

STATE OF MINNESOTA

Office of the State Auditor

Rebecca Otto
State Auditor

Criminal Forfeitures **in Minnesota**

For the Year Ended December 31, 2006

Description of the Office of the State Auditor

The mission of the State Auditor's Office is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 160 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 730 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

2006 Criminal Forfeitures

Purpose

Minnesota Criminal Statutes § 609.5315, subd. 6, directs law enforcement agencies to report to the Office of the State Auditor all property seized subject to forfeiture, with the exception of driving under the influence (DUI) related forfeitures.¹ This report provides information on the cash and property seized subject to forfeiture in 2006.² Forfeitures are considered complete in the year in which a final decision is rendered on the seized property regardless of the date the property is initially seized. At that time, items are sold, retained for law enforcement purposes, destroyed, forwarded to other law enforcement agencies, or returned to the owner.

Summary of Forfeiture Activity Completed in 2006

In 2006, 213 Minnesota law enforcement agencies (seven more agencies than reported in 2005) reported to the State Auditor a total of 4,888 incidents of property seized subject to forfeiture. This number represents an increase of 616 forfeiture incidents or a rise of 14.4 percent over the level reported in 2005. The majority of the increase in forfeited property came in the form of guns and vehicles. In addition to the 213 law enforcement agencies that completed forfeitures in 2006, 179 agencies reported that they had zero forfeitures, and 123 did not file reports with the Office of the State Auditor.

Gross sales of forfeited property totaled \$3,918,321 in 2006, up 5.6 percent from the \$3,709,487 reported in 2005. Administrative expenses and lien holder's obligations grew 62.2 percent between 2005 and 2006, rising from \$307,876 in 2005 to \$499,377 in 2006.³ Net proceeds totaled \$3,418,944 in 2006, just 0.5 percent more than the \$3,401,610 reported in 2005. While the number of completed forfeiture incidents increased, the type of property (guns and vehicles) that comprised most of the increase generally netted fewer dollars due to higher expenses and requirements that forfeited firearms not be sold in certain counties.

Of the 4,888 forfeiture incidents reported, 3,352 involved seized cash or seized property that was sold. Net proceeds involving agencies receiving cash or selling property ranged from negative \$6,323 to \$117,972.⁴ Net proceeds per forfeiture incident averaged \$1,020. Table 2 illustrates net proceeds for distribution by cash and property sold, sorted by net proceeds.

This report makes two recommendations regarding criminal forfeitures which can be found on page 7.

¹ Criminal and firearm forfeitures are authorized by Minn. Stat. §§ 609.531-609.5318. DUI offenses are authorized pursuant to Minn. Stat. § 169A.63, and are not required to be reported to this office.

² "Property seized subject to forfeiture" is the term used in Minn. Stat. §§ 609.531 – 609.5318 to describe the subject of this report. Other terminology used in this report such as "forfeiture incidents" and "forfeitures" are intended to convey the same meaning.

³ Expenses deducted may include towing, storage and sale fees for vehicles. For drug forfeitures, expenses may include payoffs to informants, drug purchases, or other expenses incurred in developing the case.

⁴ A loss may occur where the expenses from the sale of the item are greater than the gross amount received. Agencies also received cash for property returned to an owner by agreement, where owners would pay a set amount agreed to by both parties.

