

STATE OF MINNESOTA

Office of the State Auditor

Rebecca Otto
State Auditor

Minnesota City Finances

2013 Revenues, Expenditures, and Debt

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 150 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 700 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Scope and Methodology

This publication is intended to help local government officials, policy makers, and the public understand city financial operations. The report summarizes, through data tables and charts, the financial operations of the 853 Minnesota cities that provided their financial information to the Office of the State Auditor for calendar year 2013.¹ Minnesota cities are required to submit annual financial reports to the Office of the State Auditor pursuant to Minn. Stat. §§ 6.74-.75 and §§ 471.697-.698.

The data tables presented in this report are divided into governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Capital Projects, Permanent, and Debt Service Funds. The first section of the report provides an overview of all cities and compares cities over and under 2,500 in population. The second section of the report presents a detailed overview of the financial operations of cities over 2,500 in population (large cities). The third section provides a detailed overview of the financial operations of cities under 2,500 in population (small cities).²

Following the overviews, Tables 6 and 7 present a summary of the activities in the governmental funds of all cities. Tables 8 through 11 present a summary of the governmental funds of cities over 2,500 in population. Tables 12 through 14 present a summary of the governmental funds of cities under 2,500 in population.³ Tables 15 through 17 present the data by individual city.

Table 18 lists the bonded and other long-term debt outstanding as of December 31, 2013, by individual city. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

Tables 19 and 20 present an analysis of the 2012 and 2013 unrestricted fund balances in the General and Special Revenue Funds of all cities reporting on a modified accrual basis. Table 19 details the actual unrestricted fund balances and a comparison to 2013 total current expenditures, by city. Table 20 presents the fund balance data sorted by unrestricted fund balance as a percent of total current expenditures.

¹The report provides information on all 853 of Minnesota cities. Three cities (Dundee, Jeffers, and Woodstock) failed to comply with the reporting requirements of Minn. Stat. §§ 6.74-.75 and §§ 471.697-.698. Failure to comply with these reporting requirements results in the Office of the State Auditor not certifying a city as eligible to receive Local Government Aid (LGA).

²City classifications are designated based on the decennial census. This report uses the class designations based on the 2010 census population figures. Cities over 2,500 in population are designated as first, second, third, and fourth class based on their population. All cities under 2,500 in population are designated as fifth class cities.

³Due to rounding, percentages shown for totals may not equal the sum of the individual percentages.

Starting in fiscal year 2011, cities using a modified accrual basis of accounting and reporting on a generally accepted accounting principles (GAAP) basis were required to implement the Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement 54 defines the classifications of fund balance based on the focus of the constraints placed on the use of current fund balance. The Statement also identifies the governmental fund type definitions.⁴

Under GASB Statement 54, cities using a modified accrual basis of accounting report separate fund balances for all of their governmental funds and denote the amounts that fall under the following classifications: *nonspendable, restricted, committed, assigned, and unassigned*. (Previously the classifications were *reserved, unreserved designated, and unreserved undesignated*.) The *committed, assigned, and unassigned* classifications are considered the unrestricted portion of the fund balance and replace the unreserved classifications previously used for this analysis. Cities using a cash basis of accounting report a single cash balance for all governmental funds at the end of the fiscal year. An analysis of unrestricted fund balance for cities using a cash basis of accounting is therefore not appropriate, and is not provided. Appendix A provides a more detailed discussion of fund balances.

Table 21 shows municipal enterprises by city. Minnesota cities operate many types of public service enterprises. These enterprises furnish a variety of services and operate wholly or primarily with revenues derived from the sale of goods or services.

In addition to this publication, the Office of the State Auditor maintains an interactive database containing several years of data that can be accessed through the website at: <http://www.auditor.state.mn.us/default.aspx?page=ComparisonTools>.

Accounting Difference for Cities Over and Under 2,500 in Population

For cities in Minnesota, the classification as over or under 2,500 in population helps to determine the type of governmental accounting to which they must adhere. All cities over 2,500 in population must have a financial statement in compliance with generally accepted accounting principles (GAAP), which is a modified accrual basis of accounting. The modified accrual basis of accounting recognizes an economic transaction or event as revenues in the operating statement when the revenues are both measurable and available to liquidate liabilities of the current period. Available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Similarly, expenditures are generally recognized when an event or transaction is expected to draw on current expendable resources.

Cities under 2,500 in population may opt to use a cash basis of accounting. In 2013, 342 of the 628 small cities (54.5 percent) that reported their financial information opted to use a cash basis of accounting. Cash basis accounting provides for the recording of receipts (revenues) when received in cash and the recording of disbursements (expenditures) when paid in cash.

⁴For a more detailed discussion of GASB 54, please see Office of the State Auditor's Statement of Position on the topic, [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54](#).

Executive Summary

Current Trends - All Cities

- Total revenues of the governmental funds for all Minnesota cities totaled \$4.83 billion in 2013. This represents an increase of 0.2 percent over 2012 revenues. Total revenues of cities over 2,500 in population increased 0.4 percent, and revenues of cities under 2,500 in population decreased 1.5 percent (pg. 5).
- Total expenditures of the governmental funds for all cities totaled \$5.38 billion in 2013. This represents a decrease of 0.3 percent from 2012. Total expenditures of cities over 2,500 in population increased 0.1 percent, while total expenditures for cities under 2,500 in population decreased 4.1 percent (pg. 5).
- The largest expenditure categories for both groups of cities are streets and highways and public safety. For large cities, streets and highways accounted for 22.9 percent of total expenditures, and public safety accounted for 27.2 percent. For small cities, streets and highways accounted for 22.2 percent of total expenditures, and public safety accounted for 22.1 percent (pg. 5).
- Overall, small cities tend to carry a greater debt burden per capita than large cities. In 2013, small cities carried long-term debt of \$1.19 billion, or \$3,104 per capita, compared to \$8.10 billion, or \$1,988 per capita, for large cities (pg. 6).
- In 2013, unrestricted fund balances as a percent of current expenditures averaged 45.5 percent for large cities, compared to 96.3 percent for small cities (pg. 6).

Current Trends - Cities Over and Under 2,500 in Population

- In 2013, cities over 2,500 in population, or large cities, had total governmental revenues of \$4.39 billion. This represents an increase of 0.4 percent over 2012 levels. The primary revenue sources for large cities were taxes and state grants, which accounted for 68.0 percent of all large city revenues. Cities over 2,500 in population expended \$4.88 billion from governmental funds to provide city services. This represents an increase of 0.1 percent over 2012 total governmental expenditures (pgs. 11-12).
- In 2013, cities under 2,500 in population, or small cities, had total governmental revenues of \$433.8 million to finance city services. This represents a decrease of 1.5 percent from 2012. Cities under 2,500 in population expended \$504.3 million from governmental funds to provide city services. This represents a decrease of 4.1 percent from 2012 total governmental expenditures (pgs. 18-19).

Ten-Year Trends - All Cities

Governmental Revenues

- Over the ten-year period of 2004 to 2013, an examination of city finances shows that, when adjusted for inflation,⁵ 2013 revenue levels are below 2004 levels and decreased by 9.9 percent over that period of time (pg. 7).
- Between 2004 and 2013, actual revenues derived from property taxes grew 68.4 percent, compared to an increase of 2.3 percent for revenues derived from intergovernmental sources. Additional analysis of actual intergovernmental revenues shows uneven trends over the ten-year period; federal grants increased 16.5 percent, state grants decreased 1.5 percent, and local grants increased 8.2 percent. When revenues are adjusted for inflation, the ten-year period shows a 25.8 percent increase in property tax revenues, while intergovernmental revenues decreased 23.6 percent (pg. 7).
- The proportion of total revenues derived from property taxes grew from 29.1 percent in 2004 to 40.6 percent in 2013. During this same time frame, revenues derived from intergovernmental sources decreased from 28.3 percent of total revenues to 24.0 percent (pg. 7).

