Washington County Performance Measurement Program

Since the mid-1990s, Washington County departments have tracked, reported, and monitored performance measures to support decision-making, and to drive continued improvement in the services provided.

Progress Meetings, scheduled with each department once a year, are an example of continuously improving and advancing use of data and analysis in the organization. The purpose of these meetings is to facilitate an ongoing dialogue about performance results and quality improvement efforts between the Office of Administration and the county's departments.

Washington County's multi-departmental Performance Measurement and Improvement Team (PerMIT) continues to further institutionalize the use of performance measurement, lean, and quality improvement throughout the organization with a five-year Quality Improvement Plan.

Washington County remains committed to making data-driven decisions, ensuring accountability, and providing quality services.
