explanation of a given question indicates otherwise, all questions should be answered in the affirmative. A negative answer indicates a compliance problem, and the user of the checklist is directed to the statutory section indicated on the left-hand side of the page. If after examination of the appropriate statute, the auditor using this audit guide is still unsure as to whether there has been legal compliance, he or she should check with legal counsel before rendering the opinion on compliance contained at the end of each section.

AUDITOR'S REPORTS ON COMPLIANCE

Chapter 6 contains five model reports, one of which is to be completed by the auditor following his or her completion of the appropriate compliance sections.

These reports or the language from these reports must be issued as part of the audits of the governmental entities or relief associations.

PREPARATION OF MINUTES

Auditing for legal compliance will require a review of the minutes of the governing body. In many instances, the minutes will be inadequate histories of the meetings involved. We have, therefore, deemed it appropriate to include below a discussion of minutes, so that in those instances where the minutes are substandard, auditors can provide a standard to assist clients in the future recording of meeting minutes.

Minutes may be defined as a record of the “proceedings” of a deliberative body. Various statutes that refer to taking or publishing minutes use the term “proceedings” or “official proceedings.” *See* Minn. Stat. §§ 384.09 (counties); 412.151, subd. 1 (statutory cities); 367.11(1) (towns); and 123B.09, subd. 10 (school districts). The Minnesota Attorney General has used the definition of “proceedings” found at Minn. Stat. § 331A.01, subd. 6, in analyzing the clerk’s duties to take minutes. This statute states:

“Proceedings” means the substance of all official actions taken by the governing body of a political subdivision at any regular or special meeting, and at minimum includes the subject matter of a motion, the persons making and seconding a motion, the roll call vote on a motion, the character of resolutions or ordinances offered, including a brief description of their subject matter, and whether defeated or adopted.

While minutes must specifically identify the actions taken by the body, they need not record the discussions of the members and others. At a minimum, the minutes must include the information required by Minn. Stat. ch. 13D [Minnesota Open Meeting Law], unless such information is recorded elsewhere. Minn. Stat. § 13D.01, subd. 4, provides:

The votes of the members of the state agency, board, commission, or department; or of the governing body, committee, subcommittee, board, department, or commission on an action taken in a meeting required by this section to be open to the public must be recorded in a journal kept for that purpose. . . . The vote of each member must be recorded on each appropriation of money, except for payments of judgments, claims, and amounts fixed by statute.

In addition, subd. 5 states, “[t]he journal must be open to the public during all normal business hours where records of the public body are kept.”

The above provision requires that the individual votes of each member of the governing body on “an action” be specifically recorded except for votes on “payments of judgments, claims, and amounts fixed by statute.”

Having satisfied minimum requirements, the question of how elaborate and extensive the minutes should be is largely a policy matter for determination by the particular body in the exercise of reasonable judgment and discretion. The Attorney General has explained:

...there may be circumstances in which it would be advisable for the town board to provide for the minutes to include information over and above what is necessary to satisfy minimum statutory requirements for a record of its official actions.

Op. Atty. Gen. 851-C, March 5, 1992. For example, the board’s reasons for reaching a particular decision could be crucial in defending a challenge to the action taken. The inclusion of such information may be deemed appropriate under other circumstances, such as where the body determines that the public interest warrants the award of a particular contract to a bidder other than the lowest bidder.

Other examples might be zoning decisions, such as the granting of variances or special use permits. In any case, the amount of detail which is appropriate for inclusion in the minutes of a particular body is likely to vary, depending upon the nature of the proceedings and the subject matter involved.

While the minutes of a governing body should attempt to furnish relevant information over and above bare minimum requirements, they should not, at the same time, be cluttered with unnecessary detail which hampers efforts to review or otherwise utilize them at a later date. Perhaps the best standard to be applied to the preparation of minutes is the one applied by the courts to the publication of official proceedings, i.e., the minutes should be “sufficiently full to fairly set forth the proceedings.” *Ketterer v. Indep. Sch. Dist. No. 1*, 79 N.W.2d 428, 438 (Minn. 1956); *See Op. Atty. Gen. 161-a-20*, Dec. 17, 1970.

HOME RULE CHARTER CITIES AND STATUTORY CITIES

Our state Constitution provides for the creation of home rule charter cities. Minn. Const. art. XII, § 4. Minnesota Statutes, chapter 410 prescribes the method to create a home rule charter city and the limitations on home rule charter provisions. A home rule charter city may, through its charter, create many of its own rules and limitations as well as related procedural rules.