Governmental Expenditures

- Actual total city expenditures grew from \$4.78 billion in 2004 to \$5.38 billion in 2013. This represents an increase of 12.7 percent. Over the ten-year period of 2004 to 2013, an examination of city finances shows that, when adjusted for inflation, 2013 expenditure levels are below 2004 levels and decreased 15.8 percent over the ten-year period (pg. 9).
- Over the ten-year period, when adjusted for inflation, total current expenditures increased 1.0 percent, capital outlays declined 37.3 percent, and debt service decreased 32.5 percent (pg. 10).

⁵“Adjusted for inflation” and “constant dollars” refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments setting 2004 as the base year (N.I.P.A. Table 1.1.9, January 2015).

Comparison and Overview

2013 Finances for All Minnesota Cities

Revenues

Total revenues of the governmental funds for all Minnesota cities totaled \$4.83 billion in 2013. This represents an increase of 0.2 percent over 2012 revenues. Total revenues of cities over 2,500 in population increased 0.4 percent, and revenues of cities under 2,500 in population decreased 1.5 percent.

There are two central differences between cities over and under 2,500 in population as to how they fund services. Cities under 2,500 in population (small cities) are much more dependent on intergovernmental revenues than cities over 2,500 (large cities). In 2013, intergovernmental revenues accounted for 36.7 percent of total revenues for small cities, compared to 22.8 percent for large cities. Among all cities, intergovernmental revenues accounted for 24.0 percent of total revenues.

The second difference is the reliance on tax revenues. Because large cities receive a much smaller portion of their revenues from intergovernmental sources, they more commonly utilize tax revenue streams such as tax increments, franchise, lodging, and local sales taxes. As a whole, 2013 tax revenue from all sources accounted for 51.8 percent of large city revenues, compared to 37.9 percent of small city revenues. Property taxes accounted for 41.1 percent of large city revenues, compared to 35.5 percent for small cities.

On a per capita basis, large cities had total revenues of \$1,078, and small cities had total revenues of \$1,129.

Expenditures

Total expenditures of the governmental funds for all cities totaled \$5.38 billion in 2013. This represents a decrease of 0.3 percent from 2012. Total expenditures of cities over 2,500 in population increased 0.1 percent, while total expenditures for cities under 2,500 in population decreased 4.1 percent.

The spending priorities of cities under 2,500 in population differ from those of cities over 2,500 in population. For example, small cities tend to direct a greater percentage of their resources to general government (16.3 percent) and less to culture and recreation (7.7 percent) than cities over 2,500 (10.5 percent and 12.9 percent, respectively). The largest expenditure categories for both groups of cities are streets and highways and public safety. For large cities, streets and highways accounted for 22.9 percent of total expenditures, and public safety accounted for 27.2 percent. For small cities, streets and highways accounted for 22.2 percent of total expenditures, and public safety accounted for 22.1 percent.

Long-Term Debt

Another area where small and large cities (under and over 2,500 in population) differ is in the amount of debt per capita. Overall, small cities tend to carry a greater debt burden per capita than large cities. In 2013, small cities carried long-term debt of \$1.19 billion, or \$3,104 per capita, compared to \$8.10 billion, or \$1,988 per capita, for large cities. While there is no single reason for the higher level of indebtedness per capita among the smaller cities, a primary reason is that the high costs of projects such as wastewater treatment facilities and water and sewer line replacement are spread across fewer people.

Unrestricted Fund Balances of the General and Special Revenue Funds

A clear difference between the two city types is in the level of unrestricted fund balances. Small cities maintain significantly higher fund balances than large cities. In 2013, unrestricted fund balances as a percent of current expenditures averaged 45.5 percent for large cities, compared to 96.3 percent for small cities.

Among the 287 small cities that reported a fund balance in 2013, 140 (48.8 percent) had an unrestricted fund balance greater than 100 percent of total current expenditures. Among the 225 large cities, 27 cities (12.0 percent) had an unrestricted fund balance greater than 100 percent of total current expenditures. In 2013, unrestricted fund balances as a percent of total current expenditures among small cities ranged from -77.4 percent in Biwabik to 538.7 percent in Harris. Among large cities, the range was from 6.6 percent in Two Harbors to 336.0 percent in Bayport.

The Office of the State Auditor recommends that at year-end, or other key times of the year, local governments that rely significantly on property tax revenues maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures. If the local government's unrestricted fund balance is less than or greater than this recommendation, the local government should be able to explain the reason for the difference.

The Office of the State Auditor recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level. The Office of the State Auditor's Statement of Position on Fund balance can be found on our website at the following link:

[*Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54*](#)

Ten-Year Trends

Governmental Revenues

Over the ten-year period of 2004 to 2013, an examination of city finances shows that, when adjusted for inflation,⁶ 2013 revenue levels are below 2004 levels and decreased by 9.9 percent over that period of time.

An examination of city revenues from 2004 to 2013 shows that, in actual dollars, revenues grew from \$4.0 billion in 2004 to \$4.83 billion in 2013, an increase of 20.6 percent. When adjusted for inflation, 2013 revenues are 9.9 percent less than in 2004. Figure 1 below illustrates this trend.

Between 2004 and 2013, actual revenues derived from property taxes grew 68.4 percent, compared to an increase of 2.3 percent for revenues derived from intergovernmental sources. Additional analysis of actual intergovernmental revenues shows uneven trends over the ten-year period; federal grants increased 16.5 percent, state grants decreased 1.5 percent, and local grants increased 8.2 percent. When revenues are adjusted for inflation, the ten-year period shows a 25.8 percent increase in property tax revenues, while intergovernmental revenues decreased 23.6 percent.

⁶“Adjusted for inflation” and “constant dollars” refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments setting 2004 as the base year (N.I.P.A. Table 1.1.9, January 2015).

In addition, the proportion of total revenues derived from property taxes grew from 29.1 percent in 2004 to 40.6 percent in 2013. During this same time frame, revenues derived from intergovernmental sources decreased from 28.3 percent of total revenues to 24.0 percent. Figure 2 below shows that, as intergovernmental revenues to cities have slowed, the result has been a greater reliance on revenues derived from property taxes.