State Proceeds from Criminal Forfeitures

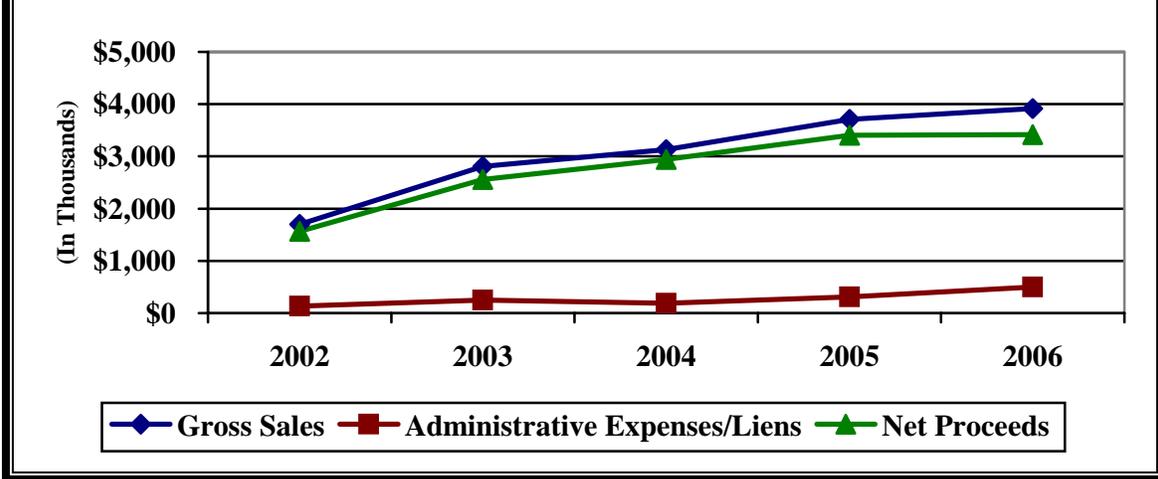

Pursuant to Minnesota Statutes § 609.5315, subd. 5, cash or net proceeds from the sale of forfeited property (after administrative expenses and payment of liens are subtracted) are distributed in the following manner: 70 percent to the appropriate law enforcement agency; 20 percent to the county attorney or other prosecuting agency that handled the forfeiture; and 10 percent to be forwarded within 60 days after resolution of the forfeiture to the Treasury Division of the Department of Finance. In 2006, 4,208 incidents resulted in forfeitures, 347 resulted in an agreement, 195 incidents resulted in court ordered return to the owner, and 138 resulted in other disposition. Of the 4,208 incidents that resulted in a forfeiture of property, the net amount for distribution was \$3,113,532 of which 10 percent goes to the Treasury Division.

Agreements that are completed by the agency and the property owner may involve the agency keeping 100 percent of the proceeds, or the relevant county or city attorney receiving 20 percent of the proceeds. These types of agreements result in no funds being forwarded to the state. Some agencies, especially those that do not own their own impound lots, develop a loss in holding the property before the forfeiture is completed and therefore have no proceeds to distribute.

Figure 1 (on page 3) shows the five-year trend in the gross sales, expenses/liens, and net proceeds of forfeited property that was either sold or was cash. Two trends are noticeable in the chart. The first is a significant rise in the overall value of forfeitures during this period. The growth reflects a cooperative effort between law enforcement agencies and the Office of the State Auditor to clarify reporting requirements and improve communication so that there would be more timely reporting of completed forfeitures. Due to this effort, the number of reported forfeiture incidents rose from 1,441 in 2002 to 4,888 in 2006.

The second trend is a divergence between gross sales of forfeited property and the net proceeds. Due to much higher expenses in 2006, net proceeds grew at a slower pace than gross sales. There are no clear-cut reasons for the increase in expenses but there are several factors that contributed to it. Generally, vehicles generate higher expenses (storage and auction related) and more often have liens that must be paid. When a greater number of vehicles are forfeited in a given year (as was the case in 2006), it is likely that there will be higher administrative costs. In addition, there are no strict guidelines as to what should be included as an expense. As a result, wide variation in the amount of expenses claimed exists among agencies. When agencies that claim more expenses have a higher level of forfeitures in a given year, overall expenses as a percent of gross sales increase. A third factor is the number of forfeitures that listed “court” or “agreement” as the basis of disposition. These forfeitures tend to have larger amounts listed as expenses because a “court” or “agreement” disposition often requires some amount of money to be returned to the owner or lienholder.

Figure 1: Levels of Gross Sales, Administrative Costs/Liens, and Net Proceeds of Forfeited Property 2002-2006