Statutory cities are cities in which the rights and obligations of the city are prescribed by state statutes. This audit guide was prepared primarily to check for compliance with state statutes. When auditing a home rule charter city, a review of the home rule charter will also be necessary in order to verify legal compliance with the rules unique to that city.

DESTRUCTION OF RECORDS

Minnesota Statutes, section 15.17, subd. 1, requires all officers and agencies of the state, counties, cities, towns, school districts, municipal subdivisions or corporations, and other public authorities or political entities within the state to make and preserve all records necessary for “a full and accurate knowledge of their official activities.” The chief administrative officer is responsible for the preservation and care of the agency’s government records, which include all “written or printed books, papers, letters, contracts, documents, maps, plans, computer-based data, and other records made or received pursuant to law or in connection with the transaction of public business.” Minn. Stat. § 15.17, subd. 2. This duty not only prohibits destruction, but requires the custodian to take such steps as are necessary to protect public records from deterioration, mutilation, loss, or destruction. This statute also requires that all records must be delivered to the legal custodian’s successor upon expiration of the term of office or authority. Minn. Stat. § 15.17, subd. 3. Additional provisions regarding data practices are found in the Minnesota Government Data Practices Act, Minn. Stat., ch. 13.

For political subdivisions having problems with the storage of obsolete records, Minn. Stat. §§ 138.163-.25 provide relief. Any person who intentionally and unlawfully removes, mutilates, destroys, conceals, alters, defaces or obliterates a public record is guilty of a misdemeanor. Minn. Stat. § 138.225.

Unless a municipality adopts a records retention schedule (and notifies the Minnesota Historical Society), it may not destroy public records without the permission of the records disposition panel. Applications may be made to the State Archives Department for such permission. For instance, bids with supporting documents received by a city must be kept forever, unless the city (1) adopts the General Records Retention Schedule for Cities, in which case, the city must maintain these records for ten years, (2) adopts its own properly approved records retention schedule, or (3) receives authority to dispose of the records from the records disposition panel.

A political subdivision that wishes to adopt the appropriate General Records Retention Schedule can find information on the [State Archives website](#).

**DEPOSITORIES OF PUBLIC FUNDS
AND
PUBLIC INVESTMENTS**

LEGAL COMPLIANCE AUDIT GUIDE

DEPOSITORIES OF PUBLIC FUNDS AND PUBLIC INVESTMENTS

Introduction

A government entity that receives and disburses funds may deposit the funds only in financial institutions designated by its governing body. The governing body may authorize its treasurer or chief financial officer to make such designations. The government entity may deposit funds in amounts that are federally insured or, if it deposits more than this amount, it must either have the depository furnish a bond or assign collateral to protect the excess deposit.

“Government entity” for the purpose of this section means:

- a county;*
- a city;*
- a town;
- a school district;
- a hospital district;
- a public authority;
- a public corporation;
- a public commission;
- a special district;
- a political subdivision; and
- [for depository and collateral provisions only – Minn. Stat. §§ 118A.02 and 118A.03] an American Indian tribal government entity located within a federally recognized American Indian reservation.

Minn. Stat. § 118A.01, subd. 2. This section does not apply to entities whose investment authority is specified under Minn. Stat. ch. 11A (Investment of State and Pension Assets), or 356A (Public Pension Fiduciary Responsibility). *Id.*

“Public funds” for the purpose of this section means all general, special, permanent, trust, or other funds, regardless of source or purpose, held or administered by a government entity, unless otherwise restricted. Minn. Stat. § 118A.01, subd. 4.

If the audited government entity is one of those listed, complete this section to determine if the government entity has properly invested its funds or deposited its funds in a properly designated depository with appropriate collateral or bond.

In addition, the depository and collateral requirements of Minn. Stat. §§ 356A.06, subd. 8a, and 118A.03 apply to fire relief associations. Parts I and II should be completed for fire relief associations.

OPEB Trusts – The assets of a trust created to pay postemployment benefits (giving rise to a liability under GASB Stmt. 45) to employees or officers after their termination of service shall be invested and held as provided in Minn. Stat. § 471.6175.

*Note: A “city with a population in excess of 200,000 or a county that contains a city of that size” (currently the two largest cities and counties) and the Metropolitan Council have additional investment authority. *See* Minn. Stat. § 118A.07.

