*In 2018-2020 the number of Part I and Part II crimes were measured for public safety. This data is no longer available; therefore, a switch was made in 2021 to the number of accidents.

**2018-2022 the average bridge sufficiency rating was measured for public works. This data is no longer available; therefore, a switch was made in 2023 to number of hours to plow complete system during snow even.t

*** Per capita debt for 2020 appears inflated because the county borrowed money in 2020 to refinance the courthouse debt so that on 12/31/20 the county held both the “old” debt and the “new” debt. The “old” debt was repaid with the new bond proceeds and the effective debt per capita for 2020 is \$760.51.