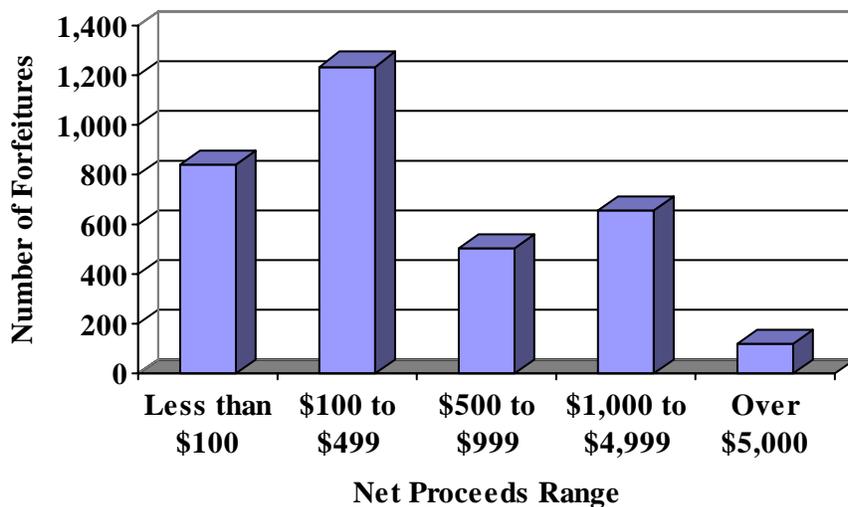

Range in Net Proceeds Level

Law enforcement agencies receive funds derived from forfeitures in three primary ways: the item forfeited was cash, the forfeited item was sold, or an agreement requires monetary compensation for the agency. An analysis of the net proceeds of these incidents showed the following:

- 840 (25.1 percent) forfeitures were less than \$100 (including losses).
- 1,235 (36.8 percent) forfeitures ranged from \$100 to \$499.
- 501 (14.9 percent) forfeitures ranged from \$500 to \$999.
- 658 (19.6 percent) forfeitures ranged from \$1,000 to \$4,999.
- 118 (3.5 percent) forfeitures were greater than \$5,000.

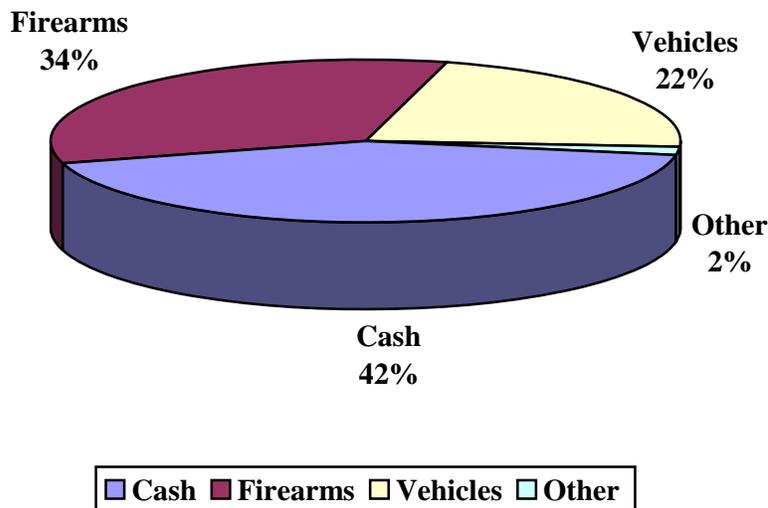

Figure 2: Number of Forfeiture Incidents by Net Proceeds Range

Type of Property

The following chart shows the type of property seized subject to forfeiture in 2006. Though percentages changed slightly, the makeup of property seized was the same as in 2005. Cash accounted for 42 percent of property seized, followed by firearms (34 percent), vehicles (22 percent), and other property (2 percent).