Part I. Designation of Depository
--

§ 118A.02, subd. 1	A. In the case of a government entity:			
	1. Has each depository of public funds been designated by the government entity's governing body, or by its treasurer or chief financial officer, if the governing body has authorized them to make such a designation?			
§ 118A.01, subd. 3	2. Is each depository one of the following:			
	a. a savings association;			
	b. a commercial bank;			
	c. a trust company;			
	d. a credit union; or			
	e. an industrial loan and thrift company?			
§ 356A.06, subd. 8a	B. In the case of a relief association:			
	1. Has each depository for assets, not held by the relief association's custodian bank, been designated by the relief association's governing board?			
	2. Is each depository one of the following:			
	a. a national bank;			
	b. an insured state bank;			
	c. an insured credit union; or			
	d. an insured thrift institution?			

Part II. Insuring or Securing Deposits

§ 118A.03	A. If a government entity desires to deposit an amount in excess of deposit insurance, it must obtain a bond or collateral which, when computed at its market value, shall be at least ten percent more than the amount of the excess deposit at the close of the banking day. For the purpose of this section, "banking day" has the meaning given in Federal Reserve Board Regulation CC, 12 C.F.R. § 229.2(f), and incorporates a financial institution's cutoff hour established under Minn. Stat. § 336.4-108. If irrevocable standby letters of credit from Federal Home Loan Banks are used as collateral, the amount must be equal to the amount of the excess deposit at the close of the banking day.			
	B. Review the following general principles of FDIC coverage and complete the spread sheet in this section to determine the amount of the government entity's funds that is not insured and thus need to be either bonded or collateralized. Deposits held by credit unions are covered by separate deposit insurance rules promulgated by the National Credit Union Administration (NCUA).

	<p>General Principles of FDIC coverage:</p> <ol style="list-style-type: none"> 1. Deposits are insured only if the depository is a member of FDIC. 2. Deposits in one depository are insured separately from deposits in another depository which is not a branch of the first one. However, a depository and all of the branches associated with it are treated as a single combined depository, and the funds deposited in the branches are aggregated for purposes of insurance coverage. 3. The aggregate of a government entity's time/savings accounts, i.e., savings accounts, NOW accounts, and time deposits (CDs), with the same depository are insured up to a total of \$250,000. The aggregate of a government entity's demand accounts, i.e., non-interest and interest-bearing checking accounts, are insured up to a total of \$250,000 and are insured separately from the government entity's time/savings deposits. This separate \$250,000 coverage for demand and time/savings accounts only applies if the depository is in the same state as the government entity. 4. A public authority, public corporation, public commission, or special district receives separate insurance coverage from its parent government entity only if its creation is expressly authorized by state statute, government functions have been delegated to it by law, and funds have been allocated for its exclusive use and control. Subordinate or non-autonomous divisions, agencies, or boards do not receive separate insurance coverage. 5. Funds held for a special purpose and required by law to be paid to bondholders or beneficiaries such as members of pension funds or relief associations are covered up to \$250,000 per bondholder or beneficiary whether the beneficial interest is vested or not. The fiduciary nature must be indicated on the account name in the bank's records. 6. If more than one person is legal or official custodian of funds for a government entity, each custodian having plenary authority (including control) over the funds is separately insured up to \$250,000. Also, if the same person is the custodian of funds for two separate government entities, the funds for the two government entities are separately insured. 7. Moneys held by a government entity in trust are insured separately from other government entity funds only <u>if</u> the trust is linked to a written trust agreement, court order or statute, the owner does not retain an interest in the use of the assets, and the interests of beneficiaries are ascertainable and not contingent. 			
	<p>C. Was collateral coverage sufficient? (Answer after completing the spreadsheet on page 1-11.)</p>

§ 118A.03, subd. 1	<p>A. If a bond was furnished by the depository to the government entity, answer the following question:</p>			
	<p>1. Was the bond executed by a corporate surety company authorized to do business in the state?</p>

	b. issues of a U.S. government agency or instrumentality that are quoted by a recognized industry quotation service available to the government entity;

	g. time deposits insured by any federal agency?			
	2. Was the collateral placed for safekeeping:			
	a. In a restricted account at the Federal Reserve Bank; or			
	b. in an account at a trust department of a commercial bank or other financial institution not owned or controlled by the depository?			
	3. Did the government entity approve of the selection of the safekeeping entity?			
	4. Was the collateral assignment in writing?			
	5. Did the assignment provide that, upon default, the depository shall release the collateral pledged to the government entity on demand, free of exchange or other charges?			
§ 118A.03, subd. 3	<p>C. Collateral pledged must equal at least ten percent more than the uninsured and unbonded amount on deposit at the close of the banking day. If irrevocable standby letters of credit from Federal Home Loan Banks are used, the amount must be equal to the amount of the excess deposit at the close of the banking day. The depository may, at its discretion, furnish both a bond and collateral aggregating the required amount.</p> <p>For the purpose of this section, "banking day" has the meaning given in Federal Reserve Board Regulation CC, 12 C.F.R. § 229.2(f), and incorporates a financial institution's cutoff hour established under Minn. CONFLICTS OF INTEREST