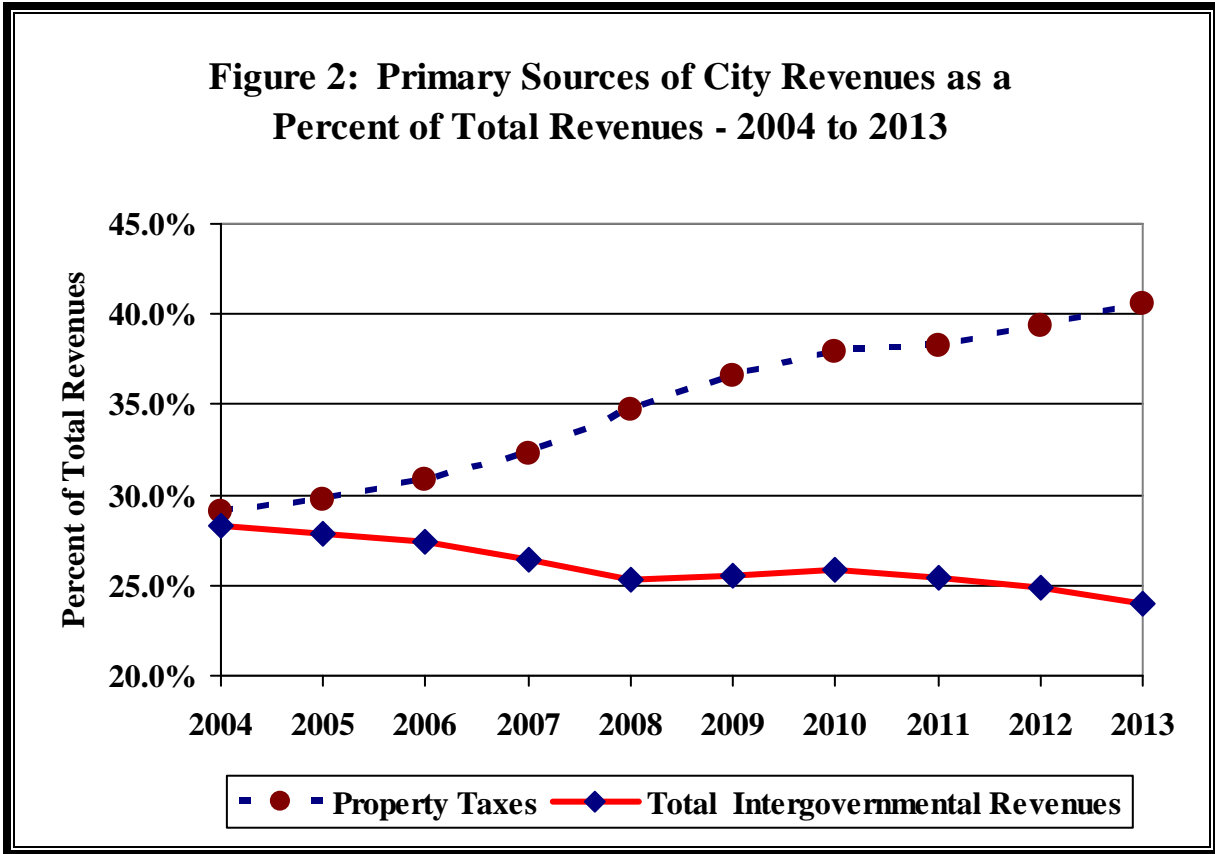

Table 1 on the following page provides a summary of the trend in city revenues from 2004 to 2013 when adjusted for inflation. The category of taxes was the only source of revenues to grow over this period, increasing 12.9 percent. All other categories of revenues showed declines over the ten-year period including interest earnings (-123.0 percent), all other revenues (-37.8 percent), fines and forfeits (-35.9 percent), state grants (-26.4 percent), licenses and permits (-22.7 percent), special assessments (-22.4 percent), local unit grants (-19.2 percent), federal grants (-13.0 percent), and charges for services (-2.9 percent).

Table 1: Total City Revenues in Constant Dollars

Revenues	2004	2008	2009	2013	2004 - 08 5-Year Change	2009 - 13 5-Year Change	10-Year Change
Taxes	\$1,615,814,885	\$1,784,261,697	\$1,847,236,972	\$1,824,046,844	10.4%	-1.3%	12.9%
Special Assessments	286,890,417	223,778,485	234,754,535	222,567,149	-22.0%	-5.2%	-22.4%
Licenses and Permits	165,408,805	112,666,689	99,359,131	127,792,995	-31.9%	28.6%	-22.7%
Federal Grants	185,882,619	193,193,160	181,105,470	161,726,037	3.9%	-10.7%	-13.0%
State Grants	848,133,132	693,938,898	720,825,251	624,337,445	-18.2%	-13.4%	-26.4%
Local Unit Grants	100,393,504	74,455,981	65,603,075	81,124,911	-25.8%	23.7%	-19.2%
Charges for Services	406,842,459	358,109,766	360,009,019	395,065,597	-12.0%	9.7%	-2.9%
Fines and Forfeits	41,848,613	35,667,394	35,461,746	26,841,640	-14.8%	-24.3%	-35.9%
Interest Earnings	89,771,533	149,852,947	79,799,336	(20,655,267)	66.9%	-125.9%	-123.0%
All Other Revenues	263,238,536	174,482,509	177,211,473	163,714,694	-33.7%	-7.6%	-37.8%
Total Revenues	\$4,004,224,503	\$3,800,407,526	\$3,801,366,008	\$3,606,562,045	-5.1%	-5.1%	-9.9%

Governmental Expenditures

Actual total city expenditures grew from \$4.78 billion in 2004 to \$5.38 billion in 2013. This represents an increase of 12.7 percent. Over the ten-year period of 2004 to 2013, an examination of city finances shows that, when adjusted for inflation, 2013 expenditure levels are below 2004 levels and decreased 15.8 percent over the ten-year period. Figure 3 below shows the contrast between expenditures in actual and constant dollars.

The three components of city spending are total current expenditures, total capital outlays, and total debt service. Over the ten-year period, when adjusted for inflation, total current expenditures increased 1.0 percent, capital outlays decreased 37.3 percent, and debt service decreased 32.5 percent.

Table 2 below provides a summary of expenditures from 2004 to 2013 in constant dollars. Over this period, only two categories of expenditures grew: conservation of natural resources (191.9 percent) and public safety (0.9 percent). While the percentage increase in conservation of natural resources expenditures is large, the category represents just 0.1 percent of city expenditures. All other categories of expenditures decreased over this period.

Expenditures	2004	2008	2009	2013	2004 - 08 5-Year Change	2009 - 13 5-Year Change	10-Year Change
General Government	\$460,992,855	\$445,002,476	\$454,016,125	\$443,785,394	-3.5%	-2.3%	-3.7%
Public Safety	1,065,040,607	1,146,966,698	1,127,216,757	1,074,747,752	7.7%	-4.7%	0.9%
Streets and Highways	1,076,500,117	921,470,331	920,713,016	916,783,128	-14.4%	-0.4%	-14.8%
Sanitation	23,456,543	22,535,741	20,361,484	13,814,008	-3.9%	-32.2%	-41.1%
Health	23,819,620	19,686,259	20,733,805	22,375,633	-17.4%	7.9%	-6.1%