Figure 3: Types of Property Seized

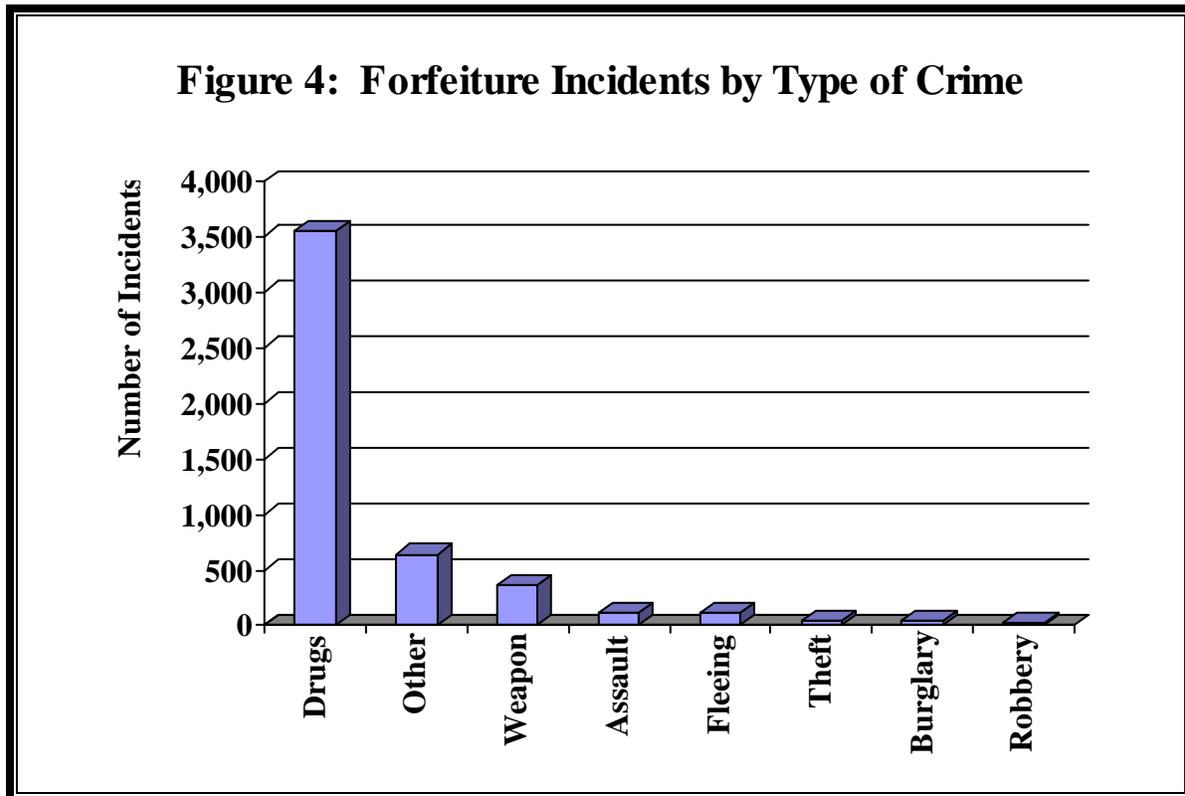

Criminal Forfeiture Activity by Law Enforcement Agency

The 213 law enforcement agencies reporting criminal forfeiture incidents in 2006 included county sheriff's departments, city police departments, various drug task forces, and the Minnesota State Patrol. The agencies with the most forfeiture incidents in 2006 were: the Minneapolis Police Department (1,281), the Minnesota State Patrol (373), Dakota County Drug Task Force (200), the Anoka-Hennepin Drug Task Force (154) and the St. Paul Police Department (152). Forfeiture incidents are an infrequent occurrence for most law enforcement agencies, with many smaller agencies forwarding forfeiture incidents to a narcotics task force.

Type of Crime

Criminal activity involving a controlled substance accounted for 3,550 (72.6 percent) of the 4,888 forfeiture incidents reported in 2006. The remaining incidents involved fleeing, theft, weapons, assault, robbery, and other crimes.