LEGAL COMPLIANCE AUDIT GUIDE

CONFLICTS OF INTEREST

Introduction

Rule: A public officer authorized to take part in the making of a sale, lease, or contract shall not voluntarily have a personal financial interest in the transaction or personally benefit financially from it. Minn. Stat. § 471.87. The following persons are specifically forbidden from having any interest in any contract made by their respective governing bodies:

1. elected officers;
2. town supervisors and town board members;
3. county officials, county deputies, county clerks, and employees of such officials; or
4. school board members.

Exceptions: For practical reasons, the legislature has created certain limited exceptions to the general prohibition. Exceptions apply to port authorities, seaway port authorities, economic development authorities, watershed districts, soil and water conservation districts, towns, school districts, hospital districts, counties and cities. Minn. Stat. § 471.88. Part I of this questionnaire will assist you in making a determination as to whether an otherwise forbidden transaction fits within any of the statutory exceptions. Care should be taken to determine whether any exception considered applies to the entity and contract being audited.

For the purposes of this checklist, “interested officer” shall mean a public officer or employee, as listed above, who directly or through his or her spouse (see “Discussion” below) has a prohibited position or interest in either the entity making or the subject matter of the sale, lease, or contract with the governing body. Examples include:

1. officer;
2. director;
3. employee (see “Discussion” below);
4. partner;
5. owner (complete or partial); or
6. shareholder.

Discussion: The determination as to whether a particular transaction involves an “interested officer” often calls for a judgment on the part of the auditor. A helpful concept to remember for analysis is that it is a conflict of interest to be on both sides of a contract or transaction.

Most problems in this regard arise in the examination of the “interest” the public officer has in the person or entity making the contract with the governing body. Two frequent problem areas are:

1. Contracts with Officer’s or Employee’s Spouse or Family Member.

It is not a conflict of interest per se for a governing body to contract or otherwise economically transact with a member officer’s spouse or family member. However, if the facts indicate an economic benefit to the member officer as a result of the contract or transaction, a conflict of interest exists. For example, if a husband and wife, one of whom is a public officer, share a common pool of funds and likewise share debts, conflicts may exist because there is benefit to the public officer or employee flowing from the economic benefit to his or her spouse. Likewise, if a governmental officer or employee and his or her spouse, in fact, do not economically benefit from each other, a conflict may not exist. This analysis would apply to all familial relationships. The auditor will need to factually determine whether an emancipated child living away from home has a financial interest with his or her parents.

A provision regarding employee contracts involving spouses of school board members was enacted in 2008. See Minn. Stat. § 471.88, subd. 21. This provision has been added to the checklist.

2. Contracts with Companies in Which the Officer is an Employee.

If the involved governmental officer or employee is simply a company employee without managerial powers and receives the same salary or raise regardless of the company’s contract with the governing body, there probably is no conflict of interest. However, if said officer receives a bonus or commission or other benefit as a result of the contractual transaction between his or her company and the government entity, there is definitely a conflict of interest.

There are numerous aspects to be examined by the auditor in order to understand the totality of interests involved in a given contract or transaction between the governing body and an entity or person with a relationship to a member officer.

If, after review of the facts and applicable statutes, you are still unsure as to whether a particular set of circumstances constitutes a conflict of interest, you should contact an attorney for advice prior to preparing the “Audit Conclusion” at the end of this audit guide section.

Other Statutory References to Conflicts of Interest. In addition to the general statutory prohibition on conflicts of interest cited in the checklist, auditors should be aware that other statutory prohibitions and requirements exist with regard to certain types of municipal entities:

PUBLIC INDEBTEDNESS

Introduction

The power of a government unit to incur indebtedness is governed by statutory and home rule charter provisions. Statutory provisions vary depending on the type of government unit involved.

Each type of borrowing instrument may also be governed by different statutes. Therefore, it is essential that the auditor examine the specific statutes or charter provisions that are applicable to the particular borrowing transaction.