Overview of Cities Over 2,500 in Population

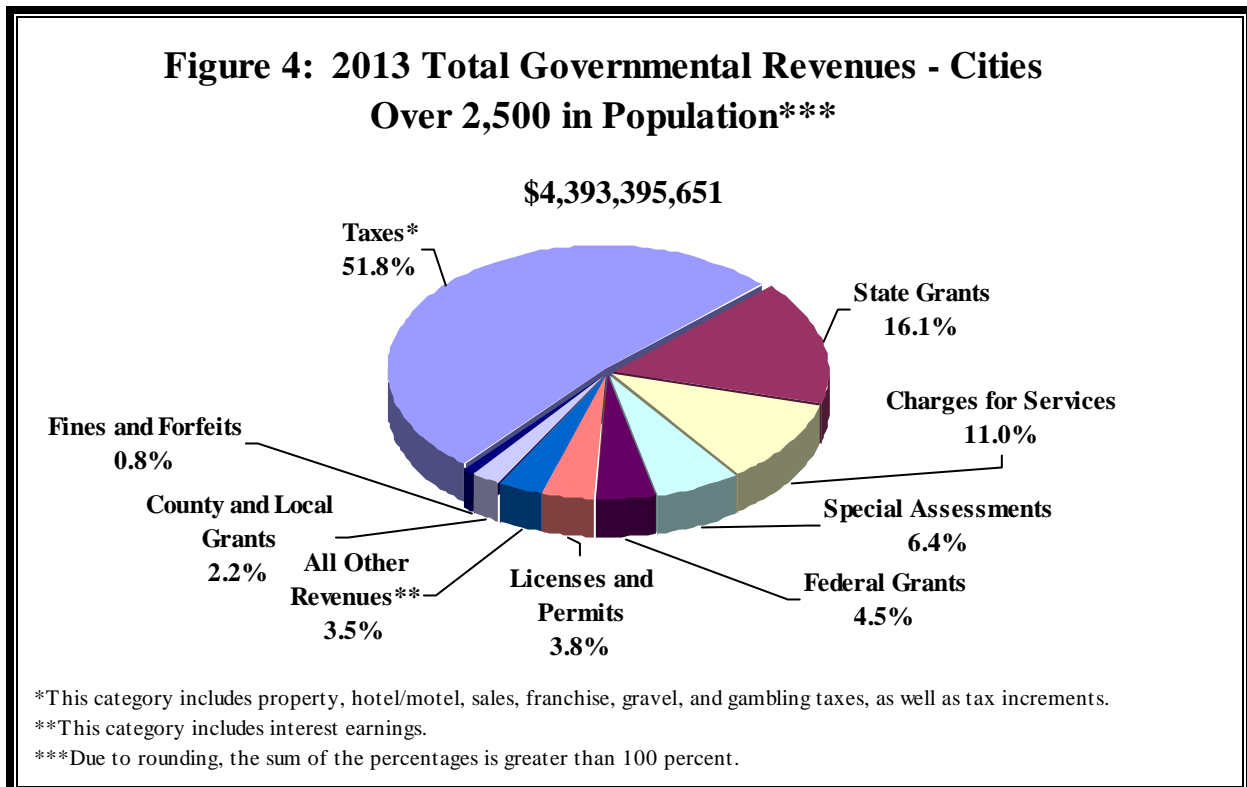

Total Governmental Revenues

In 2013, cities over 2,500 in population, or large cities, had total governmental revenues of \$4.39 billion. This represents an increase of 0.4 percent over 2012 levels. The primary revenue sources for large cities were taxes and state grants, which accounted for 68.0 percent of all large city revenues.

Among the various categories of large city revenues, five showed increases, while five showed decreases between 2012 and 2013. The categories with the largest increases were all other revenues (21.1 percent), special assessments (10.2), county and local grants (9.9 percent), and licenses and permits (9.4 percent). Those with the largest decreases were interest earnings (-153.5 percent), fines and forfeits (-13.6 percent), and federal grants (-11.4 percent).

The category of interest earnings, which accounts for investment income, realized gains and losses on investments, and the net increase or decrease in the fair value of investments, showed a net loss of \$30.3 million in 2013. Large cities were severely impacted by the steep decline in bond prices in 2013. Cities are limited to investing in federal, state, and local bonds, notes, bills, and other securities.

Figure 4 below shows the relative shares of total governmental revenues by source. Underlying data for this figure, as well as five-year trends, can be found in Table 8 on page 28.

Total Governmental Expenditures

Cities provide a variety of services. Most expenditures related to these services are accounted for in governmental funds. The governmental funds are classified as the General, Special Revenue, Capital Projects, Permanent, and Debt Service Funds. In 2013, cities over 2,500 in population expended \$4.88 billion from these various governmental funds to provide city services. This represents an increase of 0.1 percent over 2012 total governmental expenditures. Total governmental expenditures include current expenditures, capital outlays, and debt service. Current expenditures accounted for 65.1 percent of total governmental expenditures, while capital outlay accounted for 20.9 percent, and debt service accounted for 14.0 percent.

The largest category of current expenditures for cities over 2,500 in population was public safety, while streets and highways was the largest capital outlay expenditure. Public safety accounted for 39.3 percent of all current expenditures -- more than double that of any other category. Streets and highways accounted for 62.7 percent of all capital expenditures, over five times greater than any other category of capital outlay.

Figure 5 below shows the relative shares of total governmental expenditures by function. The underlying data for this figure is detailed in Table 9 on page 29.

Capital Outlay Expenditures

Cities over 2,500 in population expended \$1.02 billion on capital investments in 2013. This represents a decrease of 0.8 percent from the level expended in 2012. Capital outlay expenditures are more likely than current expenditures to vary significantly from one year to the next. The reason for this is that capital projects tend to be large in size, but the associated costs are short-term. Table 3 below shows total capital outlays in actual dollars and per capita amounts for large cities.

Year	Total Capital Outlay (actual dollars)	Per Capita*
2009	\$1,097,801,667	\$280
2010	\$1,033,480,751	\$261
2011	\$ 960,350,132	\$241
2012	\$1,026,282,677	\$255
2013	\$1,018,339,939	\$250

*Per capita amounts are based on the total population of cities over 2,500.

Figure 6 below illustrates the trend in capital outlay expenditures for the years 2009 to 2013.

Debt Service

In 2013, large cities expended a total of \$681.8 million on debt service, which represented 14.0 percent of total expenditures. Debt service includes expenditures for the principal and interest payments of debt incurred by cities. Between 2012 and 2013, large city debt service expenditures decreased \$91.3 million, or 11.8 percent.

Figure 7 below shows the trend in the percentage of total expenditures allocated to debt service.

Municipal Enterprises

In addition to governmental funds, many cities establish enterprise funds to account for services that are financed and operated in a manner similar to private business enterprises. These enterprises generally are intended to be self-sustaining through fees and user charges. Although some enterprises may earn a net profit, most have the objective of breaking even. However, some municipalities choose to subsidize an enterprise that benefits the community as a whole. Enterprise fund accounting is also used to provide more detailed financial information on operations where there are public policy, accountability, management control, and other concerns. The most common enterprises created by large cities are for recreation, sewer, and water activities.

In aggregate, large city municipal enterprises reported a net income of \$149.3 million and net transfers (transfers out minus transfers in) of \$104.7 million in 2013. This represents a decrease of 18.6 percent in net income and a 6.9 percent decrease in net transfers from 2012. An example of this type of transfer is when city officials transfer excess reserves from the Water Utility Enterprise Fund to the General Fund. Overall, net transfers represented 70.1 percent of net profits among large city enterprises. Figure 8 below examines the five-year trend for large cities in net transfers from enterprise funds as a percent of their net income.