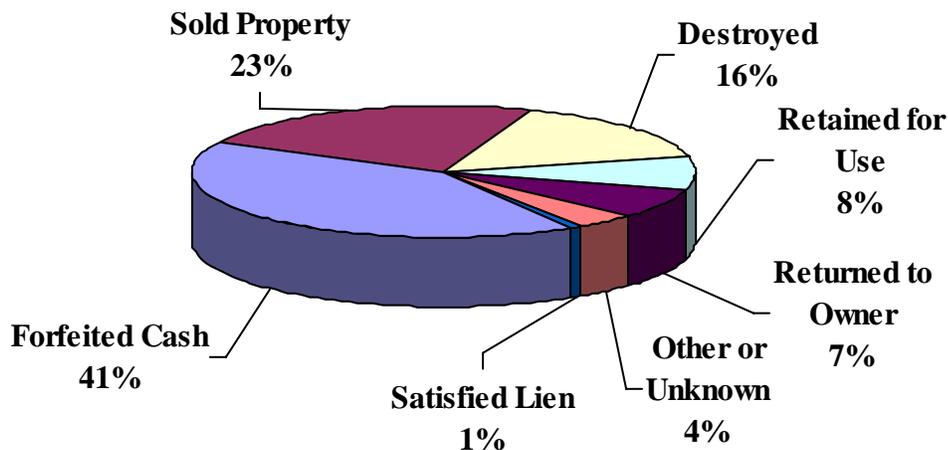

Forfeited Property Destroyed, Retained, or Forwarded to Another Agency

In addition to selling forfeited property, law enforcement agencies have the authority to destroy property that is harmful to the public, to retain property for official use by the agency, or to forward property to a federal agency (usually the Drug Enforcement Administration). The value of property used for law enforcement is not included in the net proceeds of criminal forfeitures or the funds transmitted to the treasury division until the property is sold. In 2006, 384 forfeitures

resulted in property being retained by the agency or forwarded to another agency, 746 forfeitures resulted in property being destroyed, while 22 forfeitures were used to resolve liens against the property. The “Other” category includes any other disposition of the property not previously classified and accounted for 180 forfeiture incidents. Property can also be returned to the owner, which occurred 184 times in 2006.

Figure 5: Final Disposition of Property Seized Subject to Forfeiture

Property or Proceeds Shared With Another Agency

Law enforcement agencies frequently work together, especially on drug-related offenses. Law enforcement agencies working on a case often share the cash proceeds from drug-related criminal forfeitures. The cash proceeds are divided among the cooperating agencies after the proceeds are distributed in accordance with Minnesota Statutes § 609.5315, subd. 5. Sharing occurs most frequently in narcotics task forces, where proceeds are split amongst the contributing agencies.

Agencies Reporting No Forfeitures in 2006

Not all law enforcement agencies in the state process property for forfeiture. For 2006, 179 agencies reported that they did not process any property under the forfeiture statutes (see Appendix 1). As previously mentioned, reported forfeitures do not include DUI-related forfeitures. This does not mean that forfeitable offenses do not occur in these jurisdictions, but rather it is often cost-prohibitive for these agencies to take advantage of the forfeiture statutes due to their limited size. Many agencies forward their forfeitures to the task force in their jurisdiction. Appendix 2 contains a map of the narcotics task forces throughout the state.

Recommendations

1.) Reinstate the reporting requirement for forfeitures related to driving under the influence.

Although this report provides detailed information on forfeiture activity in the state of Minnesota, it lacks data from one significant basis of property seizure: seizures related to driving under the influence (DUI). Between 1995 and 1997, law enforcement agencies were required to report to the Office of the State Auditor DUI-related vehicle forfeitures. The reporting requirement was repealed in 1997. Since that time, there has been no tracking of these forfeitures. As the intent of the forfeiture reporting legislation was to track the nature and extent of forfeitures in the state, the inclusion of DUI-related forfeitures would provide a more comprehensive look at the extent to which forfeiture laws are being utilized in the state. In addition, with the trend of increased administrative expenses/liens for the handling of forfeited vehicles for law enforcement agencies, it would be informative for policy makers to know the full impact of the statute on law enforcement budgets.

2.) Law enforcement agencies should ensure that there are written policies and procedures for forfeiture reporting in their offices.

While cooperative efforts between law enforcement agencies and the Office of the State Auditor have increased awareness and compliance of the laws requiring the reporting of forfeited cash and property, many agencies are still unaware of not only their reporting obligations, but also of their requirement to remit forfeiture proceeds to the state where applicable. One of the primary reasons given for this lack of compliance is that many agencies have high turnover rates in the position that is responsible for tracking forfeitures. In discussions with these employees, we are often told that the previous staff person in the job had not communicated to the new staff person the required details for the reporting forfeitures. As a result, there is often a gap in reporting when a new staff person is given the duties.

The State Auditor recommends that law enforcement agencies develop written policies and procedures and/or a calendar of reports due so that any staff responsible for reporting forfeitures will have a clear understanding of the requirements to ensure that the agency is complying with the law. We understand and appreciate that law enforcement agencies have many reporting requirements with which they must comply and believe that implementing this recommendation can lessen the burden for employees responsible for reporting forfeitures.