This questionnaire is intended only to highlight certain general provisions of the Minnesota statutes relating to indebtedness and is not intended to cover all questions that may be pertinent.

Which of the following types of borrowing has the municipality been involved with during the past year? Please check all forms of borrowing that have either been issued or redeemed during the past year or which are currently outstanding at year-end.

CONTRACTING - BID LAWS

LEGAL COMPLIANCE AUDIT GUIDE CONTRACTING - BID LAWS

Introduction

A municipality entering into an agreement for the sale or purchase of supplies, materials, equipment or the rental thereof, or the construction, alteration, repair or maintenance of real or personal property must abide by the statutes relating to contracting and bidding. In addition, for counties, such statutory requirements also apply to contracts for “work or labor.”

A municipality, for the purpose of this section, is a county, town, city, school district, or other municipal corporation or political subdivision of the state authorized by law to enter into contracts. Each contract must be approved by the appropriate authority, as authorized by statute or charter, within the municipality.

If the audited governmental unit is one of the listed types of municipalities and it has the power to contract, complete the questionnaire to determine if the municipality conformed to the contracting and bidding statutes.

Minn. Stat. § 471.345, the Uniform Municipal Contracting Law, was established to provide dollar limits for all municipalities upon contracts which shall or may be entered into on the basis of competitive bids, quotations, or purchase or sale in the open market. Vendors may now submit bids, quotations, and proposals electronically in a form and manner required by the municipality. Minn. Stat. § 471.345, subd. 18. Generally, the following thresholds apply:

1. For contracts over \$100,000 – sealed bids, solicited by public notice and subject to the particular requirements of the governmental subdivision.
2. For contracts from \$25,000 to \$100,000 – sealed bids or direct negotiation, with two quotations whenever possible.
3. For contracts of \$25,000 or less – open market or quotations (with at least two contract quotations, if practicable).

In addition, Minn. Stat. § 471.345, subs. 16 and 17, allow municipalities to purchase supplies, materials, and equipment using an electronic reverse auction process; and to sell supplies, materials, and equipment which is surplus, obsolete, or unused using an electronic selling process.

Best value procurement is a process based on competitive proposals (as an alternative to bids) that awards the contract to “the vendor or contractor offering the best value, taking into account the specifications of the request for proposals, the price and performance criteria as set forth in [Minn. Stat. § 16C.02, subd. 4a] and described in the solicitation document.” Minn. Stat. § 16C.28, subd. 1(a)(2). Before administering best value procurement procedures, personnel must be trained in the best value RFP process. *See* Minn. Stat. § 16C.03, subd. 19.

In 2013, the Minnesota Legislature enacted Minn. Stat. § 471.3457. This statute authorizes local governments to implement programs to provide bid preferences to designated veteran-owned small businesses, as provided in Minn. Stat. § 375.771, in awarding service contracts and contracts as defined in Minn. Stat. § 471.345.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

[governing body]
[entity]

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of *(list related opinion units)* of _____ as of and for the year ended _____, and the related notes to the financial statements, which collectively comprise the _____'s basic financial statements, and have issued our report thereon dated _____.

Internal Control over Financial Reporting*

In planning and performing our audit of the financial statements, we considered _____'s internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the _____'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the _____'s internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the _____'s financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in

internal control over financial reporting that might be material weaknesses or significant deficiencies. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters**

As part of obtaining reasonable assurance about whether _____'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

_____’s responses to the internal control and legal compliance findings (*adjust as necessary for what they responded to*) identified in our audit have been included in the Schedule of Findings and Questioned Costs. The _____’s responses were not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the _____’s internal control over financial reporting or on compliance. *paragraphs to be used when no significant deficiencies or material weaknesses are identified.

- If significant deficiencies, but no material weaknesses are identified, use the following wording:

In planning and performing our audit of the financial statements, we considered _____’s internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the _____’s internal

control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the _____'s internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the _____'s financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies (**a deficiency**) in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as item (*list item numbers*) that we consider to be significant deficiencies (**a significant deficiency**).