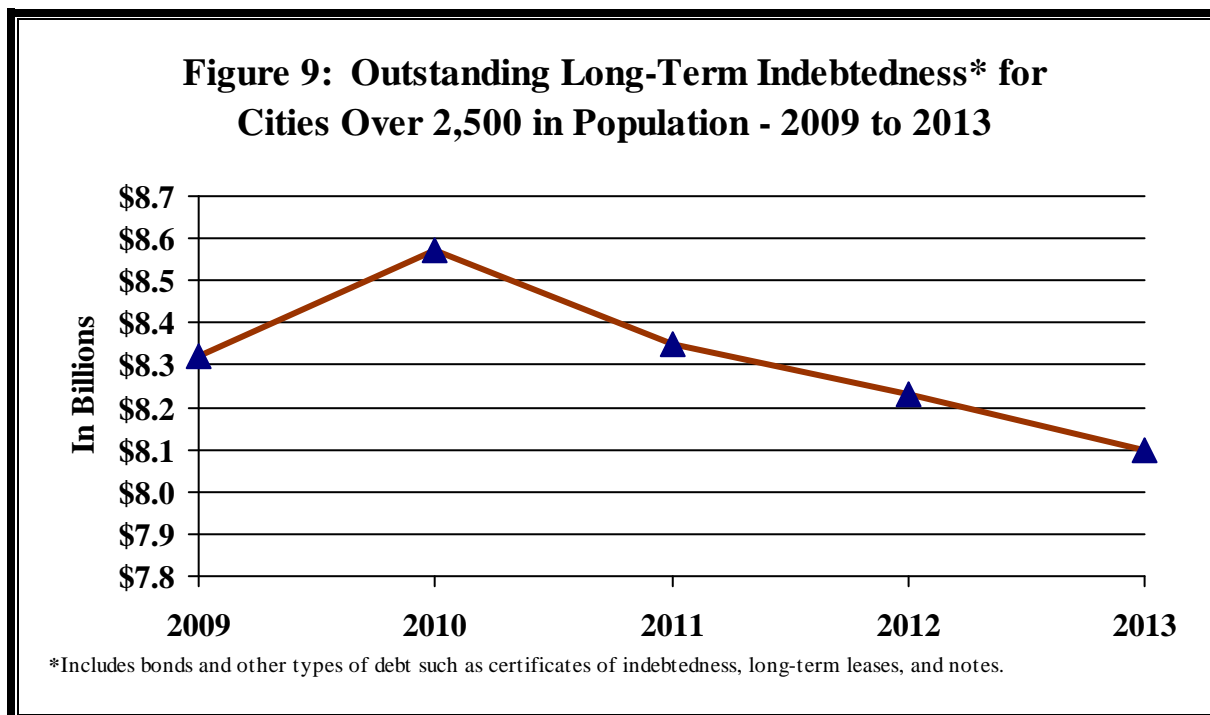

Outstanding Long-Term Indebtedness

Cities over 2,500 in population carried long-term debt of \$8.10 billion, or \$1,988 per capita, at the end of 2013. This represents a decrease of 1.6 percent from the 2012 level. Cities incur long-term debt through various ways such as the issuance of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Long-term lease agreements are also classified as long-term debt. Cities may only borrow to finance capital projects and purchases but are restricted by law from borrowing for current expenditures. The amount of outstanding debt affects a city's expenditures because cities must make principal and interest payments to service the debt. Table 4 below shows the outstanding bonded indebtedness for 2012 and 2013.

	2012 Amount	2013 Amount
General Obligation	\$1,883,395,437	\$1,880,001,426
General Obligation Tax Increment	416,667,133	382,493,781
Revenue Tax Increment	51,468,322	43,769,210
Special Assessment	1,969,411,470	1,973,706,049

Revenue	1,100,181,292	1,106,295,242
All Other	58,631,444	42,121,680
Total Bonded Indebtedness	<u>\$6,822,005,389</u>	<u>\$6,753,098,703</u>

Figure 9 below shows the five-year trend of outstanding long-term debt for cities over 2,500 in population.

Unrestricted Fund Balances of the General and Special Revenue Funds

The unrestricted fund balances of large cities' General and Special Revenue Funds totaled \$1.45 billion in 2013. This was an increase of 2.2 percent over 2012. Cities should have relatively large fund balances at the end of the year (December 31) because they must rely on them to meet expenditures during the first five months of the next fiscal year until they receive the first property tax and state aid payments.

Large city unrestricted fund balances as a percent of total current expenditures averaged 45.5 percent in 2013, compared to 46.0 percent for unrestricted fund balances in 2012. Larger cities tend to have lower unrestricted fund balances as a percent of current expenditures than small cities. Unrestricted fund balances as a percent of current expenditures averaged 28.3 percent for cities of the first class, compared to 73.1 percent for fourth class cities.

As discussed earlier, cities were required to implement GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in 2011. This statement changed the classifications of fund balances. Under GASB 54, cities classify fund balances for each fund as *nonspendable, restricted, committed, assigned, or unassigned*. The last three of these classifications are considered the unrestricted portion of the fund balance and replace the unreserved classifications previously used for this analysis. Appendix A (pg. 357) provides a more detailed discussion of fund balances and GASB 54.

Figure 10 below shows the unrestricted fund balances for the General and Special Revenue Funds by type.

Overview of Cities Under 2,500 in Population

Total Governmental Revenues

In 2013, cities under 2,500 in population, or small cities, had total governmental revenues of \$433.8 million. This represents a decrease of \$6.5 million, or 1.5 percent, from 2012.

The year-to-year decrease in total revenues was primarily the result of significant declines in three sources of revenues: federal grants (-34.3 percent), interest earnings (-30.6 percent), and state grants (-4.4 percent). Combined, these three categories accounted for a decrease in revenues of \$17.1 million. The loss in revenues from the three categories was partially offset by increases in several other categories including county and local grants (25.7 percent), licenses and permits (13.5 percent), charges for services (4.9 percent), special assessments (3.5 percent), and taxes (2.1 percent). Increases in these categories of revenues lowered the overall decrease in revenues to \$6.5 million.

The main sources of revenues for small cities in 2013 were state grants and taxes, which together accounted for 67.1 percent of all revenues.

Figure 11 below shows the relative shares of total governmental revenues by source. The underlying data for this figure is in Table 12 on page 33.