- If material weaknesses are identified, use the following wording:

In planning and performing our audit of the financial statements, we considered _____'s internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the [entity type]'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the _____'s internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies (**a deficiency**) in internal control over financial reporting that we consider to be material weaknesses (a material weakness) and significant deficiencies. (**If no significant deficiencies, adjust last sentence.**)

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial

reporting such that there is a reasonable possibility that a material misstatement of the _____'s financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs, as items *[list finding numbers]* to be material weaknesses.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs, as items *[list finding numbers]* to be significant deficiencies. **[Use this paragraph when there are also significant deficiencies that are not material weaknesses.]**

******Paragraph to be used when there are no reportable instances of noncompliance or other matters.

- If instances of noncompliance are reported, use following wording:

As part of obtaining reasonable assurance about whether _____'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying Schedule of Findings and Questioned Costs as items *(list related finding reference numbers)*.

*******Paragraph when there are no legal findings.

- If legal compliance findings are reported, use the following wording:

In connection with our audit, nothing came to our attention that caused us to believe that _____ failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, except as described in the Schedule of Findings and Questioned Costs as items *(list related finding reference numbers)*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the _____'s noncompliance with the above referenced provisions.

LEGAL COMPLIANCE AUDIT GUIDE

UNIFORM FINANCIAL ACCOUNTING AND REPORTING STANDARDS (UFARS) FOR MINNESOTA SCHOOL DISTRICTS AND CHARTER SCHOOLS

Introduction

Minnesota law requires that the audits of all school districts, all governmental units formed by joint powers agreements entered into by school districts, and all service cooperatives and education districts must include a determination of compliance with uniform financial accounting and reporting standards (UFARS). Minn. Stat. §§ 6.65; 123B.77, subd. 3. This requirement applies to charter schools under Minn. Stat. § 124D.10, subd. 8 (j).

Minn. Stat. § 6.65 states (emphasis added):

The state auditor shall prescribe minimum procedures and the audit scope for auditing the books, records, accounts, and affairs of political subdivisions in Minnesota. The minimum scope for audits of all political subdivisions must include financial and legal compliance audits. Audits of all school districts must include a determination of compliance with uniform financial accounting and reporting standards. The state auditor shall promulgate an audit guide for legal compliance audits, in consultation with representatives of the state auditor, the attorney general, towns, cities, counties, school districts, and private sector public accountants.

Minn. Stat. § 123B.77, subd. 3, states (emphasis added):

By November 30 of the calendar year of the submission of the unaudited financial data, the district must provide to the commissioner audited financial data for the preceding fiscal year. The audit must be conducted in compliance with generally accepted governmental auditing standards, the federal Single Audit Act, and the Minnesota legal compliance guide issued by the Office of the State Auditor. An audited financial statement prepared in a form which will allow comparison with and correction of material differences in the unaudited financial data shall be submitted to the commissioner and the state auditor by December 31. The audited financial statement must also provide a statement of assurance pertaining to uniform financial accounting and reporting standards compliance and a copy of the management letter submitted to the district by the school district's auditor.

Uniform Financial Accounting and Reporting Standards (UFARS)

The uniform financial accounting and reporting standards to be used by school districts for automated state reporting purposes are described in the [UFARS Manual](#) and in School Business Bulletins issued by the Minnesota Department of Education. The UFARS Manual and School Business Bulletins provide an account code structure and guidance on application of accounting principles. At any point in time, parts of the UFARS Manual may have been superseded by legislative, program, and accounting principle changes. The School Business Bulletins serve as updates to the UFARS Manual for such changes. It is the auditor's responsibility to stay abreast of current developments.

UFARS Compliance

In order to determine compliance with UFARS, the auditor should consider the following items.

Account Coding

Conformance with UFARS includes the classification of revenues and expenditures into appropriate UFARS codes. UFARS revenue and expenditure codes consist of 17 digits organized into six dimensions. Chapter Ten of the [UFARS Manual](#) defines how the six dimensions may be combined into valid 17-digit codes for state reporting purposes.

1. Revenue and expenditure account codes that have been developed by school districts for their internal use must be linked (crosswalked) to the appropriate 17-digit UFARS codes. In some cases, the internal district code bears little resemblance to the UFARS code. The underlying UFARS codes, not the district codes, are used for automated reporting to the state.
2. Audit procedures should be developed to ensure that revenues and expenditures have been recorded in the proper UFARS codes.
 - A. Such procedures must include tests of controls as identified in and where required by the American Institute of Certified Public Accountant's (AICPA) Statement of Auditing Standards – Clarity, Section AU-C 330, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained*. The procedures developed should be in response to assessed risks identified pursuant to Section AU-C 315, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement*. Sampling may be used to determine the reasonableness of recorded UFARS amounts and classifications based on examination of source documentation.
 - B. Such audit procedures may include the following:
 - Verify appropriate UFARS coding as part of a test of transactions (individual revenue and expenditure transactions).
 - Test linkage (crosswalk) of internal use account codes to the appropriate 17-digit UFARS codes.
 - Review the “UFARS Turnaround Edit Report” for errors. (To access the report, select “Minnesota Funding Reports (MFR)” at <http://w20.education.state.mn.us/MDEAnalytics/Data.jsp>, then use the drop downs.)
 - Verify appropriate UFARS coding as part of testing of revenue and expenditure account totals for the year.
 - Other tests that are considered necessary.

Auditors should use their judgment in determining the nature, timing, and extent of testing necessary to provide a statement of assurance pertaining to UFARS compliance.

Audit Reporting

The Auditor's Report on Compliance should indicate that the audit was conducted to determine conformance with UFARS standards. Chapter Six of this audit guide includes suggested wording for Auditor's Reports on Compliance.

CHARTER SCHOOLS

TAX INCREMENT FINANCING

LEGAL COMPLIANCE MANUAL

TAX INCREMENT FINANCING

Introduction

Tax increment financing (TIF) is a financing tool created to promote economic development, redevelopment, and housing in areas where it would not otherwise occur. A TIF authority may be a city, county, or an entity created by a city or county, such as a housing and redevelopment authority (HRA) or economic development authority (EDA). The TIF authority creates, and the municipality approves the establishment of, the TIF district. The county auditor certifies a TIF district and determines the original net tax capacity.

The authority captures the property tax revenues generated by the increase in net tax capacity resulting from the new development and uses this increase in property tax revenues, (the tax increments), to finance qualifying expenditures related to the new development. These qualifying expenditures generally relate to acquisition, clean up, and preparation of the site for construction. Each TIF district has a term of years depending on the type of district. Once the costs are paid and the TIF district is decertified, the tax base becomes fully available to the county, city, and school district for financing local services.

The Office of the State Auditor prepares Statements of Position to provide an educational resource to local governments, auditors and the public. Statements of Position on Tax Increment Financing topics are available on the Office of the State Auditor website. See <http://www.auditor.state.mn.us/default.aspx?page=statements>.

Auditors should determine whether any special laws applicable to the municipality or authority affect the general legal standards related to tax increment financing. Special laws are common with TIF, and are found in Table 1 of Minnesota Statutes.

Part I. Segregation/Tax Increment Revenues

§ 469.174, subd. 25	Note: Tax increment includes: 1. Taxes paid by the captured net tax capacity, but excluding any excess taxes, as computed under section 469.177; 2. The proceeds from the sale or lease of property, tangible or intangible, to the extent the property was purchased by the authority with tax increments received after June 30, 1997; 3. Principal and interest received on loans or other advances made by the authority with increments after June 30, 1997; 4. Interest or other investment earnings on or from tax or from tax increments received after July 1, 1997; and 5. Repayments or return of tax increments made to the authority under agreements for districts for which the request for certification was made after August 1, 1993.			
§ 469.177, subd. 5	Did the authority segregate tax increment from this district in a special account or accounts on its official books and records, or segregate it as otherwise established by resolution to be held by a trustee for the benefit of bondholders?			

Part II. Interfund Loans

§ 469.178, subd. 7	For interfund loans made after July 31, 2001, to finance TIF eligible expenditures, was the loan or advance authorized by resolution before the money was transferred, advanced, or spent, whichever is earliest?			
§ 469.178, subd. 7	Are the terms and conditions for repayment of the loan in writing, and do they include, at a minimum, the principal amount, the interest rate, and the maximum term?			
§ 469.178, subd. 7	Does the interest rate on the loan or advance not exceed the greater of the rates specified under section 270C.40 or 549.09?

Part III. Four-Year Knock Down Rule

§ 469.176, subd. 6	Note: If, after four years from the date of certification of the original net tax capacity of the district, no demolition, rehabilitation, or renovation of property or other site preparation, including qualified improvement of a street adjacent to a parcel but not installation of utility service including sewer and water systems, has commenced on a parcel in the district, no additional increment may be taken from that parcel, and the original net tax capacity of that parcel shall be excluded from the original net tax capacity of the district.			
	Did the TIF authority submit to the county auditor, by February 1 of the fifth year following the year in which the parcel was certified, evidence that the required activity has taken place on each parcel in the district?