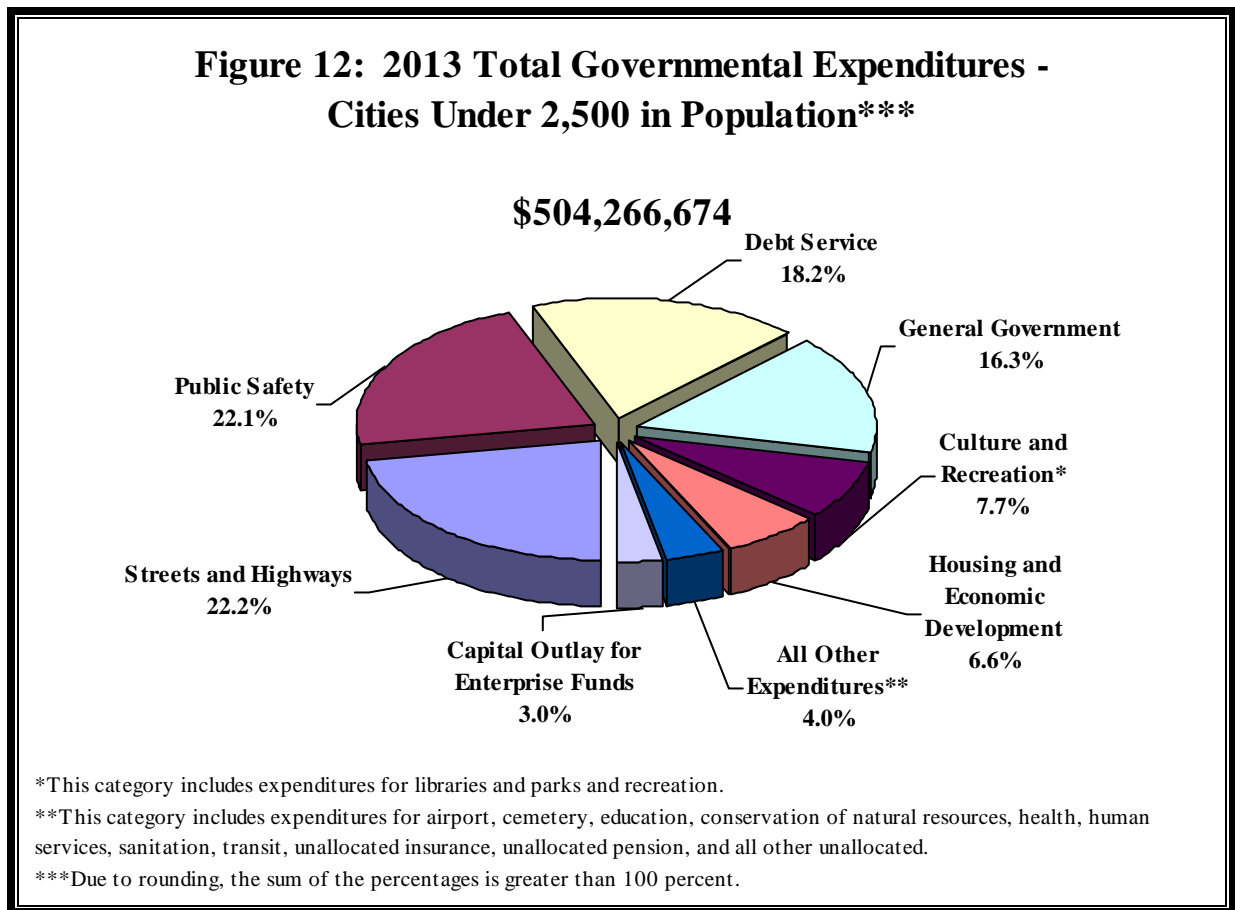

Total Governmental Expenditures

Most city services are accounted for in governmental funds. The governmental funds are made up of the General, Special Revenue, Capital Projects, Permanent, and Debt Service Funds. In 2013, cities under 2,500 in population expended \$504.3 million to provide city services. This represents a decrease of 4.1 percent from 2012 total governmental expenditures. Although overall small city expenditures decreased, a further breakout of expenditures shows that current expenditures increased 5.8 percent, while capital outlays decreased 17.2 percent and debt service decreased 12.6 percent.

The categories of expenditures that contributed most to the 4.1 percent decrease in total expenditures were debt service, streets and highways, airports, capital outlay for enterprise funds, and sanitation. Spending on these five categories decreased by \$32.4 million between 2012 and 2013. Increases in other categories of expenditures reduced the overall decrease in total expenditures to \$21.7 million.

In 2013, the four largest expenditure categories for cities under 2,500 in population were streets and highways, public safety, debt service, and general government. These four categories together accounted for 78.8 percent of all expenditures.

Figure 12 below shows the relative shares of total governmental expenditures of small cities by function. The underlying data for this figure is in Table 12 on page 33.

Capital Outlay Expenditures

Capital outlay expenditures account for the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Small cities expended \$118.1 million on capital outlay in 2013. This represents a decrease of 17.2 percent from the level expended in 2012.

Capital outlay expenditures are more likely than current expenditures to vary significantly from one year to the next. The reason for this is that capital projects tend to be large in size, but the associated costs are short-term. Some of the factors that influence the level of capital investments include: demands for public meeting places and facilities; the need to replace aging infrastructure; public safety concerns; infrastructure improvements for new developments; and damage to public facilities caused by fire, floods, and storms.

Figure 13 below illustrates the trend in capital outlay expenditures of small cities for the years 2009 through 2013.

Debt Service

Debt service includes expenditures for the principal and interest payments on debt incurred by cities. In 2013, small cities expended a total of \$91.6 million on debt service. This represented a decrease of 12.6 percent from 2012. Overall, debt service expenditures accounted for 18.2 percent of total expenditures for small cities.

Figure 14 below shows the five-year trend in the percent of total expenditures allocated to debt service.

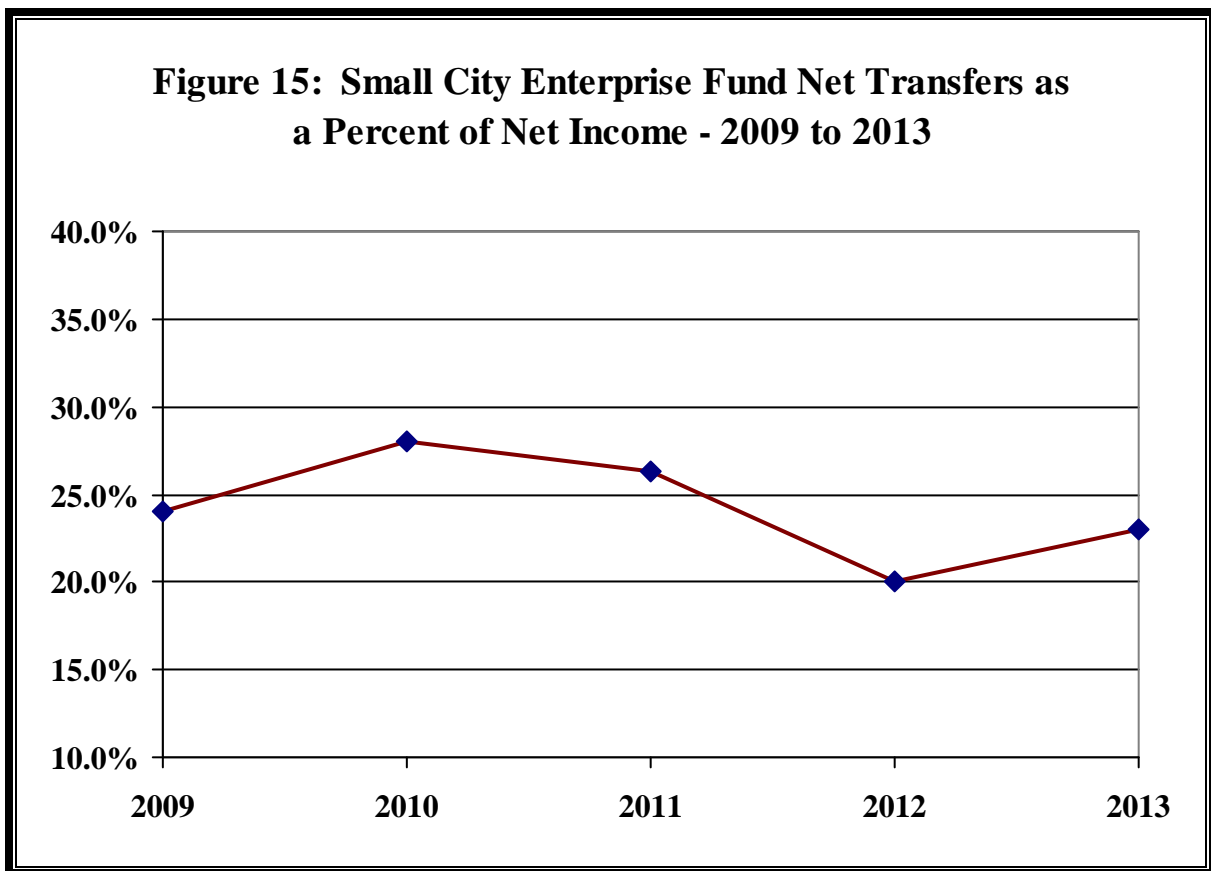

Municipal Enterprises

The total net income of small city enterprises in 2013 was \$38.9 million, and the net amount transferred to other funds was \$9.1 million. This represents a decrease in net income of 23.6 percent and a decrease in net transfers (transfers out minus transfers in) of 10.8 percent between 2012 and 2013.

In 2013, the municipal enterprises of small cities transferred 23.4 percent of their net income to other funds, compared to 20.0 percent in 2012.

Figure 15 below examines the five-year trend in net transfers from enterprise funds as a percent of net income.

Outstanding Long-Term Indebtedness

Cities under 2,500 in population carried long-term debt totaling \$1.19 billion at the close of 2013. This represents a 0.6 percent increase over the level in 2012. On a per capita basis, small cities carried \$3,104 in long-term debt, compared to \$1,988 for large cities. While there is no single reason for the higher level of indebtedness per capita among the smaller cities, a primary reason is that the high costs of projects, such as water and sewer line replacement, are spread across fewer people.

Table 5 below looks at outstanding bonded indebtedness for 2012 and 2013.

	2012 Amount	2013 Amount
General Obligation	\$165,649,915	\$171,930,296
General Obligation Tax Increment	19,922,843	21,601,682
Revenue Tax Increment	319,763	290,323

ENTERPRISE FUND FOOTNOTES

- [*] The accrual basis of accounting is used; however, no depreciation is shown.
- [0] Information is taken from a cash receipts and disbursements statement.
- [1] The water utility operations include the sewer and refuse disposal enterprise fund operations.
- [2] The water utility operations include the refuse disposal enterprise fund operations.
- [3] The water utility operations include the sewer enterprise fund operations.
- [4] The electric utility operations include the water enterprise fund operations.
- [5] Water is purchased from the City of St. Paul.
- [6] The electric utility operations include the sewer enterprise fund operations.
- [7] The enterprise is a joint powers agreement.
- [8] The electric utility operations include the heat enterprise fund operations.
- [9] The electric utility operations include the gas enterprise fund operations.
- [10] The electric utility operations include the cable T.V. enterprise fund operations.
- [11] The hospital operations include the nursing home operations.
- [12] The enterprise fund fiscal year-end is April 30.
- [13] The enterprise fund fiscal year-end is June 30.
- [14] The enterprise fund fiscal year-end is September 30.
- [15] The operations were shown in the special revenue funds; an enterprise fund treatment is required.
- [16] The municipal liquor store discontinued on-sale operations during the current year.
- [17] The electric utility operations include the refuse disposal enterprise fund operations.
- [18] The sewer utility operations include the refuse disposal enterprise fund operations.
- [19] The debt payments are also shown in the governmental funds.
- [20] The facility is under construction.
- [21] The enterprise fund discontinued operations during the current year.
- [22] Nonoperating income includes the gain on the sale of fixed assets.
- [23] The enterprise fund is shown on the modified accrual basis of accounting.

ENTERPRISE FUND FOOTNOTES
(CONTINUED)

- [24] The operation was shown in the governmental funds. The Office of the State Auditor requires that this type of operation is shown as an enterprise fund.
- [25] The operations were transferred to the governmental funds.
- [26] The hospital operations include the clinic enterprise fund operations.
- [27] The water utility operations include the recycling enterprise fund operations.
- [28] The gas utility operations include Circle Pines and Lino Lakes.
- [29] The enterprise is a discretely presented component unit.
- [30] The electric utility operations include the refuse, sewer, and water enterprise fund operations.
- [31] The Public Utility Commission operations include the refuse, sewer, and water enterprise fund operations.
- [99] This entity failed to report in time for this publication.

APPENDIX A

**FACTORS INFLUENCING GENERAL AND SPECIAL REVENUE
UNRESTRICTED FUND BALANCES**

This page left blank intentionally

Appendix A - Factors Influencing General and Special Revenue Unrestricted Fund Balances

It is important to provide context on fund balance as reported by cities for this report. Fund balances are reported at the close of the fiscal year, which runs concurrent with the calendar year. City fund balances should be relatively large at the end of the year because of local government cash-flow cycles. Cities must rely on their fund balances to meet expenses during the first five months of the next fiscal year, until they receive the first property tax payments (May) and aid payments from the state (July).

Unlike state government, which collects income tax withholding and sales tax receipts regularly throughout the year, Minnesota's cities do not have a constant flow of revenue from which they are able to fund local government operations. Property tax levies, state aid, and property tax credits comprise the majority of city discretionary revenues. Minnesota statutes govern the flow of these major revenue sources into city treasuries:

- Counties distribute the cities' share of the first half of property tax levies in late May and early June. Cities receive the first half of their state aid and property tax credits from the state in July of each year.
- Counties distribute the cities' share of the second half of property tax levies in late October and early November.
- Cities receive the second half of their state aid and property tax credits from the state in December of each year.

Given this state-controlled flow of revenue, city fund balances (which are measured on December 31) are the primary sources of funds available to cities for their operating expenses during the first five months of the next fiscal year. An adequate fund balance will provide a local government with the cash flow required to finance expenditures without short-term borrowing.

Unique Circumstances of Each Jurisdiction Determine the Size of Fund Balance Needed

While cities must rely on the fund balances for cash flow purposes during the first five months of a year, the unique circumstances of each local government will determine the size of a fund balance that must be maintained to avoid the need for short-term borrowing and to operate effectively.

Numerous factors must be considered in determining the size of a fund balance necessary for a city to avoid short-term borrowing including:

- If cities receive relatively large amounts of revenue from sources such as fees, fines, charges for services, other intergovernmental grants and aids, or interest on investments

during the first five months of the calendar year, then they will be less dependent on their fund balances for cash flow purposes.

- Cities may be able to delay certain purchases until after the initial property tax and state aid payments are received. While payments for employee salaries, wages, and most benefits cannot be delayed during the first five months of the year, purchases of supplies and capital equipment may be delayed.

The individual cash flow needs of a city will determine the minimum fund balance that is necessary for a city to operate effectively. Cities that are able to generate significant revenues from sources other than property taxes and state aid payments may require relatively smaller fund balances to support their cash flow requirements. Conversely, cities that rely heavily on property taxes and state aid for the majority of their revenues will need larger fund balances to meet their cash flow needs from January through June of every calendar year.

While there are many factors that help determine the minimum fund balance needed to maintain financial health, the Office of the State Auditor recommends that at year-end or other key times of the year, local governments that rely significantly on property taxes maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures.⁸ If the local government's unrestricted fund balance is less than or greater than this recommendation, the local government should be able to explain the reason for the difference.

The Office of the State Auditor recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level.