Part V. Pooling Restrictions / Five-Year Rule / Six-Year Rule						
§ 469.1763, subds. 2, 3, 4	Compliance with Pooling Limits and the Six-Year Rule					
<p>Compliance with overall pooling limits are determined annually. In-district activities qualifying under the Five-Year Rule are determined at the end of the fifth year. Beginning in the sixth year, the pooling limit applies to each year's increment distributions in addition to the overall limit for all years, and the district must be decertified when the tax increment collected from properties in the district is equal to or more than the tax increment obligations for activities qualifying for under the Five-Year Rule as described in A through E below. Double counting is not permitted.</p> <p>This section applies only to TIF districts with certification request dates after April 30, 1990.</p> <ul style="list-style-type: none"> • The overall pooling limit requires redevelopment districts to spend 75% of increment on activities in the district and allows 25% to be spent outside the district but within the project area. • Districts other than redevelopment districts that that have a certification request date after April 30, 1990 and before July 1, 1995, are subject to the same 75%/25% limits. • Districts other than redevelopment districts with a certification request date after June 30, 1995, are limited to 80% in-district and 20% out-district. <p>The limit only applies to tax increment paid by properties in the district (distributed by the county to the TIF authority). It does not apply to tax increment from sale and lease proceeds, interest earnings, or repayments or returns of increments.</p> <p>For more information, see the Office of the State Auditor's Statements of Position entitled, TIF Pooling and TIF Five-Year Rule and Six-Year Rule.</p> <p>Note: The five-year period is <u>ten years</u> for redevelopment districts or renovation and renewal districts certified after June 30, 2003, and <u>eight years</u> for redevelopment districts certified after April 20, 2009, and before June 30, 2012.</p>						
§ 469.1763, subds. 2	1.	For increment collected to date from properties in the district, was the required in-district percentage (75% or 80%, <i>see above</i>), at a minimum, spent or reserved for expenditures on in-district activities described in A through E below?				

§ 469.1763, subd. 4	2. For increment collected in the current year, if the current year is the sixth year since certification of the district or later, were out-district expenditures less than the permitted pooling percentage where the required in-district percentage, at a minimum, has been spent or reserved for expenditures on in-district activities described in A through E below?			
§ 469.1763, subd. 4	3. If the current year is the sixth year since certification or later, and if the tax increment collected was equal to or more than the total tax increment expended or obligated to be expended on in-district activities as described in A through E, was the district decertified by the end of the year in which the tax increment revenues were collected?			
§ 469.1763, subds. 1 & 3	<p align="center">Tax Increment Expended on Activities Within the District</p> <p>A. Before or within five years after certification of the district the tax increment revenues are actually paid to a third party with respect to the activity.</p> <p>Note: "Third Party" is defined to mean "an entity other than (1) the person receiving the benefit of assistance financed with tax increments, or (2) the municipality or the development authority or other person substantially under the control of the municipality."</p>			
	B. Before or within five years after certification of the district, bonds, the proceeds of which must be used to finance the activity, are issued and sold to a third party where:			
	1. The bond proceeds, on the date of issuance are reasonably expected to be spent before the end of the later of (i) the five-year period, or (ii) a reasonably temporary period within the meaning of the use of that term under section 148(c)(1) of the Internal Revenue Code, or deposited in a reasonably required reserve or replacement fund.			
	2. Tax increment revenue was spent to repay the bonds.			
	C. Before or within five years after certification of the district, binding contracts with a third party are entered into for performance of the activity, and the tax increment is spent under the contractual obligation.			
	D. Before or within five years after certification of the district, the costs of the activity are paid, and tax increment is spent to reimburse a party for the payment of those costs, including interest on unreimbursed costs.			
	E. Expenditures are made for housing purposes as permitted by Minn. Stat. § 469.1763, subdivision 2, paragraphs (b) and (d) or for public infrastructure purposes within a biotechnology and health sciences zone as permitted by Minn. Stat. § 469.1763, subdivision 2, paragraph (e).			
§ 469.1763, subd. 1(b)	<p>NOTE: Revenues derived from tax increment are considered to have been expended on an in-district activity under Minn. Stat. § 469.1763, subdivision 2, only if one of the above occurs. An activity includes, for example, acquisition of property, clearing of land, site improvements, soil correction, removal of hazardous waste or pollution, installation of utilities and other similar activities, but only to the extent that tax increment revenues may be spent for such a purpose under the law.</p>			
§ 469.1763, subd. 2(b)	Bonds include refunding bonds if the original bonds meet the requirements.