⁸The Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, went into effect for the 2011 reporting year. This statement provides new guidelines and classifications for fund balances. The new classifications: *nonspendable, restricted, committed, assigned, and unassigned*, replace the old designations of *reserved, unreserved designated, and unreserved undesignated*. Previously, the analysis of fund balance focused on the unreserved portion of the fund balances of the General and Special Revenue Funds. The new focus is on the unrestricted portion of these fund balances, and includes the *committed, assigned, and unassigned* classifications. For more information on GASB 54, please see the Office of the State Auditor's Statement of Position entitled, [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54.](#)

Fund Balance Classifications/Definitions for Governmental Funds

The fund balances of a local government’s governmental funds should be reported in the new classifications based on the definitions in the following table:

<i>Fund Balance Reporting</i>			
<i>Classification</i>	<i>Definition</i>	<i>Examples</i>	
Nonspendable	“Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.” ⁹	<ul style="list-style-type: none"> • Inventories, • Prepaid items, • Long-term receivables, and • Permanent principal of endowment funds. 	
Restricted	“Fund balance should be reported as restricted when constraints placed on the use of resources are either: <ol style="list-style-type: none"> Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or Imposed by law through constitutional provisions or enabling legislation.”¹⁰ 	<ul style="list-style-type: none"> • Restricted by state statute, • Unspent bond proceeds, • Grants earned but not spent, • Debt covenants, • Taxes dedicated to a specific purpose, and • Revenues restricted by enabling legislation. 	
Unrestricted	Committed	“Used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority.” ¹¹	<ul style="list-style-type: none"> • The governing board has decided to set aside \$1 million for a new city hall, and • Property tax levies set for a specific purpose by resolution.
	Assigned	“Amounts that are constrained by the government’s intent to be used for specific purposes, but are neither restricted nor committed.” ¹²	<ul style="list-style-type: none"> • Governing board has set aside \$2 million for a county hospital and the county manager may amend this up to \$100,000; • Governing body delegates the authority to assign fund balance to the finance officer; • Governing board has appropriated fund balance usually titled “subsequent year’s expenditures;” and • Positive residual balances in governmental funds other than the General Fund.
	Unassigned	Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned. ¹³

GLOSSARY

This page left blank intentionally

Glossary

ASSIGNED FUND BALANCES - Fund balances that are constrained by the government's intent that they be used for specific purposes, but are neither restricted nor committed.

BORROWING - These revenues reflect the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Cities are restricted by law from borrowing for current expenses.

CAPITAL OUTLAY - These expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Capital outlay varies from year to year based on the needs and resources of the cities.

CAPITAL OUTLAY FOR ENTERPRISE FUNDS - These funds include expenditures from governmental funds for improvements to public service enterprises, such as sewer and water mains.

CAPITAL PROJECTS FUND - A fund created to account for the financial resources that are used for the acquisition or construction of a fixed asset.

CASH BASIS OF ACCOUNTING - The basis of accounting that recognizes transactions or events when related cash amounts are received or disbursed.

CHARGES FOR SERVICES - These revenues reflect fees for activities of the governmental funds. These include rent of city hall by individuals or organizations, police and fire contracts, fire calls, recreation fees, park dedication fees, etc.

COMMITTED FUND BALANCE - The fund balance amount that can be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority.

DEBT SERVICE EXPENDITURES - These expenditures reflect the annual costs of servicing the outstanding debt of the local government. These costs include principal, interest, and some fiscal charges.

DEBT SERVICE FUND - A fund to account for the collection of resources and payment of principal and interest from long-term debt.

ENTERPRISE FUND - A fund established to account for operations financed and operated in a manner similar to private business. Examples include water, sewer, and electric utilities. The expenses of providing services are primarily financed by user charges.

FINES AND FORFEITS - These revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

FRANCHISE TAXES - These revenues reflect proceeds from taxes imposed on public utilities, usually involving elements of a monopoly (e.g., electric utilities, gas utilities, and cable T.V.), for use of public property.

GENERAL FUND - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

Glossary

GENERAL GOVERNMENT EXPENDITURES - These expenditures reflect the costs associated with running a local government. Expenditures in this category include salaries, wages, and benefits of legislative, judicial, and administrative personnel; supplies; and city hall maintenance.

GOVERNMENTAL FUNDS - These are the funds through which most governmental activities are financed. The five governmental fund types are: General, Special Revenue, Debt Service, Permanent, and Capital Projects.

GRAVEL TAX - These revenues are derived from taxes imposed by the local government for aggregate material removal.

HEALTH - These expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.

HOUSING AND REDEVELOPMENT AUTHORITIES (HRA) AND ECONOMIC DEVELOPMENT AUTHORITIES (EDA) - These expenditures are for development and redevelopment activities in blighted or otherwise economically disadvantaged areas. Activities may include low-interest loans to individuals and businesses, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and additional types of assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.

INTEREST ON INVESTMENTS - These revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds. This category also includes dividends. In addition, the net increase or decrease in the fair value of investments is recorded here.

LICENSES AND PERMITS - These revenues reflect receipts from liquor licenses, cigarette licenses, other business licenses, street use permits, building permits, and other non-business licenses and permits.

MISCELLANEOUS EXPENDITURES - These expenditures reflect the costs of activities that were not allocated to a specific function. Some activities included in this category are pension and insurance costs not allocated to a specific department.

MISCELLANEOUS REVENUES - These revenues refer to refunds, reimbursements, donations, and lease payments.

MODIFIED ACCRUAL BASIS OF ACCOUNTING - This is a basis of accounting where: (a) revenues are recognized in the accounting period in which they become available and measurable; and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

NET TAX LEVY - The city net property taxes, after adjustments for state property tax relief aids such as Market Value Credits are applied, which are required to be paid by the property owners of the city.

Glossary

NONSPENDABLE FUND BALANCE - Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

OTHER FINANCING SOURCES - The long-term debt proceeds, sale of fixed assets, and transfers from other funds.

OTHER FINANCING USES - This category includes activities such as transfers from one fund to another and transactions involved in the issuance of refunding bonds. For example, in an advance refunding, bond proceeds are deposited with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time.

OUTSTANDING LONG-TERM DEBT - This category refers to the long-term debt that a local government has incurred to finance its capital projects. Examples of long-term debt include various types of bonds and other obligations such as notes and long-term leases.

PARKS AND RECREATION - These expenditures reflect park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, cable T.V., baseball fields, organized recreation activities, etc.

PUBLIC SAFETY EXPENDITURES - These expenditures reflect the costs related to the protection of persons and property. This category combines several distinct city departments, including police, fire, ambulance services, and other protection. They are combined here because cities allocate similar responsibilities differently among these departments.

RESTRICTED FUND BALANCES - Fund balances that have constraints placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

SANITATION - These expenditures reflect the costs of refuse collection and disposal, recycling, as well as weed and pest control. Some cities provide sanitation services through enterprise funds.

SPECIAL ASSESSMENTS - These revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

SPECIAL REVENUE FUNDS - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

STREETS AND HIGHWAYS EXPENDITURES - These expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.

TAX CAPACITY - Tax capacity is the value assigned to the property used to calculate the property taxes.

Glossary

TAX INCREMENTS - These revenues are what cities generate when they establish tax increment financing (TIF) districts. In a TIF district, the increase in property tax revenues in the redeveloped area is used to pay the costs of development and redevelopment in the district rather than the general services of the city, county, and school district.

TAXABLE TAX CAPACITY - This category represents the tax capacity, less the tax increment district value, less the fiscal disparities contribution value, plus the fiscal disparities distribution value.

TOTAL CURRENT EXPENDITURES - This category reflects the total of all expenses related to current operations.

TOTAL EXPENDITURES - This category includes current operating expenses, capital outlays, and debt service principal and interest payments.

TOTAL REVENUES - This category reflects all sources of revenues that increase the amount of available resources without creating a liability or a future payment. Borrowing and transfers between funds are not included in total revenues.

TRANSFERS - ENTERPRISE FUNDS - This category accounts for the transfer of available resources to or from public service enterprises. An example of this transfer is a water utility transferring money to the General Fund.

TRANSFERS - GOVERNMENTAL FUNDS - This category accounts for the transfer of money between governmental fund types.

UNALLOCATED INSURANCE - These expenditures refer to insurance premiums that are not allocated to a specific function of government.

UNALLOCATED PENSION CONTRIBUTIONS - These expenditures refer to contributions to pension plans that are not allocated to a specific function of government.

UNASSIGNED FUND BALANCE - Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned.
